Wit and Humor.

DO YOU MEAN TO PROPOSE?

TO BE SET TO MUSIC FOR THE USE OF ALL SCARE LADIES.

You come very often, 'tis all very well,
You're a very fine man, and a very big swell;
You've a very good heart, and a very long nose,
But now to the point!—do you mean to propose?

The house is besieged by both rich and by poor,
Who knock all day long at grandmamma's door;
They turn up their eyes, and they turn up their toes,
But what is all that if they do not propose?—

You say that you love me, but love all alones,
To unmarried girls is a thing quite unknown;
Too high and look down, and present me a nose,
But that is all stuff?—do you mean to propose?

I am not so hard-hearted as I may appear;
Why stop and look sheepish?—there's nothing to fear.
You men are such geese! only Beelzebub knows
The trouble you give us before you propose?

'Tis almost two seasons since I have been out;
You simper and smile and you whirl me about;
But this is not business, the horrid time goes—
Another will have me if you don't propose!

You take all the airs of a man I've preferred;
You keep off the rest and you don't say a word,
This is not fair play—sure a fellow who shows
Such uncommon devotion, should speak and propose!

I want to be grieved—do you understand?
You'd give me a world—only give me your hand!
One can't go on always with cons and with pros—
Never come here again—or be frank and propose.—

London Out.

NASBY.

Mr. Nasby and His Friends Resist a Nefarious Attempt to Establish a Factory at the Corners.

POST-OFFICE, CONFEDERT X ROADS,
(Which is in the State of Kentucky)
Feb. 25, 1869.

The third rail onto Kentucky is now bein made.

The first war the armed invasion uv the state of Linkin's hirelins, the second war the unconstitooshinel abolishn uv slavery, and the third developed herself yesterday.

Some time since Bascom Wurz pressed for means to make a payment onto a lot uv whisky. He is rich, but he seldom hez money, ez he sells almost entirely on credit—wich is the clitzens buy on credit. Strangers never take but one drink ur bis linker, wich makes their paternage, wich is cash, very nice. One Noo York commercial agent did try it twice within five hours, but he paid the penalty uv his rashnis. His oneidiated bowels wunn't stail to the emergency, and he become ravin mad, and took a third—and died! Well do I remember the mournful occashun. He lay down at fifteen minits uv illness to my offis, and died there. For several weeks I had clean shirts and money to pay board with, though his sample case was worth a hull fortune. Bascom took it for a trifle, and the shirts likewise. He gits everything portable that comes here. Peace to the Noo Yorker's ashes—I drop a briny tear to his memory.

To return. Bascom had to her ready money, and he come down cropel on Deekin Pogram, his heftiest debtor. The Deekin wuz helpless and ther wuz every appearance uv a dead lock at the Corners. At this juncture in steps Pollock, with an offer to buy a certin piece ur land the Deekin hed, provided Bascom would release his mortgage unto it. Bascom gladly acceeded and the transeschion was consummated.

The ground sold by the Deekin hed no valyoo. The soil wuz worthliss for it hed bin planted to tobacker for a skore uv years, and bushis thick, a cluk run thoo it, with a fall uv perhaps 50 feet, the water tumblin over the rocks, perpetooally, in a most ridiculous manner. The Deekin sold it cheap, for water was extra pupkin at the Corners. Wat Pollock wanted wuz it wuz sooden up, derstand, but the mystery was cleared up the next day.

Bascom, the Deekin and I wuz out lookin at a specee uv land adjoinin, when we saw a parcel uv fellows there with surveyin instrumence, a measurin off the ground and stickin little stakes all over it.

"Wat are yoo doin here?" asked the Deekin.

"Fixin the site uv a factory!" remarkt the boss uv the corps, without takin his eye off the instrument.

"Wat?" shreekt the Deekin.

"Fixin the site uv a factory—a cotton factory."

"Who're you from?" askt the Deekin, in agony.

"From Massachoosetts!" replied the black-coated feend, ez coolly ez though he was in Boston.

"From Massachoosetts?" shreekt the Deekin, fallin in a faintin fit.

Bascom and me wuz more decided. Our line uv actshen wuz decided upon in a minit.

"Sir!" sed we, "this cannot be permitted. Our spot in Kentucky shall allus remain sacred from contamineshen uv Massachoosetts. We will hev no factrys here; we will hev no hordes of fanatics in this spot, a-makin cotton cloth, and bringin here lyceums, common schools, debatin societies, and preachin. We will hev here none uv that. We don't want to see this Arasian spot tirned into a place uv residence for factry girls; in short we won't hev it."

The fellow made no answer, but went on stickin stakes in the ground.

"Will you desist?" askt I.

"Not any!" returned he.

"Bascom," sed I, "aroose the citizens. It's now 9 o'clock, and by this time they are all at the grocery. Haste! Bascom, haste! The danger is imminent and our actshen must be vigerous."

Bascom startid and in less than twenty minits after wuz about a hundred of our people on the ground. The surveyor wuz overpowered, the stakes were dug up and the party given just an hour to git out uv the vicinity, with the asshorance that if they showed their faces ther agin they would be interdoost to tar and feathers-at we had to sacrifice every goose in the Corners.

This summary proceedin settled the matter. That nite these wandils left the Corners and we saw em no more.

When I think over wat we hev escaped I feel thankful. Good Hevins! To think ur an invashen of Noo Englanders! To think ur the bein in these peaceful precincts four or five hundred gals, all from New England—all able to read—all attendin meetins on Sundays—all teachin Sunday skools—all organizin temperance societies, et settry! To think uv soopersintendants and labrers, and machinists; all uv them bent upon makin society conform to their ideas! How long dood Bascom survive sich an invashen. How long wood it be before Pannibacker and McFeller wood hev to turn their distilleries into flourin mills, and how long cood I hold the post-offis, even tho a Dimocrat was president? Them people take papers and write letters, and the offis would then be no sinecoor. Ez these things passed in my mind I wept grateful tears at our escape.

The party went over to Garretstown, wich is no the same creek, with jist ez much uv a fallin in it and the nigger is there give on land enuff for their purposes, and the factry is to be established there. They are altogether too near for comfort, but we kin stand it. The niggers are too strong to be interfered with, but we shel take good care that the contaminashen shal not reach us. Ez we are we shel continyoo to the end. In one place at least in Kentucky there shel be nothing but Kentucky, pure and simple.

PETROLEUM V. NASBY, P. M.
(Which is Postmaster.)

P. S. I shel be in Washington at the Inoogeration. I shel be on hand to comfort A. Johnson, and shel accompany him to Tennessee. This return will be historic, and I shel chronicle it.

The editor of the *Erie Gazette*, no doubt tired of the old system of apprenticeship, thus advertises for a boy: "Wanted, at this office, a boy to take sheets from the press every Wednesday and Saturday afternoon. No limits as to salary, and the said boy is to consider that the office is for his special convenience. If he don't feel well, or wants to go fishing, or play marbles, or see match games of base ball, or go shopping with his girl, or visit his cousin, the paper will wait his sovereign pleasure. Anybody who presumes to criticise his efforts is to be immediately arrested for contempt. All the boy he knows are to have free run of the office. The editor's time to be exclusively at the aforesaid boy's disposal. Salary to be drawn several years before. A boy possessing these qualifications, please report where he can be found, and at what time a deputation of printers may call upon him, and respectfully present references of good character on the part of the office and its employees. Please write for postage stamps or monogram gilt-edged paper."

—We had an Andy Johnson once,
In whom we took no pride;
He loved his rum, perhaps too well,
And so we let him slide.

—A. Johnson four long years we bore,
Impeachment was in vain;
His chimed great sins: drank wisely skins;
Had wife, cat, and brain.

—Andrew Johnson, thou has left us,
Here thy kas we do not feel.
Thy whisky rings and knaves beraft us,
But now they'll have no chance to steal.

—Oh! carry him back to Tennessee,
And don't let him come any more;
He's a nuisance and knave;
In obscurity's grave
Let us bury the wretched old bore.

A HEALTHY BOY.—Old Hanks said: Some years ago, I took a bad bag to an iron foundry, and dropped it into a ladle where the molten iron was, and had it run into a skillet. Well my old woman used that skillet pretty constant for the last six years, and have the other day it broke all to smash, and what do you think, gentlemen, that are insect just walked out of his hole where he'd been layin' like a frog in a rock, and made tracks for his old roost up stairs! But, (added he, by way of parenthesis,) by George, gentlemen, he looked mighty pale!

An Ohio editor is getting particular about what he eats. Hear him: The woman who made the butter which we bought last week is respectfully requested to exercise more judgment in proportioning the ingredients. The last batch had too much hair in for butter, and not quite enough for a waterfall. There is no sense in making yourself bald-headed, if butter is 50 cents a pound.

Double Piston Square Hoisting Engines, Hoisting Machinery for Coal Shafts, Sloping, Grist Mills, Stores, &c.
One of these Boilers can be seen running daily at SHANTY HILL & HARRISV Colliery, Mahanoy City, Pa.
Particular attention is invited to the Hoister which has no equal. No dead points—having two pistons in one cylinder, either end of which is taking full steam when the other is passing centre. It requires no friction stops, crutches or brakes of any kind. Started, reversed or stopped instantly, and at any point of revolution by the simple movement of a single lever.—Having no keys, gibs, set screws, or other adjustable parts, which in other hoisters requires the knowledge and constant care of an experienced engineer, can be put in the hands of the most inexperienced person. All the working parts are enclosed in the case or cylinder, and are thus protected from breakage, the effects of dust, dirt, and frost or weather. For extreme lightness, compactness and rapid speed, highly commend it for this use. Having lately added some NEW AND ATTRACTIVE FEATURES, the Company is prepared to effect
Insurance upon Lives
IN THE MOST APPROVED FORMS.
Among its many advantages are its
VERY LOW RATES OF PREMIUMS,
being from 25 to 40 per Cent. lower than those of mutual and mixed companies, thereby in effect declaring at least a dividend IN ADVANCE of those companies pay after several years use of your money.
ALL LIFE POLICIES NON-FORFEITABLE,
so that no premium is lost, but if the Policy-Holder wishes to discontinue his payments, the Company will give him an equivalent in a permanent Policy, FULLY PAID UP.
IT ALSO ISSUES COMBINED LIFE AND ACCIDENT POLICIES,
which guarantee to the Policy-Holder a WEEKLY COMPENSATION of $5 for every $100 Insured, in case of injury, and at death the FULL AMOUNT OF THE POLICY IS PAID.
INSURANCE AGAINST ACCIDENTS.
This system of INSURANCE should commend itself to all.
☞ The merchant upon whose daily labor the support of a family depends, may insure himself for a trifling sum, for ONE THOUSAND DOLLARS, which, in case of Death from Accident, will be paid to his family, and in case of injury guarantees to him a handsome weekly compensation.
General Accident Policies written from One Month to a Term of Years.
☞ NO MEDICAL EXAMINATION REQUIRED IN ACCIDENT INSURANCE.

This Company, National in its character, offers, by reason of its Large Capital, Low Rates of Premium and New Tables, the most desirable means of insuring life yet presented to the public.
The rates of premium, being largely reduced, are made as favorable to the insurers as those of the best Mutual Companies, and avoid all the complications and uncertainties of Notes, Dividends and the misunderstandings which the latter are so apt to cause the Policy Holders.
Several new and attractive tables are now presented which need only to be understood to prove acceptable to the public, such as the INCOME-PRODUCING POLICY and RETURN PREMIUM POLICY. In the former, the policy-holder not only secures a life insurance, payable at death, but he will receive, if living, after a period of a few years, *a annual income equal to ten per cent. of the par of his policy.* In the latter, the Company agrees *to return to the assured the total amount of money he has paid in, in addition to the amount of his policy.*
The attention of persons contemplating insuring their lives or increasing the amount of insurance they already have, is called to the special advantages offered by the National Life Insurance Company.
Circulars, Pamphlets and all particulars given on application to the Branch Office of the Company in Philadelphia, or to its General Agents.
☞ LOCAL AGENTS ARE WANTED in every City and Town where not represented. Liberal contracts for such agencies, with suitable endorsement, should be addressed TO THE COMPANY'S GENERAL AGENTS ONLY, in their respective districts.
