We heard the other day of a singular, and, we believe, a new effect of the application of brandy as a medicine. A gentleman convalescing from an

The "Burlington Ronte," so called lies right in the path of the Star of Empire. It runs almost immediately in the centre of the great westward movement of emigration. Crossing Illinois and Iowa, it strikes the Missouri river at three points.

These three points are the gateways into three great sections of the trans-Missouri region.

The Northern gate is Omaha, where the great Pacific road will take you to the land of gold and grapes, sunny mountains, and perpetual summer.

The middle gate is Plattsmouth, which opens upon the south half of Nebraska, south of the Platte river, a region unsurpassed on the continent for agricul ture and grazing. Just here are the B & M. Railroad lands, concerning which Geo. S.
