The MINERS' JOURNAL is published on larger sheet than any other paper published in this State, and contains much more reading matter than any other paper except one, published in the United States. Having a large and increasing list of subscribers, and a circulation far exceeding the number of any other paper in the county, it is one of the best advertising mediums in the coal regions. Advertisements for one month are generally inserted three times, and those for a quarter, twelve times, as the paper is issued from the city publishing houses. And yet so much assistance will be rendered during a year that it is impossible to say how many times any one advertisement will be inserted during a year for $3 75 in the case of a quarterly ad., and you want something for it. It pays to advertise in the JOURNAL. It goes into more families in Pottsville and the Coal Region than any paper published in Pottsville, and is read by the people. As an advertising sheet it stands at the head of the list, and is worth a dollar for every time it is seen by a subscriber.

MINERS' JOURNAL,
