Robbery of the County National Bank, of Clearfield

On Thursday morning, May 15th, our citi-

ens were somewhat startled by the announcement, that the County National Bank, in this borough, had been entered by burglars and robbed of a large amount of money and bonds. A crowd soon gathered at the banking house to view the debris of the demolished vauit and safe. Upon examination it appeared that the burglars had gained access to the building at the front entrance, having by means of wedges and a bar, wrenched off the hasp into which the bolts of the lock enter upon being sprung by the key. The burglars having provided themselves with a large supply of tools at three of the blacksmith shops in town, they next attacked the vault door. The vault is constructed of heavy boiler iron, firmly rivited together, and enclosed within brick walls. The door The burglars, 'it would seem, first cut ou cife knob, by means of which the outer door of the vault is locked, with a cold-chisel, and then, with a heavy sledge-hammer drove in being able to get into the vault, on account of the top and bottom bolts remaining in their position, they dug away a portion of the brick wall, and then, with an iron wedge, proof, fastened with a heavy padlock; which was knocked off by a blow from the sledgehammer. Having now gained access to the vault, the next obsticle in the way of the burgulars securing their booty, was the Lilley Burgiar proof-safe with combination lock. attempted to drive in and cut to pieces the conical-shaped chilled iron centre block in certificate of naturalization notissaed to him plied the heavy sledge-hammer with great various portions of the afe and door, but succeedforce and iron of the door, to the left of the combina-SEC. 13. Persons were speedily sent in various directions but the robbers have not, as yet, been apprehended. -[Raftsman Journal.

> PACIFIC RAILBOAD INCOME -The annual income of the Pacific Railroad from its through trade it is estimated, will amount to \$60,000,000. Thus, in 1868, the goods transported both ways, between San Francisco and the Atlantic ports, amounted to 500,000 tons, including 30,-000 tons sent over the incomplete railway. The passengers in 1867 amounted to over 150,000 persons, and this number, it is believed, will be trebled in 1870. On the supposition that the Pacific Railroad obtains 150,000 tons of freight, at \$35 a ton, and 334,000 passengers, at \$150 each, the returns will emount to nearly sixty millions of dollars, as stated. In this calculation no account is taken of the way business.
