Miners' Journal.

POTTSVILLE, PA.

SATURDAY, OCTOBER 10, 1868.

"Be just and fear not;
Let all the ends thou aim'st at be thy country's,
Thy God's and truth's."

A BATTLE CRY FOR PEACE AND PROSPERITY.

FREEMEN, HEAR IT!

Yes, hear it, and rally to the call, and on Tuesday, 13th of October, 1868, achieve by your ballots, which think as did the Union bayonets during the Rebellion, a victory for Truth, Liberty and Humanity. A victory it will be, so sublime in its results, that, because of it, the people of many generations to come will offer thanks to God, and shower blessings on your memory, as being the willing instruments of Heaven in carving a pathway through serried ranks of foes for the triumphal progress of the chariot of human destiny. Next Tuesday will, indeed, be a day big with national destiny, and all patriotic men ought to realize it and act accordingly. DEFEAT OF THE REPUBLICAN PARTY ON THAT DAY means paralyzation of national industry; drying up to a fearful extent of national resources; abandoned collieries, extinct furnace fires and silent rolling-mills; the tearing of a barbaric ploughshare through the sacred principles of the Declaration of Independence; social disorder; everlastingly disgraceful and ignominious repudiation of the Union war debt, and, very possibly, bloody revolution. Victory for the Republican party WHICH WE KNOW WILL BE ATTAINED, means social rest all over the convulsed land; safety for the life, person and property of every law-abiding American citizen of every color and every race. Victory for the Union party which subdued the Rebellion on the battle-field means prosperous industry and accumulated national wealth; it means busy mines, clattering mills, roaring furnace-fires, AND THE VALLEYS OF SCHUYLKILL COUNTY VIBRATING WITH LOCOMOTIVE WHISTLES, AND THE ROLL OF LONG LINES OF WELL FREIGHTED CARS; it means sustained national credit and financial honor, flourishing commerce and manufactures. Triumph of the Republican Party next Tuesday guarantees the supremacy of the law throughout the spacious Republic, AND THAT WE WILL HAVE peace, such a peace as is the genial parent of a universal prosperity—a prosperity wherein the rich and the poor shall rejoice together. We appeal to all lovers of peace and law, to all right-minded citizens of every creed and nationality, to join the Boys in Blue in holding aloft the banner of our national glory, and in saving the national government from the hands of Rebel chiefs and rebel sympathizing political leaders. THESE REBEL CHIEFS, AND SOME OF THESE NORTHERN POLITICAL LEADERS LIKE VALLANDIGHAM, BRICK POMEROY, FERNANDO WOOD, HENRY CLAY DEAN, AND DIVERS DOUGH-FACED PENNSYLVANIAN DEMAGOGUES, HAVE SO FAR INVOLVED THEMSELVES IN TREASON THAT THEIR ONLY HOPE OF ESCAPING THE CURSES OF THE NATION IS TO HIDE THEMSELVES BENEATH THE WRECK OF THE NATIONAL GLORY, AND THEY ARE, THEREFORE, RECKLESS OF THAT GLORY. The success of treason is the glorification of traitors.

Fellow-citizens of all parties, turn from these men with loathing. Rally to the support of HARTRANFT, CAMPBELL, GRANT, COLFAX; of the men who seek office and honor under the Republican flag, and with the battle-cries ringing from their lips, of Liberty, Fraternity, Equality, Peace, and Union. Miners and coal operators of Schuylkill, remember that the rebel army polluted the soil of Pennsylvania in battle-tread, in the summer of 1863. They threatened the capture of Philadelphia and Harrisburg. Their guns thundered defiance of the Union within hearing distance from the State Capitol at Harrisburg. Suppose they had succeeded, as thank God they did not, in sacking the brilliant city of Penn, and in burning the Capitol of our venerable Commonwealth, what then would have been the next measure of the ruthless vandals whose steps were taken on the heaving hearts of millions of moaning slaves? On to Pottsville, and for the mines and mills of Schuylkill! would have been the cry running along their bloody ranks. AND NOW CAN YOU BE SO CRAVEN IN HEART, SO FORGETFUL OF YOUR OWN MANHOOD, AS TO VOTE IN 1868 FOR THE TICKET HEADED BY SEYMOUR AND BLAIR, WHOSE NOMINATION WAS MADE BY THESE SAME REBELS WHO WOULD IF THEY COULD IN 1863, HAVE WATERED AND FIRED YOUR MINES, AND STARVED YOURSELVES, YOUR WIVES AND YOUR CHILDREN? Remember that those who vote for the Democratic State ticket in October in effect vote for Seymour and Blair in November; while those who vote in October for Hartranft, Campbell, Cake and others, virtually vote for Grant and Colfax in November.

SONS OF ERIN! it is enough to shake the bones of Brian Boru in their dusty grave, to drape Tara's Halls, where he was crowned King, with grief; it is enough to make the harp of Erin wail, to palsy the floods of the Shannon in their flow to the sea, and to make the waters of the Lakes of Killarney shudder: yes, it is enough to make the green island of your fathers wither in its bloom on the bosom of the rolling sea, to think you can so far forget your native land as to vote for the Democratic ticket which supports free trade and British monopoly of manufactures. Will you not break from the ranks of those whose policy will lower your daily wages, and make you dependant for the very clothes you wear, on the looms of England? Vote now for PROTECTION TO AMERICAN INDUSTRY, which was stricken down years ago by the casting vote in the United States Senate, of a Pennsylvanian Democratic Vice-President, George M. Dallas. Undo, so far as you can the wrong of the past, by supporting the only party which truly defends American industry—the party of the Union and the law. WELSHMEN! your native mountains, so like the blue hills of Schuylkill County, were for many an age the frosty fortresses of Celtic, Cimbric, British liberty. Can you so far forget the dear hills of Cambria beyond the sea; can you consent to so blot the record of your fathers' devotion to human liberty, as here in free America, the asylum of the world's oppressed, to vote for the upholders of human slavery? A brave band of your Kimry ancestors fought the Romans in Northern Italy with their ranks corded together. Do you imitate their heroic example, and let the vote of the Welshmen of Schuylkill be for the Union and Liberty. Let it be a solid, unbroken vote, as the battle-cry of a long rank of heroes bound together by the truth and the right. GERMANS! ever since in the solemn forests of your fatherland, your illustrious German hero, Arminius, hurled his victorious forces against the Roman legions of Varus, and broke and scattered them in dismay; ever since Arminius and his men were thus brave and victorious over the veteran soldiers of Rome, in defence of the liberty and unity of Germany, YOUR NATION HAS STOOD AS THE VANGUARD OF THE WORLD'S ARMY OF FREEDOM. GERMANS OF SCHUYLKILL! will you fall out of line, away from your brave brothers, whose ranks shouting the songs of liberty, stretch all through the Republic? Let your votes on next Tuesday, say like the scream of the mountain eagle, "Brothers, children of the fatherland, we are with you; we will not disgrace the memory of our heroic fathers; we, too, will vote for HARTRANFT, CAMPBELL, CAKE, GRANT, COLFAX, and LIBERTY. LIBERTY IS THE "FATHERLAND" WORD WHICH LIKE A DOUBLE EDGED BLADE, EVER A TRUE GERMAN'S HEART TO ITS DEPTH. Let the blessed word sound along your lines, Germans of Schuylkill, and win, on next Tuesday, a splendid victory for humanity, under the banner of Liberty. Men of every nationality, American citizens by nativity or adoption, Remember, the votes of to-day are making history for the future. When your children and your children's children shall rejoice in the blessings of a perpetuated and renovated nationality, secured through the policy of the Union Republican party of this era of war and tumults; and, when they shall eagerly ask, each one for himself, "How did my ancestors speak, vote and act in these times which tried men's souls?" Oh, let not their cheeks blush with shame to learn that some of these ancestors were the twins of the tories of the American Revolution! Vote right to-day, and posterity will praise you! Freemen, on to victory.

"Now's the day, and now's the hour;
See the front of battle lour;
What can base or slave withstand?
Traitor! coward! turn and flee!"

"Lay the proud usurpers low!
Tyrants fall in every foe!
Liberty's in every blow!
Forward!—let us do, or die!"

This is the battle of the ballot; the weapons we employ are the arrows of truth, but the victory will be as glorious as any ever gained on the field of blood and death. GOD DEFEND THE RIGHT!

VOTE FOR

HON. HENRY L. CAKE for Congress. He is the friend of the workingman; the able and distinguished advocate of Protection, and his voice and vote in Congress have always been for the Right.

THE SOLDIERS' CONVENTION.

Philadelphia in her reception and entertainment of the Boys in Blue, last week, maintained her well earned reputation of being first among the patriotic and hospitable cities of the Union. The Boys came by thousands from the interior of the State, from New Jersey, New York, Massachusetts, Maryland, Washington, and from the Western States, and they had a splendid welcome. Provision had been made to quarter them in halls, etc., in different sections of the City, while many citizens opened their doors to accommodate the veterans. At National Hall long tables were set, capable of accommodating a regiment at a time, and food of excellent quality, and in great abundance, was furnished to the soldiers. The ladies and gentlemen who managed this matter, and the citizens who contributed liberally, cannot be too highly praised for the admirable arrangements at the Hall. During the 1st, 2d and morning of the 3d of October, about twenty-five thousand meals were furnished to soldiers. On Thursday afternoon a formal welcome was extended to the delegations in Independence Square by Mayor McMichael. In the evening the convention was held in the Square, which was attended by at least fifty thousand persons. The great central avenue of the Square was partially enclosed by continuous framework and beautifully draped with flags on each side to Walnut street. On the right side appeared illuminated names of Grant, Sherman, Thomas and Porter. On the left side, Sheridan, Meade, Hooker and Farragut. Across the centre of the avenue, half way down, was the inscription, "Grant as Peace," in gas jets. The front of the State House on Chestnut street was also draped with flags, surmounted with illuminated gas jets, with a large eagle and anchor. Gen. A. E. Burnside, of Rhode Island, presided over the vast multitude, and on taking the chair made a speech, which was rapturously applauded. Gen. Kilpatrick followed him in a thrilling address, calling upon his comrades to rally to the rescue of the country from the danger which threatens it from the combined efforts of the rebels and copperheads to get into power, and which can only be averted by electing Grant and Colfax. Gen. N. P. Chipman, Secretary of the National Executive Committee of the Boys in Blue, read an address calling upon the soldiers of the country to set apart election-day as a period of unremitting exertion and unceasing vigilance in behalf of our cause and candidates. Several stands were erected in and around the Square, from which addresses were made by a number of leading soldiers.

On Friday morning the Boys in Blue formed on North Broad street, and passed over a route embracing the principal streets in the City. There were at least fifteen thousand soldiers in the column. The parade was magnificent. As the boys marched in platoons, with all the steadiness and precision of veterans, beneath the shadows of myriads of flags that hung suspended across the streets, or were draped in graceful festoons in front of the buildings, cheers greeted them from the hundred thousands of citizens who lined the sidewalks and filled the windows and doorways on the route. When the column moved down Chestnut street, the scene was the most inspiriting we recollect ever to have witnessed on that fashionable thoroughfare. The procession occupied over an hour in passing a given point.

The Schuylkill County Regiment, numbering several hundred men under command of Gen. Bigfried, attracted much attention, not only for the excellence of its marching, but in consequence of the presence of a live coon and a representation of the tanning shop of U. S. Grant with two figures dressing leather. The presence of the Regiment was the occasion of much mirth and glee among the spectators, and the coon and shop were the recipients of a great deal of enthusiastic applause.

At the main stand, in front of the League House, Col. Forney presided, who said the demonstration of the day was the most magnificent witnessed since the review of the armies of Grant and Sherman in 1865. Gov. Geary, Gen. Sickles, and numerous others delivered eloquent addresses. There were several other stands from which speeches were made by prominent soldiers and civilians. The torchlight parade in the evening was a splendid affair. The Invincibles were out 1500 strong, and in addition to various other organizations in the city there were in the line immense numbers from New York, New Jersey, Delaware, and other distant points. The houses along the route were illuminated.

It is thought that there were at least eighty thousand visitors in Philadelphia during the Convention, more than two thousand of whom were from this County.

The demonstration was a grand one to precede the October election in Pennsylvania,—an election that will be a triumph of the loyal sentiment of the people, and an unmistakable pressage of the greater victory to bless the whole country in November, when the brazen attempt to galvanize the rebellion into fresh life will be forever throttled, and all that remains of armed or unarmed treason be overwhelmed by the irresistible tidal wave of patriotism.

VOTE FOR

GEN. WASHINGTON REISENTIDER, JOHN LUCAS and LUTHER R. KIEFER for Assembly-men of probity and intelligence, who would faithfully represent the interests of their constituency.

THE GLORIOUS WEST SENDS GREETING TO PENNSYLVANIA.

A gentleman who has been traveling in the West quite extensively gives Western majorities as follows:

Illinois from	45,000 to 50,000
Wisconsin from	12,000 to 15,000
Iowa from	35,000 to 40,000
Minnesota from	8,000 to 10,000
Nebraska from	2,000 to 3,000
Michigan from	20,000 to 25,000
Kansas the usual majority increased.	

In INDIANA owing to emmigration from the South, the Republican majority may be reduced a little, but it is secure to go Republican from 10,000 to 15,000 majority.

OHIO was doubtful before the Copperhead Convention, but the nomination made there, and the active part the Traitor Vallandigham is taking as Seymour's standard-bearer, has caused a wonderful change and she will give from 15,000 to 20,000 Republican majority.

VOTE FOR

DR. J. F. TREICHLER for Surveyor. He is competent, and would be a most faithful officer.

THE BOUNTY TAX, &c.

D. E. NICE, Esq.

Last Winter Democrats sent a bill to D. E. Nice, Esq., asking the appointment of a committee to investigate the Bounty Tax. The Bill asked for the appointment of two Democrats and one Republican, to compose said committee, and Representative NICE refused to have the Bill passed—this committee to act in the Bounty swindle. In one district the people have paid upwards of fifteen hundred dollars Bounty Tax over—and if they had not investigated it the Commissioners would no doubt have continued to receive it. How many other districts have overpaid is not known.

ONE OUT EVERY VOTE.

On Tuesday next. It is important. The Ku-Kluxers are concentrating their efforts on the Keystone State. Fraudulent naturalization papers, colonization, money, every appliance known to an unscrupulous foe, are being brought to bear by the Sham Democracy. Blair, the Revolutionist, declares that Pennsylvania is the great battle-ground. If this State goes Republican on Tuesday next, no more money will be spent in this or any other State, to secure the election of Seymour and Blair. So, Union Republicans, friends of Peace and Prosperity, vote at your elections on the 13th next for Hartranft and Campbell, your gallant standard-bearers.

THE SUPREME COURT AND NATURALIZATION PAPERS.

The late revelations which have been made in connection with the mode of manufacturing voters in the Prothonotary's office of the Supreme Court, show a degree of ignorance and carelessness, if not criminal collusion, conclusive of fraud upon the honest people of this State. And [illegible] Thomas and Sharswood, but trail in [illegible] crimes of their offices deeper in the mud of degradation, when they do nothing to relieve themselves of the ignominy attaching to them in this matter.

But if they will not act right, it is satisfactory to see that a majority of the Court, justices Read, Agnew and Williams, express the opinion that the discovery of the fraudulent naturalization papers discredit the whole issue of the Supreme Court. And the opinion has all the moral force of a decision of the Court. The letter of Hon. John M. Read to justice Thompson on this subject, concludes as follows:—After referring to the fact that 720 persons (one a man who had been three years in the rebel army,) had been naturalized on Monday, Sept. 28, none of whom the Prothonotary, Col. Snowden, could recognize, justice Read says:

It is clear, then, that the whole practical part of the naturalization is entirely in the hands of strangers who, on Monday, 28th of September, made seven hundred and twenty citizens.

During the September Nisi Prius six thousand and eighteen persons were naturalized, of whom two thousand eight hundred and seventy two were naturalized during the last week. One paper appended: married (!).

The opportunities for fraud are therefore greatly multiplied by this practice of hastening speed in creating citizens, many of whom understand English very imperfectly. The natural consequence is that frauds are committed in the process of naturalization, and papers are afloat which are believed to be forgeries, but are so well executed that the Prothonotary cannot say positively that it is not his own name.

It is, therefore, clearly the duty of the Prothonotary to ferret out these frauds by every means in his power, to send by giving free access to all respectable citizens to examine the naturalization records and papers, in order to assist in their detection. The Prothonotary of Philadelphia is the highest tribunal in the State should not avail himself of any technical objection, but throw the whole power open to a searching examination—nothing else will satisfy the community.

Applications directly and indirectly were made to me to interfere personally, which I, of course, declined to do, having no power to control in any way the judge regularly assigned to hold the Court of Nisi Prius. I however, thought it proper under all the circumstances to telegraph Judge Agnew, and Judge Williams, who was attending the sessions of the Court of Nisi Prius at Pittsburgh, on the third Monday of the month.

The Judges having been regularly assigned for September and October, we of course, had no right to interfere with them. Judge Williams not having taken the oath of office, for reasons which, I presume, to him, will be perfectly satisfactory to the community, his opinion is not (like that of Judge Agnew and myself) that of a full Judge of the Court.

We all three regard the practice of naturalization pursued in the Nisi Prius, however old or by whatever Judges sanctioned, to be contrary to the plain letter of the acts of Congress, and is therefore illegal.

Naturalization is a judicial act, and the examination of the applicants for citizenship, or, whether should be conducted by the Judge himself.

This was the practice of Judge Agnew when a Presiding Judge, and is the uniform practice of the District Court of the county of Allegheny.

This will be the opinion of a majority of the Judges of the Supreme Court whenever Judge Williams takes the oath of office.

I should not have intruded upon you my opinions, or those of Judges Agnew and Williams, were it not necessary that they should be known to you and brother Sharswood, and through you to the community.

You will please act accordingly by having this read in open Court.

I am very truly yours, JOHN M. READ.

To the Honorable James Thompson, Chief Justice of the Supreme Court.

One John W. Bolleau, whose character will not bear investigation, was employed in the Prothonotary's office, from the 11th of September to the 30th, when he left at his own request. It was during his presence there that thousands of naturalization papers were issued in an irregular manner. And the papers which are forged, are so well executed that the Prothonotary cannot tell which papers he signed and which he did not.

Under the circumstances it is clear that all votes based on the papers issued in September, must be rejected by the election officers, and they must be protected by the law in so doing. Some legal votes may be rejected by this action, but those voters must blame the Democratic party which in its eagerness to carry Philadelphia and the State, had recourse to this great fraud.

The honor of the Supreme Court is vindicated in this matter by the opinions of justices Read, Agnew and Williams, but the previous action of that Court has alarmed the people, and if radical changes in the naturalization laws should be demanded by them, it will be in consequence of the unscrupulous conduct of the Democratic party aided by partizan judges.

As an addendum to the above we might state that one James A. Watson of the Twenty-second ward of Philadelphia, is under arrest, charged with perjury. He confesses that he was employed by Democratic agents to vouch for men he did not know, and for which he was paid one dollar apiece. He vouched for quite a large number. This is additional evidence of the great frauds in the issue of naturalization papers which have been practised in this State by the Democracy. The Republicans on Tuesday next everywhere in the State must watch this matter closely, and challenge every vote which they suspect.

VOTE FOR

DR. O. M. ROBBINS for Coroner. A distinguished defender of the Union when armed treason imperilled its perpetuity; an eminent surgeon; a good citizen, we should be proud to cast our votes for him.

WELL DONE, CONNECTICUT!

She has Wheeled into Line Again.

The usual town elections took place on Monday last in Connecticut, and the Republicans have swept the State, carrying 82 towns and the Cops only 60. Several are divided, and in them the Republicans made the chief gains. The New York Tribune which is good authority, states that judging from the complete returns already received the Republicans have carried the State by at least 3,000 majority. Well done, Connecticut!

Men of Schuylkill, why should not you wheel into line also on Tuesday next, and march in the Grand Column of Freedom to Glory, and the Emancipation of the whole Human Race from tyranny and oppression? Even Spain is throwing off tyranny, and clamoring loudly for Republicanism. Will you lag behind?

VOTE

The whole Union Republican ticket, if you want reform in County matters and your taxes reduced.

SEYMOUR AND THE REBELLION.

The Utica Morning Herald, published at the residence of Mr. Seymour, gives a history of all his acts toward the soldiers during the Rebellion, and while he was Governor of the State, and sums up as follows:

"Such is a brief glance at Horatio Seymour's war record as far as the five Oneida County regiments were concerned. We believe we state a fact when we say that he never contributed a cent toward defraying the expenses of any of the five regiments which went forth from his own county, and that he was never officially connected with any movements or preparations for their reception, nor did he even countenance such proceedings by his presence. This is the way he "saw our regiments go forth," and this is the way he used his official privileges to thank them on their return. It makes the heart ache and the cheek tingle with a blush of shame to contemplate the mortifying delinquencies and shocking self-insensibility of Horatio Seymour."

While Governor he also vetoed the bill giving the soldiers the right to vote while in the army. Could any Rebel have done more to aid the Rebellion than Horatio Seymour did while Governor of New York? Gen. Dix truly remarked that Seymour did nothing to aid the Government in putting down the Rebellion, except what he was compelled to do to save his own person.

"COMRADES!

Let us not forget our brave companions who fell in the war for the Union. Their sharpshooting friends buried in many a forest and field, like autumn leaves. Their nameless graves are numbered only by the Recording angel. Let us sometimes listen to their sad voices, mournful as muffled drums, and heard afar through the piercing wind. They say to us now, "Brothers, you who are spared, leave not undone the work we did not live to help you do."

Remember these touching words of the brave, maimed Sickles, on Tuesday next!

MARKING TOUR TICKETS.

Do not vote a ticket without examining it. The Democratic leaders are desperate, and to save, if possible, their County ticket, are resorting to spurious tickets to deceive Union voters. See that the ticket you vote on Tuesday next is the same as that published at the head of the Third Page of the JOURNAL. Examine every name, and see that your ticket is right from top to bottom.

DON'T DO IT.

Don't scratch a single name from the ticket. Be actuated alone by principle, and vote for all of the candidates of the party which is true to the country and to the flag.

THE SKIES BRIGHT.

From every section of the County we have the best reports. The Union men were never more confident of victory, which will most assuredly be theirs, if they get the full vote out.

THOSE OPPOSED

To free trade, the breaking down of American industry, and to the spread of misery and want among workingmen—those opposed to these calamities, will vote the full Republican ticket.

COUNTY LAW BUSINESS.

Every Democratic lawyer and the Judges and officers of the Court declared, that the law business of the County was absolutely suffering for the want of an additional Law Judge. We have an additional Law Judge, and all those parties are now using all their influence to prevent the dispatch of business, because the man whom they wanted on the bench *is not there*. Such a total disregard of the interests of those who have business delayed by the Court, ought to be strongly rebuked by the voters of all parties on Tuesday next.

VOTE FOR

DR. AUGUSTUS SCHULTZ for Director of the Poor. Under his administration before the expenditures of the Alms House were reduced one-half. Elect him, and a similar reduction will be made, saving to the tax-payers from $30,000 to $40,000 a year. The waste and extravagance at the Almshouse, with other evils which exist in that institution, demand a radical change. If the tax-payers are wise, they will on Tuesday next, elect DR. SCHULTZ by a handsome majority.

MINERS AND LABORERS.

PROTECTION TO YOUR LABOR.

We published last week an article from the London *Mining Journal*, showing how closely England is watching the action of Congress in favor of protecting our industry. Are you, miners and laborers of Schuylkill County, also watching your interests as closely? If you are, not one vote ought to be given for the Copperhead ticket by you in Schuylkill County. By voting that ticket, you are voting with the party that pledges itself that if it obtains power, **it will wipe out every vestige of Protection to American Industry.** If any person had the power, and would reduce the price of coal from one to two dollars a ton, and your wages from three to four dollars a week, you would look upon him as the greatest enemy you had. You would denounce and drive him from the country if you could. Now, by voting the Copperhead ticket on Tuesday next, you, by your votes, will use the highest privilege of a citizen to do the same thing. What ought to be done with such voters? We will leave the answer to yourselves. The men on the Republican Protective Tariff ticket are all loyal men, while nearly all on the Copperhead ticket are rebel sympathizers, enemies to human liberty, and consequently enemies to the human race everywhere.

VOTE FOR

ISAAC D. LEHMAN for Auditor, who will if elected strictly audit the accounts of the County, and allow nothing illegal to pass strict scrutiny.

"THEM" TEN THOUSAND DOLLARS.

The tax-payers of Schuylkill County are going on a grand hunt for them on Tuesday next, headed by Dr. Schultz. We hope to be able in our next to report favorable progress.

FREEMEN!

Turn out en masse, to the election on Tuesday next.

Fire at the St. Clair Furnace.—On Friday morning of last week the stock house and foundating machinery at the St. Clair Furnace, Mr. John Pomeroy proprietor, were damaged by fire to the extent of about $2000. The fire originated from the explosion of the lamp. There was no insurance. The Furnace was not stopped in its operations by the fire.

Removed.—Mr. H. W. Bowman, of Schuylkill Haven, assistant-assessor of the 3d Division, 20th District, has been removed, and Mr. Peter W. Maurer an extreme Copperhead, has been appointed to fill the vacancy. Mr. Bowman's offence is that he is a Republican for he has been a faithful and attentive officer, and strictly and impartial in the discharge of the duties of the office.

A new and very neat certificate of membership of the Grand Army of the Republic, designed by Mr. Harry E. Davis of this Borough, has just been published. It contains a reproduction of the National Capitol; finished portraits of Generals Grant, Geary and Logan in army and naval dress; fac-similes of G. A. R. badge, etc. The design and execution of this certificate are alike excellent.

Illumination and Fireworks.—As to-night's display will without doubt, be one of the largest it is to be hoped that the Republicans will not be disappointed in the attendance. Let the works would also contribute to the brilliancy of the scene. Let the whole City of Schuylkill be illuminated to-night in every ward.

Throw to the breeze the old flag, and this evening we trust that our citizens will generally illuminate their houses.

The Occasion in Schuylkill County.—Next Tuesday is the important day for the Republican meetings of the campaign was held at Pinegrove on Saturday last, afternoon, by a mass meeting. The attendance from the immediate vicinity was very large, and the Republican citizens of Pinegrove gave the people a splendid hospitality. All everything to make the time pass pleasantly to the visitors. They threw their houses open and made all welcome to their hospitality. [illegible] to be a memorable day in the political history of Pinegrove; could be made with the Reading Railroad Company, or the citizens of Pinegrove for the use of the County Band [illegible] Tuesday evening, and in the evening addresses were made delivered previous to the meeting by Gen. Jno. Geary, Hon. Jno. Strohm, Col. Wm. Wilson, Col. Jno. Weiss, Col. Jno. Ellis, and others. The meeting was addressed by Hon. Jno. H. Campbell and other speakers.

Judge King of Philadelphia, one of the oldest of the Judges who have ever adorned the bench of the State says:

"In the absence of extraordinary proceedings it is not necessary for the Grand Jury to attend, except when the Attorney General, or other legal officer of the State, is present before a Grand Jury without a presentment being over or committed to the second. Cases can be hurriedly done in undoubted. And there are occasions where such an exercise of official authority would be just and necessary, such as where the laws had been defied the justice of the State, and an indictment found may be required previous to demanding him from the Governor of [illegible] against those who so transgress; but we shall not do so at present, partly because we do not suppose that any would so transgress intentionally and knowingly, and for the further reason that from our opinion of the law, it becomes apparent that there arises a conflict of jurisdiction between this Court and the Court of Oyer and Terminer and Quarter Sessions which can only be settled by a further decision from the Supreme Court. What may be the future action of this Court in the event of a continued disregard of the requirements of the law, we shall not now anticipate.

We have treated this subject at some length and plainly, so that no misapprehension may exist as to our views. We are anxious to do whatever may be our duty under the law, and we shall endeavor to do it without fear and without passion. The exercise of a criminal jurisdiction is the most delicate duty we are called upon to perform, and we are anxious that the right to it shall be settled as speedily as possible, so that we may all know, beyond question and beyond cavil, what ground we stand upon.
