A WRITER in a neighboring city devotes newspaper column to the subject of " How to use Surplus Funds." We do not know of many men with surplus funds who were ever troubled about how to use them.

Queen Victoria is evidently very favorably impressed by Switzerland. She is going there to spend a portion of the summer. She is also going to Sicily and Greece. She will, strangely enough, leave her seclusion only for a foreign country. She will not spendany time in the pleasant retreats of her own kingdom. Her subjects are loyal; bui they do not fail to gramble audibly at this eccentricity.

Tug Bishop of Oxford, addressing a recent public meeting at Norwich, England, referred to the relations of Great Britain and the Democracie pole.

List Thursday, which blew off the top of the United States, and said: "I can hardly conceive a more miserable circumstance for the whole civilized world, and for the whole wilized world, and for the whole Christian burch than that, though the evil passions of men these two great countries should be friven into war. We ought to be at peace. Our interests are one. We are both the great citnesses for liberty; we are both the great vitnesses for national freedom. If we should e deverted from advancing these blessings broughout the world by mutual hostility our o the other, it would be one of these deep suggements of which we read in the blackest ages of past history as having been allowed overshadow humanity; and yet we see how he single utterance of one man, whose tem er is not under perfect control, has been peruitted to electrify a great continent, and en innger the peaceful relations of two mighty unpites. What do I read when I look at ach things. I read the mission of a mighty cople not thoroughly performed on God' such, and therefore these things are permited to wake Figured up to a sence of what s ready her duty, and recall her before the my of grace be spent to a dischar ge of that july with new alacrity.

Add a department with compe ent, honest and studere professors to aim at me especial object, namely, to make sure if a course of sound moral instruction, that ball regulate and control the passions prejudices and evil propensities-to elevate and ennoble. Instead of the intellectual morepolizing all, as is now uniformly done, et one professorship be devoted exclusively to " moral improvement," and see what will come of it. Call the new department by a name that will clearly express its mean Something, for instance, like this-'The department of right teaching to do right." Let there be professors of right, who will teach right precepts so thoroughly that no student shall ever leave the institution without having his whole heart and conscience imbued and saturated with the daily repetition of right, so that right principles shall become in that student a permanent habit.

Ist. It cures, not by stopping cough, but by, loosening and assisting nature to throw off the unhealthy matter collected about the throat and bronchial tubes, causing irritation and cough. 2d. Most Throat and Lung Remedies are

composed of anodynes, which allay the cough for awhile, but by their constringing effects, the fibers become hardened, and the unhealthy fluids congulate and are retained in the system causing disease beyond the control of our most eminent physicians. 3d. The Pine Tree Tar Cordial, with its as

sistants, perfectable, because they remove the cause of irritation of the mucuous membrane and bronchial tubes, assist the lungs to act and throw off the unhealthy secretions, and purify the blood, thus scientifically making the cure perfect.
