THE public debt statement of the 1st
of September shows a reduction of the
National debt during the month of \$9,
206,270.50, or at the rate of over \$100,
000,000 per annum. Since the 1st of
March, 1869, bonds have been pur-
chased and canceled by the Treasury
Department to the amount of \$219,
375,200, at a net cost estimated in
gold of \$204,672,066.

THE revised and final tables of the
census returns the population of the
whole country at 38,555,983. The
earlier publications made it 38,312,
633 and 38,532,852, with other inter-
mediate differences. The larger esti-
mate comes nearer to the results of the
revision. Pennsylvania gains 10,248,
being accredited now with 3,521,791
against 3,511,543 in the earlier reports.
New York gains 11,913; Ohio, 2,579;
New Jersey, 3,116; Delaware 10—
probably by births; Maryland, 1,158.
In the South the district loses 34;
Alabama, 4,000; Florida, 11,017;
Georgia, 4,748; Missouri, 807; Mis-
sissippi, 31,780; North Carolina, 2,874;
South Carolina, 29,394, and Texas 66,
421. On the other hand, Kentucky
makes a gain of 13,883; Louisiana,
9,889; Tennessee, 21,108. The re-
sult, speaking generally, subtracts from
the South and adds to the North, while
reapportioning the Northern increment.

THE NEW TANNERY at STERLING.
—We are informed that Messrs. Grant,
Clark & Co., are pushing forward the
work on their Tannery, at Sterling, as
fast as possible, and they will probably
have it completed and in working order
by the first of December next. It will
require five thousand cords of hemlock
bark each year to keep it running,
which, we believe, is about the amount
required at the tannery here. —[Cameron

HOW TO COOK GREEN CORN.—Corn
should be allowed to boil in clear soft
water, and by itself alone. Not in
salt water, for the salt hardens the corn;
and not, on any account, boil the ears
of corn with potatoes, as so many do,
for this greatly injures the taste and
sweetness of the corn, and also hardens
it. It is well known that the skin of
the potato holds a poison which is freely
given to water, rendering it unfit that
corn should be boiled in it. Perhaps
you will think this unimportant and
unnecessary, but I have eaten in hun-
dreds of families where corn was cooked
in no other way except with the pota-
toes, and very much impaired in quality
and wholesomeness.

All people would undoubtedly prefer
a fine head of hair grown upon their
own heads, to being bald, or wear-
ing false hair; and it has been the
study of many of our learned men to
find a remedy to restore the hair when
it has fallen out, and renew its color
after it has become gray. Such a
remedy has been found, and is now offer-
ed to the world under the name of
Hall's Vegetable Sialian Hair Renewer;
and, to verify this statement, read the
following:

This is to certify that I was very
bald; in fact, my head was perfectly
smooth; and it is common in my family
to grow bald early in life. I have now
used four bottles of Hall's Vegetable
Sialian Hair Renewer; and the hair has
grown out all over my head, and is
now a natural brown.

BARTLEY CONLON.
Seipio, Ind., May 28, 1868.

Personally appeared before me Bart-
ley Conlon, and, upon oath, says the
above statement is true.
M. G. BUTLER, Notary Public.

Some forty years ago, when man's re-
spectability depended upon his taking a
newspaper, a shrewd individual was one
morning enjoying the luxury of perus-
ing his paper—although he labored un-
der the disadvantage of not knowing a
single letter of the alphabet—when a
more knowing neighbor of his coming
along and happening in, perhaps to bor-
row his paper, observed to him that he
had his paper wrong end up. The old
gentleman, drawing himself up in the
pomposity of affronted dignity, ex-
claimed: "I would have you to know,
sir, that I take a paper and pay for it,
and have a right to read it which end
up I please."

About 200 men met in Boston a few
days ago, and organized the American
Union Reform party. They declare for
the thorough maintenance of civil and
religious liberty, oppose the union of
Church and State and all class legisla-
tion, and earnestly advocate reform.
They invite the friendly co-operation of
the National Reform party, recently
organized in Baltimore, and request
that it change its name to the name
they have adopted.

AMONG THE INDIANS.—Lieut. Herndon
tells us that no tribes of aborigines
are found in the deepest forests of the
South America, from the Andes to the
Atlantic coast, that do not have and use
Doct. Ayer's medicines and Lowell cot-
tons. "Tremont," "Suffolk," "Boott,"
are seen stamped in large red and blue
letters upon their garments, while
Ayer's Pills and Cherry Pectoral are
among the treasures of their habitations.
Their native soil furnishes them all their
food and most of their remedies, but
they suffer from some afflictions which
must have the interposition of higher
skill. —[Sentinel, Liberty, Va.

A COOLING DRINK.—Mix half a
tea-spoonful of powdered ginger, or a
tea-spoonful of ginger, in a tumbler of
water, and add a tea-spoonful of mol-
asses. This will be found palatable,
will quench the thirst, and will prevent
the ill effects which often follow an
overdose of ice-water and cooling
draughts. In the West Indies ginger
is considered one of the best preventives
for the summer complaints of the
tropics, and we will add it will be relished
by most persons, everywhere in warm
weather.

A MONSTROUS MISTAKE.—"Chronic
Dyspepsia can't be cured," say the Doc-
tors. Heaven forgive them! Can't be
cured! Why Hoodland's German Bitters
and Hoodland's Tonic have cured five
thousand dyspeptics within the last year!
No man or woman affected with
indisposition ever tried these matchless
vegetable stomachics without experienc-
ing immediate relief. In acute Dys-
pepsia, the Bitters (which contain no
alcohol) remove every symptom, and
effect a perfect and permanent restora-
tion of the digestive functions in a week
or ten days, and in chronic cases, the
Tonic (which is also a diffusive stimu-
lant) acts with almost electric rapidity
upon the torpid stomach, restoring at
once its gastric vigor, and the appetite
of the invalid. Depot, No. 631 Arch
street, Philadelphia, Pa. Sold by all

BURLINGTON.

Leaving the East and arriving at
Chicago or Indianapolis, how shall we
reach the West? The best Line is ac-
knowledged to be the C., B. & Q., joined
together with the B. & M. Railroad by
the Iron Bridge at Burlington, and
called the Burlington Route.

The Main line of the Route running
to Omaha, connects with the great Pa-
cific Roads, and forms to-day the lead-
ing route to California. The Middle
Branch, entering Nebraska at Platts-
mouth, passes through Lincoln, the
State Capital, and will this year be
finished to Fort Kearney, forming the
shortest route across the Continent by
over 100 miles.

Another branch of the B. M., di-
verging at Red Oak, falls into a line
running down the Missouri through St.
Joe to Kansas City, and all Kansas.

Passengers by this route to Kansas,
see Illinois, Southern Iowa, and Mis-
souri, and, by a slight divergence, can
see Nebraska also.

Lovers of fine views should remem-
ber the Burlington Route, for its towers
"high-gleaming from afar"—its tree-
fringed streams—its rough bluffs and
quarries—its corn-oceans stretching
over the prairies further than the eye
can reach.

Land-buyers will be sure to remem-
ber it, for they have friends among the
two thousand who have already bought
farms from Geo. S. Harris, the Land
Commissioner of the B. & M. R. R. at
Burlington, Iowa, or among the four
thousand home-steaders and pre-emptors
who last year filed claims in the Lincoln
land office, where "Uncle Sam is rich
enough to give us all a farm."

a better Tonic, and in every way better

it has been in use or how lately discovered.
Above all it must not contain anything nor
PERFECTLY VEGETABLE.
