The Great American Carpet-Bagger.

The Philadelphia BULLETIN calls Mr. Packer "the Great American Carpet Bagger," and says he is even more of one than has heretofore been supposed. In his youth he carpet-bagged from Connecticut to Pennsylvania, and he is generally supposed to reside at Mauch Chunk, where a handsome mansion and grounds are pointed out as his. But a couple of years ago he carpet-bagged out of Mauch Chunk into Philadelphia. The Mauch Chunk Gazerre says, that, in 1867, Mr. Packer took up his legal residence in the Sixth Ward, Philadelphia, by having himself assessed and his taxes paid there. He did this to avoid giving Carbon county the berefit of the revenue it was entitled to derive from the legal taxation of his vast estate. The county commissioners and borough council, however, succeeded by legal process in collecting the taxes for that year which has been assessed there, but which he hoped to transfer to Philadelphia.

It appears also that the taxes which Mr. Packer wished to avoid when he carpetbagged away from Mauch Chunk were chiefly those imposed to pay the interest on the borough and county debts contracted during the war for bounties, and to make up the quota of troops required by the national government. He had gone to Europe early in the rebellion, because of his disgust at seeing war made upon his Southern friends. It was an aggravation beyond endurance, that after the war was over, he should, in addition to other taxes, have to pay taxes for Carbon county's war expenses. According to the Mauch Chunk paper, Mr. Packer, while having his legal residence in Philadelphia, still actually resides in Mauch Chunk, as he has done twenty years before. But be has refused to pay any of the county or borough taxes. His friends boast that he has given a million of dollars to Lehigh University, and in his letter accepting the Harrisburg nomination, he declares bimself in favor of "a general system of organized schools." But he avails himself of a subterfuge to evade the school tax of his place of residence. Such conduct would be unworthy of a man of moderate means. But in a man who is acknowleaged to be the richest in Penusylvania, and vhose collossal fortune has been made in the region that he thus treats, it is absolutely disgraceful.

THE California Republican State Convention selemnly resolved that "the negro question has ceased to be an element of American politics." We hope so while we doubt .-We should be very glad to know that the time had come for utterly discarding all discrimination, and for securing the equality of of all men before the law, but we see a plenty of Democratic newspapers which wage a constant warefare upon the Blacks; and there are not a few Southern "Democrats" who declared openly during the late Presidential canvass that the Freedom should be deprived of the right of suffrage. We should like to have the opinion of the ardent Mr. Brick Pomeroy upon the point, since he is probably being soft, thin, and tough. about the most thorough-going "Democrat in the country.

Who is Mutchler? is the all absorbing question among the Democracy of this State The Harrisburg Telegraph answers as follows! All we know of interest about the gentleman il this-he is a resident of Eastonwe think a railroad friend of Mr. Packer, and closely identified with New York interests; was once a Whig, if our memories serves us righly, and is sometimes called 'Bill' for short. He will undoubtedly wish he had never seen a "bill," big, little or human, or a McMullin Bill, when his brief career is practically brought to a close two months hence.

Of the political state of affairs in Pennsylvania the New York Commercial Adverti-

"Packer has nothing to recommend him but his bank account. He is old, infirm, and past his usefulness. Governor Geary, the Republican candidate, has served the country as a statesman and a soldier. He is energetic and progressive. The issue in the canvass in Pennsylvania will be dollars, age and imbecility, against brains, patriotism, and activity.

Gov. Geary was nominated on the first ballot by a vote of 125, to 8 for all others. That is the way the Republicans remember the men who fought the battles for the flag. The Democracy remember the soldiers in their resolutions. The difference is preach with practice, and preach without prac-

The New York Cirizen, Democratic, thinks the Democracy of the State wants a whipping, and hints that they will get it, as follows: "Our Democratic friends of Pencsylvania must need a fiaggellation. They have taken off their coats and stepped up to the whipping post once more. We hope the Republicans will lay it on well this time.

Packer is worth fifteen or twenty millions of dollars and the cops expect his money to elect him. They have always been the upholders of a money aristocracy. It has not been long since they upheld the doctrine that capital should own labor. They have since undertaken to play the role of poor man's, tocratic preferences will crop out in spite of all their efforts to hide them for a season .-Packer owes his nomination to his money

Ir the dispatch of the 2d inst., may be trusted, the reduction of the Debt during the past month will not amount to quite as much as was anticipated on Saturday. It is, however, more than enough to warrant those sanguine hopes concerning the Treasury which have of late become more general, and which the Secretary's evident confidence helps to spread. On the first of July the debt during Gen. Grant's Administration had reached the sum of \$36,460,779 43. If the disputch anticipaling to-day's statement be correct the reduction is now \$43,710,777 43. In other words, we have five months, under all sorts of inherited difficulties from Johston's Administration, in which to attempt getting the finances into a healthy condition; and in that time have reduced the debt by a monthly average of eight and three quarter million

dollars. On the heels of this cheerful news comes the Secretary's announcement that he will continue to purchase three millions of bonds per week for the Sinking Fund during the cusning month. We would make the purchase larger; but we are grateful for so much. The Treasury is at least working steadily, and are working in the right direction .- | Tri bune.

Almost Beyond Redemption .- About five weeks ugo a bundle was received at the Treasary Department at Washington, from a German at Milwaukee, Wisconsin, with the request that the contents, which he said was mutulated currency, should be redeemed, and good bills be returned to him. On opening the package it was found to contain about a peck of rubbish, consisting of scraps of paper, pieces of woolen cloth, strings, chips, nutshells, and fragments of greenbacks.— The German accounted for the confused condition of his mutulated currency by stating that having saved by strict economy five hundred dollars, in order that is might be safely kept, he tied it up in an old stocking and thrust it behind a rafter beneath the roof of his house, and the mice made a nest of it.-The peck of fragments was turned over to two female counters, who, after seventeen days' labor in sorting, matching and pasting, succeeded in rescuing from the mass \$250, and a draft for that amount was forwarded to the economical German.

PLOWING UP SHAVER COIN .- John Vann, of Webber's Falls, Cherokee National, a few days ago was plowing in his field, and his plow struck something and stopped his mule, which he supposed to be a root, and struck the mule with his lash, and it gave a sudden pull, and up came five old spanish dollars. -Mr. Vann went to the spot where the money appeared, and on examining found a keg full of the coin. The staves of the keg were rot-ten, but the dollars were as sound as when coined at the old Spanish mint. On digging up the keg he found it contained five thousand dollars, all in old Spanish dollars of the date of about 1806, and American half dollars of old date. The keg must have been twenty or thirty years ago. the finding of this money the whole field has been dug up in search of hidden treasure. 4-00-0

EMERSON ETHERIDGE of Tennessee is a candidate for the United States Senate. Emersor used to be a pretty good fellow, and several years ago the Republicans in Congress made him Clerk of the House of Representatives. This he liked very well, but after a while he fell out with them because Mr. Lincoln didn't make him military Governor of Tennessee or something else that he wanted, and ever since that he has been growling around in irksome retirement. Now he caree up again, and is going to run against Andy John son. Well, both of them can't have the paize and of the two Etheridge is likely to be fresher and more entertaining as a member of the Sen-ate. But if neither of them would get it, the number who will shed tears will be small.

PAPER HANDKERCHIEFS -The uncleanliness so common with those who use pocket handchiefs is very great, and ought to be remedied. No handkerchief ought to be used more than one day; those who are obliged to use one much, might advantageously adopt the Japanese system of using paper, and never using the same piece twice. Their paper is peculiar Among this people paper is of the greatest importance. They use it for almost everything, and even go so far as to stipulate when a daughter is given away in marriage, that she shall have a certain quantity of paper.

Ix Greenland they have a prohibitory law which prevents the sale of alchohol in any form-It is suggested that the license men in Massachusetts might learn a lesson by visiting a country that has made such progress towards the proper treatment of the question.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth. Thin hair is thick-

ened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sedi-ment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Ayer's Sarsaparilla, FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly many of which were as gravated by the scrofalous affections and disorders, which were as gravated by the scrofalous contamination until they were painfully afficting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfectiling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly developint one or other of its hideous forms, either on the surface or among the vitas. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasion, rapidly developint on the surface or among the vitas. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasion, rapidly developint on the surface or among the vitas. In the latter, tubercles appeas. Persons affleted with the following complaints generally find immediate relief, and, at length, eure, by the use

are cured by it, though a long time is required for subdating these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. Leucorrhora or Whites, Uterine Ulcerations, and Female Diseases, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied graits. Rheumatism and Gout, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also Liver Complaints, Torpidity, Congestion or Inflammation of the Liver, and Janualice, when arising, as they often do, from the rankling poisons in the blood. This SARSAPARILLA is a great restorer for the strength and vigor of the system. Those who are Languid and Listless, Despondent, Sleepless, and troubled with Nervous Apprehensions or Fears, or any of the affections symptomatic of Weakness, will find immediate relief and convincing evidence of its restorative power upon trial. luing these obstinate maladies by any medici

NEW LONDON, CONN., April 26, 1869.

REMEMBERED FRIEND:—I thought it well to wait another wock before writing, to see if I continued to improve, as I have been doing for some time, under the treatment of the new medicine, and am happy to tell you that I am getting better—even faster than when you were here. I commenced the use of DODD'S NERVINE without anybody advising me to it. When I began with it I could only walk from my bed to the chair. My trouble has been extreme pain in the head, and has lasted over three years. All the medicine I have here to go up and down stairs, and am daily improving. I consider the NERVINE the best medicine I ever found, and shall continue its use, for I am confident of entire recovery. I have taken cuty three botties and would not be without it on any account
