CHROMOS for Holiday presents at the West End Gallery.

CHRISTMAS HOP at the Hyde House this evening.

FRANGS American Chromos at the West End Gallery.

We wish our readers a "Merry Christmas."

YESTERDAY was one of the coldest days of the season.

You can get just as good a picture on a clear day at the West End Gallery as on a cloudy one. Try it.

THE new bridge across the Clarion at this place was finished on Tuesday the 12th inst. O. B. Grant was the first person to go over with a team of horses.

THE Venango Citizen came to hand last week in a brand-new dress and with a look as bright as a silver dollar.

THAT GEO. P. ROWELL & Co., No. 41 Park Row, are the most extensive advertising agents in this city, is a fact too well known to dispute.

If you wish to get a valuable present for your wife, daughter, or sister. Call at the Furniture Ware Rooms of A. Cummings, Ridgway, Pa., and purchase a first-class Singer Sewing Machine.

COTILLION PARTY.—There will be a Grand Cotillion Party at the Penfield House, Penfield, Pa., on Wednesday evening January 17th, 1872.

GEO. E. ROBACKER, Prop'r.

SALYER JACKSON of this place, had his head badly cut last Thursday, 14th inst., by a stone which fell on him while he was down in a well which he has recently had dug at his residence.

FATAL ACCIDENT.—Last Thursday, 14th inst., John Market, aged twenty-two years, was accidentally shot and killed near Wilcox this county, by D. C. White while they were out in the woods hunting. The facts furnished us are as follows: On the evening prior to the accident Market had been out hunting and had wounded a deer. In the morning both men started to secure the prize, and as they were going through the woods single file, Market behind, White's gun accidentally discharged striking Market in the breast killing him instantly. White was afraid that folks would think he had murdered Market, and so to prevent this he invented the story that Market had shot himself, and went home and told it. Col. A. I. Wilcox on hearing the facts in the case proceeded with Dr. Hartley, of this place, who happened to be in Wilcox at the time, to the scene of the accident. A post mortem examination was held by Dr. Hartley, when the ball was found lodged near deceased back bone, and the ball discovered was found to correspond with the one used in White's gun. Justice J. D. Parsons empaneled a jury and held an inquest. The verdict of the jury was that John Market came to his death by the hand of D. C. White. The men were on good terms and Market had been in White's employ for nearly a year past.

"GEMS" at the West End Gallery.

ITS NO USE, the poisonous hair preparations have had their day and done their mischief. Now comes along Nature's Hair Restorative, a perfectly clear article, which restores gray hair and keeps the head in a healthy condition. See advertisement, 412.

PHOTOGRAPH GALLERY.—Ridgway can at last boast of a photograph gallery, and no one should fail to visit West End and convince themselves that the suit of rooms arranged by S. A. Rote, for the above purpose, are not excelled, in taste and adornment, even by our city galleries. A good picture is guaranteed, and we advise our readers to give "Sam" a call.

YET FREEZING.—Yesterday the scholars in our new school house were actually suffering from the cold, and many were compelled to go home. We have called attention to this matter before and in our issue of the 7th inst. we said that the furnace was insufficient to warm the building. Such we find, however, to have been a mistake and have since been credibly informed that the furnace is of ample capacity to heat the whole building, though it was only intended originally for the lower rooms. The upper room is now heated by a stove, and the furnace is now used as was at first intended. The only and true reason that the building is not kept warm is that the person who fires the furnace and stove is not capable. And further, it has been shown by actual experiment that the furnace is of sufficient capacity to perform the task assigned to it, that of heating the lower rooms. It is time this evil was remedied, and we call the attention of our school directors to these facts and urge on them the necessity of having this matter investigated and a remedy provided without delay.

BURNING CHIMNEY.—If it be desired to extinguish the fire in a chimney which has been lighted by a fire in the apartment, so as to prevent any current of air up the chimney, and throw a few handfuls of common salt upon the fire, which will immediately extinguish the same. The philosophy of this is that in the process of burning the salt, muriatic acid gas is evolved, which is a prompt extinguisher of fire.

DARKNESS IN THE TREATMENT OF SMALL-POX.—If a patient, in the beginning of the attack, be put in a room from which absolutely all light is excluded save that of a candle, the effect is to arrest the disease in the papular or vesicular stage; the skin between the vesicles is never inflamed or swollen; the large scabs of matter never form over the face; there is no intense pain, and only trifling itching, and the smell is either very slight or altogether wanting. [London Lancet.]

PERSONAL.—Mr A. W. Potter, of Potter's Corners, called on us one day this week, and reports that he has pretty much recovered from his conflict with an Elk county bull, a report of which appeared in the Journal last Summer. He has again resumed his labors for Messrs. Powell Bros. Nurserymen, and is now soliciting orders. He will soon re-visit Elk county. We take pleasure in commending him and the firm for which he is agent, to all who want fruit or ornamental trees. [Crawford Journal.]

A MUSICAL TREAT.—Peter's Musical monthly for January comes to us in a new dress. It is printed on thicker paper, and is in every respect superior to its many predecessors. The selections are evidently made with great care, and it is really wonderful how few poor pieces appear among the hundreds that are given. Volume IX commences with the January number. Price 50 cents; or \$3 per year. The publisher offers six back numbers for \$1, and we advise all our Musical readers to take advantage of the offer.

Address, J. L. PETERS, 599 Broadway, New York. Wranglers never want words. The scholastic population of South Carolina is 206,610. A ton of straw makes eight hundred and fifty pounds of paper. Prosperity makes friends; adversity tries them. The loss of life by the Chicago fire will probably not exceed 200, including all those now missing. The newest definition of "evergreen" is "a man who does not learn by experience."

California boasts the largest orchard in the world. It contains 420 acres and over 75,000 fruit trees. Boasting is sometimes out of place. We were once amused at hearing a gentleman remark that he was a bachelor, as was his father before him. "Are you the mate?" said a man to the Irish cook of a vessel. "No," said he, "but I'm the man that boils the mate."

THE MANUFACTURERS OF THE Reliance Wringer.

Have had unusual opportunities of ascertaining what is wanted, and of producing a perfect machine. They have brought out an entirely new Wringer, which they call the "PROVIDENCE."

New 1871 Perfect A GREAT IMPROVEMENT OVER ALL OTHER WRINGERS.

IT SAVES LABOR. IT SAVES TIME. IT SAVES THE CLOTHES.

IT WINDS FASTER THAN BY HAND. We consider the Providence superior to all others, for the following reasons:— 1st. THE ROLLERS, of large size and best quality of White Rubber, are all secured to their shafts in the most permanent manner, by the Moulton Process, making the best Roller in the World.

2d. THE PATENT MENTAL JOURNAL CASINGS prevent any wear upon the journals. [The wooden journal in which the iron shafts of other machines run, soon wear, and the efficiency of the Wringer is thereby greatly reduced.]

3d. THE DOUBLE SPIRAL COGS used on this Wringer give the utmost ease and easiness in working, while the double stop prevents them from bottoming or being thrown out of gear. We furnish either single or double gear Providence, as desired.

4th. THE ADJUSTABLE CURVED CLAMP readily adjusts this Machine to tubs of any size or thickness, making a perfect fastening. No wooden pegs or rubber straps on this Clamp. 5th. SIMPLICITY STRENGTH and BEAUTY, are combined in this Machine, with all the requisities of a first-class Wringer. PROVIDENCE TOOL CO., Providence, R. I. 11 Warren Street, New York. v14262.

BURLINGTON.

Leaving the East and arriving at Chicago or Indianapolis, how shall we reach the West? The best line is acknowledged to be the C. B. & Q., joined together with the B. & M. Railroad by the Iron Bridge at Burlington, and called the Burlington Route.

The Main line of the Route running to Omaha, connects with the great Pacific Roads, and forms to-day the leading route to California. The Middle Branch, entering Nebraska at Plattsmouth, passes through Lincoln, the State Capital, and will this year be finished to Fort Kearney, forming the shortest route across the Continent by over 100 miles.

Another branch of the B. M., diverging at Red Oak, falls into a line running down the Missouri through St. Joe to Kansas City, and all Kansas.

Passengers by this route to Kansas, see Illinois, Southern Iowa, and Missouri, and, by a slight divergence, can see Nebraska also.

Lovers of fine views should remember the Burlington Route, for its towers "high-gleaming from afar"—its tree-fringed streams—its rough bluffs and quarries—its corn-oceans stretching over the prairie further than the eye can reach.

Land-buyers will be sure to remember it, for they have friends among the two thousand who have already bought farms from Geo. S. Harris, the Land Commissioner of the B. & M. R. R. at Burlington, Iowa, or among the four thousand home-steaders and pre-emptors who last year filed claims in the Lincoln land office, where "Uncle Sam is rich enough to give us all a farm."
