THE MINERS' JOURNAL is now one-fourth larger than any other paper published in this State, and contains more reading matter than any other paper except one, published in the United States. To give the reader some idea of the amount of matter contained in a single number of the JOURNAL, furnished for our copies, we have made an estimate, and found that it contains seven times as much matter as is printed from the city publishing houses. A subscription for such issues will be furnished during a year for $2 75 in advance, or $3 00 if not paid in advance.

The popularity of the JOURNAL has been a great gratifying to us. It pos a more now outside of Philadelphia and Pittsburgh, the largest circulation of any pa- per published in Pennsylvania, and is steadily on the increase. As an advertising me dium in this section of the State it is not equalled.

THE MINERS' JOURNAL,
