third of November, 1868, will now take its place by the side of the Fourth of July, 1776, as one of the days big with national destiny. Our country has been rocked with violent. political excitement for many years, especially during the last eight years.

Four of these eight tumultuous years were apent in subduing the most causeless, wanton and abominable rebellion known in human history, and at the same time one of the bloodiest rebellions known in the annals of mankind. The remaining four years up to the present time have been employed by the loyal element of the nation in circumventing and defeating the schemes of an ingrate to his friends who will be pilloried in history as one of the moral monstrosities of the human race. No salt of flattery, no oily speeches of the William H. Seward type can save Andrew Johnson, who might have been the pet of fame from this dismal destiny of the averaging of the glorious work done in the minority counties, it says:

'The hartief of Gettvahurs was one of the sincer we have given is not more true of the counties that are Republican had the counties that are Republican than of those that are becomes that are Republican than of those that are becomes that are Republican should the counties that are Republican than of those that are they had no such hopes to stimulate them makes them heroes. HEIGHTS OF GETTYSBURG. The struggles of the nation at the ballot-box have just passed their point of culmination, and THE LOTAL recent elections have been heralded by much | Copperheads: Scarcely a solitary act of legvaunting of a great Democratic reaction islation can the minority counties obtain from among the people, a wave of indignation a Republican Legislature. Two years ago, the sea of infamy and oblivion. Well, the wave of Copperhead wrath has swelled, curled, foamed and broken against the solid hattlements of the temple of American Liberty, and before the strength of the noble structure, the mad wave has scattered into hissing and growling spray. God be praised for this magnificent deliverance of a great nation from the hands of its sworn enemies; for did not truculent rebels from the Rio Grande to the Potomac exult in the prospect of gaining their "lost cause" of gaining by the ballots of sympathizing Copperheads what they had failed to gain by storms of bullets and the clashings of Southern steel?' Let the people rejoice over the recent victories of well fought battles with the legions of ignorance and vice, for every new year of national life will furnish new proof of the grandeur involved in the elec-HENCEFORTH DEATH IS THE DOOM OF THE BO-

For the first time in our national history we really have a coun-TRY, ONE AND INDIVISIBLE. It will be but a zew months hence until an American citizen wrapping himself in the folds of the National flag can travel from Maine to California, and from Minnesota to Texas, Louisiana and Florids, and write and speak freely what is the time to have this question settled. This we believe, is the registered vow o the Boys in Blue, and of the loyal people of the country. We know our rights and dare maintain them. Let Ku Klux murderers o poor, and harmless black men; let the assas sins of the noble white Union men of the South read the decree of the American people in the recent elections, and shape their conduct accordingly: The wrath of abused patience is the most terrible visitation which can overtake the guilty. Oh, bright years of the future, we hall you as we see you gathering like sea-waves, and breaking merrily on the sounding shores of a sublime national lestiny! While these bright years are breaking their tidings of joy and blessing, we may not forget the doom of those whose efforts have been expended to stay the coming of the white years of peace and prosperity. Past ages have winessed great sorrows sweeping over the bosom of Europe One great tidal wave of violence and invasion was created by Attila, the Hun, who called himself "the scourge of God." Long after the men of this generation shall have gone to their graves, the choral voices of the years to be, will shout together "ANDREW JOHNSON, THE ATTILA OF AMERI-

CA-THE SCOURGE OF GOD!" THERE SHALL BE PRACE. Such was the decision of the Americ people on Tuesday last. Through the silent but all powerful medium of the ballot, they have settled every issue which has agitated the action since the close of the Rebellion. They have expressed their confidence in Congress and Gen. Grant. They have endorsed the legislative measures necessary to Reconstruction, and they have decided that President Grant shall see that they are executed Oace more the lives of Union men in the South shall be safe and their property shall be protected. The freedman will rejoice in ship, escaped the draft, and as soon as the the decision, for it means protection to him from assassination and persecution at the

zing and corrupt practices. For they will justly scorn to act with a party of robbers and perjurers. And all Democrats who pride themselves upon their probity and who are desirous of a prosperous and respected future for this country should separate from that party. For they and in fact the American people should understand that the great peril of this Republic is toleration of corruption and illegality on the part of public officers. and especially where they are dallied with by those who wear the judicial ermine. The people yet blush at the illegal and indecent acts of the Supreme Court of this State when

controlled be partizan judges of the Sharswood stamp. With the great and glorious victory which has crowned the efforts of the people this week, let them resolve that to insure its full fruition, they will frown upon and severely punish all attempts to undermine public, virtue in the manner which has disgraced the country during the present year. Let us do this and history will have no brighter page than that which tells how a great, tree people not only preserved their liberties but their public virtue.

The battle of Gettysburg was one of those periods during the war when the whole nation looked on the contending armies with anxious hearts and with bated breath. At the last session of the Legislature, these Republicans again united with the Copperheads and repealed one of these laws, in spite of the remonstrance of a the Republicans in the County, and this combloodshed by the Governor's veto. The villainy and rescality practised by the eaders of the Copperhead party, from the highest judges on the State Benches down to the lowest "roughs" in the subterranean dens of the cities, will demand a remodelling of the naturalization laws by Congress. The Copperheads have forced it upon the country, and if the privileges are materially the star in the base of the handle of the well known sickle of Leo. The villainy and rescality practised by the try, and if the privileges are materially abridged, the responsibility rests upon their shoulders. By some it has been suggested that it should be confined to the United States Courts. This would largely abridge naturalization, because the U. S. Courts are not numerous, there being only two in Pennsylvania, at Philadelphia and Pittaburgh.

We would extend the privilege to all courts try, and if the privileges are materially We would extend the privilege to all courts acting in a judicial character—but we would make it more stringent as to the character of the applicant, and we would also require

We would require the names to be registered for the last papers as well as for the first, because the thirty days would give ample time to make inquiry with regard to the first papers, when they were obtained in any other section of the country. It ought also be required that the names and residence of all persons naturalized should also be published, after they have obtained their papers. It will be opened at Union Hall next Thureday night, Nov. 12, and continue one week. There will be exhibitions on Baturday and Wedneaday afternoons. This panorams consists of a series of magnificent Italian views, embracing, among others, the cities of Genne, Milan. Verons, Venice, Ferrars, Bologas, Florence, Sivita Vecchis, Rome, Naples, and Southern Italy. The scenes in and about Rome are pronounced by clargymen who have seen them to be correct in every particular. Several beautiful views of St. Peter's are given; one of them represents this wooderful building during the silver and the golden illuminations. The view of the Coliseum is one of the fluest specimens of art ever seen, and is of the finest specimens of art ever seen, and is of itself enough to merit for Mr. Waugh a world wide reputation: This panorama is one that we take pleasure in recommending, and we trust that the exhibition hall will be filled during Mr. McDonnell's stay in this place.

GRAY HAIR RESTORED TO ITS NATURAL COLOR.

Mr. Ww. O. MONTOURNY—Dear Sir :—I cheerfully recommend your Hair Restorer to all persons whose hair is failing, as the very best remedy they can use—It not only strengthens the hair, but also resiones gray hair to its natural color, and is as easy to use as water, I have used but two bottles, and my hair, which was nearly white, is now restored to its natural color—not a gray hair to be seen. It also promotes the growth of the hair, and prevents its falling off. Yours, irruly, COULTER BUSSELLA, 1131 Ridge Avenue.

THE GREAT HAIR TONIC OF THE DAY.

Wa. C. Mostrousser, Req.—Dear Sir:—In all New York there is not a preparation for the hair that can compare with Mostgomery's Hair Restorer, as a renewer of color and Greening. Undoubtedly yours is the great hair fond; of the day. It speak from experience, having used many preparations, and yours is the only one that has benefied me. My hair had been very gray for a number of years, and your is the their only one that has benefied me. My hair had been very gray for a number of years, and your is the their has perfectly renewed the original color of the hair and greatly improved its growth. As a dressing for the hair it is exquisite, and in every, respect a pleasure to use it. D. EUCKHOPF, 102 & 108 Maiden Lane. New York, August 29, 1866.

MONTGOMERY'S HAIR RESTORER.

Ws. C. MONTGOMERY'S HAIR RESTORER.

Ws. C. MONTGOMERY, 140 North Sixth Street—Dear Sir:—My hair has been gray and white for over thirty years. My son, a merchant of this place, purchased some of Montgomery's Hair Restorer. I was indiced to try it, and in one week it restored my hair to its original color, which was a dark brown. It not only restored my hair to its natural color, but rendered it soft and glossy, and removed all dandruff from my hasd. As a hair tonic it is the best I have ever nieed. I feel it my duty to let the public generally know that they need not wear gray hair any knoper if they will only use Wm. C. Montgomery's Hair Restorer.

After being gray for several park, my hair has been restored to its natural color by the use of a small quantity of Montgomery's Hair Restorer. It has also accelerated the growth of the hair, removed the dandraff, and kept my scalp cool, and in a perfectly healthy condition. From the large number of persons whom I know to have been benefited by the use of Montgomery's Hair Restore, I can say with perfect truthfulness, that it is lofallable for promoting the growth of the bair, restaring the original natural color, and curing emptive diseases of the scalp.

Gentlemen-During the winter of 1868 I was very much out of health, afficted with a severe grouph, Pain in the side and Lunch, and a general depression of health to such an extent as greatly to alarm myself and friends as to the result. During this time, I ried several highly recommended remedies, with little or no good result, and had concluded to try the effect of no good result, and had concluded to try the effect of a Southern climate upon my health; but, before carrying this resolution into effect, I was induced by the negent solicitation of your arent, Mr. Huntley, in give Dr. Wistaa's Ralean of Wild Curray atrial—I did so, and to my great joy found immediate and permanent relief by the use of only one bottle, and I am now in as good health as aver.
