COAL, IRON AND OIL.

BY DAODON AND BANNAN.

The Great Work on our National Resources.

A Large Octavo Volume, 608 Pages, with Upwards of 200 Maps and Engravings.

The subject—It is the most practical and exhaustive treatise on the subject that has come under our observation, and one that deserves to be read by all the liberal men.

The London Mining Journal says:—"A more comprehensive and exhaustive volume upon the materials treated of could scarcely be desired." * * * It may safely be said that we have no single work in this country so thoroughly calculated to afford the superficial and non-scientific all the information he requires in a form that is intelligible."

The first edition is nearly exhausted, and two other editions, owing to the expense, will be published for several years.

Price—$7 50 Cloth; Half Turkey $10.

For sale by booksellers, or sent free by mail on receipt of the price. Address

BEN. BANNAN, Publisher,
Pottsville, Schuylkill Co., Pa.

FOR SALE on reasonable terms and cheap, a two and a half or three horse power Portable Steam Engine, with an upright tubular boiler, in good and complete working order. It is now in use at THIS OFFICE.

Barnum's Nurse was 68 on June 1st.

Mr. John A. Lynch, is to make a balloon ascension from York, Pa.

Deaths in New York last week, 494; marriages, 199; births, 582.

The total amount of outstanding National bank currency is $299 858,694.

Steinway & Sons, New York, last week made their twenty thousandth piano.

"The Drowned Boy or Sorrow" was played in Lebanon this week. The Courier speaks highly of it.

The police expenses of New York city for the year past were, $3 856,308 23. It is salty on taxpayers to live under copperhead rule.

Wm. Mayer, who was but six months since, in Philadelphia, by a rabid dog, took the disease on Saturday, and died in a few hours.

The Virginia election to decide the question of the adoption of the new constitution, and to vote for Governor will take place on Tuesday, July 6th.

Terrible Family Affliction.—Within the period of a week lately, Mr. Samuel Palmer of West Hanover township, Dauphin county, Pa., lost five children from scarlet fever. Three of them were grown daughters. Such terrible family afflictions, are fortunately, but rare.

Strawberries are astonishingly abundant this season. The markets are glutted with them. In New York the best kinds sell for ten cents a quart, and the average for six cents. There, a few days since, several cargoes from Norfolk were dumped in the bay for want of purchasers.

We see it stated that the reduction of the clerical force of the several departments has had a visible effect on the business of Washington.—It is estimated that, including the families of the discharged clerks, three thousand persons have left the city during the past two months.—One church has lost fifty members of its congregation for the same reason.

An Arctic Scientific Expedition has left New York. The expenses are borne by Legrand Lockwood, Esq., the banker of that city, whose son is one of the company.—The expedition is provided with a complete assortment of mathematical, philosophical and astronomical instruments. Several well-known artists accompany it, with instructions to procure photographic views of Sir John Franklin's burial place, and other places and scenes of interest.

The Register Law.—The Sham Democracy are desperate in their assaults on this law which in its fair operations will stop frauds at the ballot-box. On Saturday last Judge Sharswood who is indebted for his present position on the Supreme Bench, to frauds similar to those which this law is intended to check, declared it unconstitutional. But the matter is not settled by this bitter partizan's decision. An appeal will be taken taken to the Supreme Court in banc, which meets in Philadelphia early in July.

The Ohio branch of the Grand Army of the Republic is about establishing in that State a Home for the orphans of Ohio soldiers. A noble work for that great organization. Pennsylvania as a State, led in this just movement. We hope to see the time, ere long, when every State in the Union, containing orphans of our brave dead defenders, will make asylums for them, established by the people or by the G. A. R. It is a duty which cannot with honor, be neglected.

The foreign importations at New York last week, amounted to $6,876,781. Among the general merchandize items are the following: Tea, $669,618; sugar, $1,072,894; molasses, $122 1-3; coffee, $146,857; fancy goods, $44,493; hemp, $93,407; india rubber, $84 412; tin, in boxes, $251,023; do., in slabs, $52,741; wool, $28,194; furs, $6,-998; jewellery, $35,895; watches, $25,436; hides, dressed, $104 886; do., undressed, $258 622; wines, $100,149; railroad iron, bars, $242,656. The last item is especially noteworthy, for a country like this, abounding ore, furnaces and rail mills. When will the people of this country see their true interests in this matter of importing what can be manufactured here?

Mr. Boutwell's Financial Plan.—A western man, of modest pretensions, but of sound practical sense, wrote to one of the eastern papers that he knew he was no financier, and could not venture to discuss financial theories with the opponents of Secretary Boutwell's course in buying up the bonds of the government as fast as surplus funds accumulated to enable him to do so. But what he could say was, he liked to hear of the debt becoming smaller. Let the financiering be what it might, that had a good look to him. This western man is not singular by any means. The people love to see the debt diminishing and the public credit improving. They say to Mr. Boutwell, a plan which works practically, so well, should not be forsaken.

Hon. Henry J. Raymond, founder and editor of the New York Times, died suddenly on the morning of the 18th inst., of apoplexy. It seems that shortly after 12 o'clock, as he entered the hall of the residence, he was seized by apoplexy. He died at 3, A. M., in a state of stupor. He leaves a wife and four children, one son and three daughters. His eldest son will succeed him in the Times office.

Mr. Raymond was during his eventful life a hard-working member of the editorial profession, and if he was unfaltering in his political course, it was because he was honest in his convictions. He was a supporter of Johnson's Administration he himself afterwards became fully aware.

Personally, Mr. Raymond was an estimable man, and his death is sincerely regretted by all, friend and foe alike.
