

MEETING OF THE REPUBLICAN COUNTY COMMITTEE.

The members of the Republican County Committee, are requested to meet in Ridgway, on Tuesday, June 10th 1873, to transact such business as may come before them.

By Order, E. SOUTHER, Chairman.

REVENUE FROM POSTAL CARDS.—If the New York Times is correct in its figures, the postal card system will be a vast addition to the revenues of the Government. According to Postmaster Crosswell the postal cards cost the Government \$1.36 per thousand. The orders up to date have reached the enormous amount of 25,000,000, of which the cost to the people will be \$250,000, and to the Government \$34,000. Allowing \$16,000 for the additional expense of delivery—which, we presume, is a liberal allowance—and the net addition to the revenue is \$200,000. This is within \$10,500 enough to pay the salaries of the President, his seven Cabinet officers, and the Justices of Supreme Court and the United States, at the advanced rates; it is twice the amount of the cost of the Tribunal of Arbitration at Geneva; it is nearly as much as the cost of the national currency for one year; and it is twenty-five per cent. more than the cost of the signal service for one year. The Postmaster General is confident that the demand, though it may drop off for a while, will be steadily very great.

GENERAL NEWS.

A remote of Kin lays claim to the entire town of Hickman, Ky. Fulton county, Illinois, has paid \$500 for wolf scalps in the last four weeks. A Plover woman lately took advantage of her husband being on the grand jury. A bust of Fred. Douglass, by Moody, is to be placed in the new City Hall in Rochester. A Kentucky woman has been supplied with an iron jaw. Her terms are twenty dollars a lecture. The sugar crop at Jamaica is reported as heavier than during any former season. New coal discoveries are reported in Indiana, and also in several parts of Kansas. A colony of Friends, some thousands, are expected to settle in West Texas. The Kickapoo and Lipon Indians of Mexico continue their raids on the ranches on the frontier. The epizootic has at last reached Walla-Walla, Wyoming Territory. Alaska will come next. The buildings of the Terre Haute car works cover three acres, and the ground eight acres. Columbus, Georgia, has built six cotton factories since the war, and has three more under way. A Mississippi river desperado was buried recently in a coffin made of some of the lumber he had stolen. The coming horse is reported to be a four-year-old bay gelding, called Ticonderoga, now in training near Boston. The latest addition to the list of explosives is a blacksmith's bellows, which a few days ago "burst into fragments," at Pellham, N. H. A queer Delawarean, by his will, divided his property among his children, and left his bones to his enemies "to make whistles of." An Apache Chief, convinced of the improbability of polygamy, has set Brigham Young an example by killing five of his six squaws. The New York horse-shoers, by their late strike, put their "foot in it." They are still idle, and their places have been filled by non-society men. A man with a big heart lives in Allentown, Pa. He found a child's pocket-book, containing five cents, in the street the other day, and advertised it. The censorious public of Rushford, N. Y., treated an emaciated swain of nearly ninety years to several ducks in the river because he wanted to marry a duck of a girl aged sixteen years. John Knox traveled all the way from Dubuque to jump over Niagara Falls, and got into a fight with a backman, licked him beautifully, and concluded that he was not living in vain after all. A Bangor clergyman, last Sunday, alluded to the spring bonnets as "those incomprehensible huddles of finery and frivolity which ladies place upon their heads." Incomprehensible huddle is good, even for a clergyman. A Federal soldier is to be tried by the civil court at Canandaigua, N. Y., for the murder of his sergeant, both being members of the First Artillery, ten years ago. Several witnesses have been summoned from Florida by the Government. Forty years ago, says an exchange, Hon. Asa Paeker arrived at Mauch Chunk, Pa., penniless, and all his worldly property embraced in a hand saw and jack-plane, which he carried with him. He now abuses the Assessor for returning his property at \$30,000,000. Such a career is possible for every other young man who can contrive to get hold of a hand saw and jack-plane.

Speaker Blaine will assist in the Ohio Republican canvass. A paper is to be started in Japan to reflect the views of Americans in that land. The reports from Southern Illinois are to the effect that the winter wheat bids fair to produce an unequal crop. Spring dogs, roasted and garnished with mint, are served up at the Chinese restaurants in San Francisco. An Iowa Congressman, having spent his grab, would like to borrow an amount sufficient to redeem his patriotism. Despite the croakings of orchardists, the indications for an average peach crop are good in most sections of the State. A clumsily drawn ordinance makes any man who shaves himself, in Des Moines, Iowa, on Sunday, liable to a fine of \$5.

A Cairo cook seasoned the soup with a bottle of hair dye, and it had a wonderful effect on the boarders, one of whom went crazy. A man has been discovered in Maine who has 26 children, a wife, four grandmothers, three grandfathers, and seven brothers and sisters in his family. Potato bugs have made their appearance in the neighborhood of Zanestville, Ohio. It is said the ground in many localities is completely covered with them. A Kentucky town reports the foundation of a new order, the members of which "sit around, eat, drink, and pay nothing; sit back and say nothing." The order is not new.

This unkind fling at the Congressmen who have returned their back pay, and kept their names from the public, is made by the Boston Traveller: "Being Congressmen, naturally they are ashamed of acting honest. 'Are you not alarmed at the approach of the king of terrors?' said a minister to a sick man. Oh, no! I have been living six and thirty years with the queen of terrors—the king cannot be much worse." Pope Pius IX. was eighty-two years old on Tuesday, 13th inst. He became Pope on the 16th day of June, 1846, and if he lives until the 16th of next month he will have been the head of the Roman Catholic Church for 27 years. A Wisconsin Congressman is perplexed about his lack pay. He is afraid if he takes it he will be called a thief, and if he refuses he will be called a fool. As he is still undecided, his friends have agreed to end his trouble by calling him both.

Judge Berkeley, discussing libel, says it has been adjudged when a person said of a lawyer that he had as much law as a monkey, that the words were not actionable, because he has as much law, and more also; but if he had said he had no more law than a monkey, these words would have been actionable.

Whiteley Reid, at the last meeting of the Tribune stockholders, was unanimously elected editor and publisher of the 10th of January last, under a contract July signed, and a forfeit of \$60,000 in case he should be in any way hindered from exercising absolute control over both the editorial conduct and business of the paper. "It is not generally known," remarks the Washington Star, "that Mr. Chase was the last of his line. Although he had six or seven brothers, none of them had male issue, and all died before the Chief Justice. And as he died leaving no son, it follows that the line and name of Chase, so far as his father's immediate branch of the family is concerned, became extinct with his death."

Mr. Colfax has written to a friend in Paris, a letter containing this emphatic and sanguine passage: "I never received a dollar from Ames on any account whatever, in check, in cash, in stock, or dividends or bonds. I have full faith that he who knoweth all things will in his own good time make my entire innocence of this cruel and wicked manifest to even the bitterest of my enemies."

Liquors.—A teacup is one gill. Two gills are half a pint. Two pints are one quart. Four quarts are one gallon. A large wine glass is two ounces. A tablespoonful is half an ounce. Forty drops equal one teaspoonful. Eight large tablespoonful are one pill. Four large tablespoonful are half a gill. A common-sized wine glass is half a gill. Four teaspoonful equal one tablespoonful. A common-sized tumbler holds half a pint. Sixteen large tablespoonful are half a pint.

NOT GENERALLY KNOWN.—Martin Van Buren is the only man who held the office of President, Vice President, Minister to England, Governor of his own State, and member of both houses of Congress. Thomas H. Benton is the only man who has held a seat in the United States Senate for thirty consecutive years. The only instance of father and son in the Senate at the same time, is that of Hon. Henry Dodge, Senator from Wisconsin, and Augustus C. Dodge, Senator from Iowa. Gen. James Shields is the only man who ever represented two States in the United States Senate. At one time he was Senator from Illinois, and subsequently Senator from Minnesota.

John Quincy Adams held positions under the Government during every administration from that of Washington to that of Polk—during which he died. He had been Minister to England, member of both Houses of Congress, Secretary of State, and President of the United States. He died while a member of the House of Representatives.

THE LIQUOR TRADE.—The organ of the liquor interest in New York has taken pains to collect and group all the facts connected with the trade in this country. The amount of tax on spirits collected by the United States in 1872 was \$49,475,516.33. This represents about 100,000,000 gallons, worth at wholesale \$85,000,000, but which brought at retail, about \$317,000,000. This aggregates a money interest of over \$400,000,000. The beer trade pays a tax to the government of \$8,573,498.46. This represents a retail value of over \$212,000,000, which, added to the value of the article to the manufacturer, represents a money interest of about \$800,000,000. The wine trade represents an interest of \$75,000,000. The import trade of liquors, beer and wine represents a retail value of liquors of \$27,000,000; of beer, \$2,800,000; of wines, \$135,000,000, or a total of nearly \$165,000,000. Added to all this the capital invested in buildings and machinery, etc., together with the expenses connected directly and indirectly with the trade, the footing is at least \$1,500,000,000.

Miss Johanna Mavrogenos, of Chicago, aged something like forty-three, walked three miles before daylight the other morning for the purpose of hanging herself to a post in the back yard of her faithless lover.

HOW TO GO WEST. This is an inquiry which every one should have truthfully answered before he starts on his journey, and a little care taken in examination of Routes will in many cases save much trouble, time and money. The "C. B. & Q. R. R." running from Chicago, through Galesburg to Burlington, and the "I. B. & W. Route," running from Julianopolis, through Bloomington to Burlington, have achieved a splendid reputation in the last two years as the leading Passenger Routes to the West. At Burlington they connect with the B. & M. R. R. and from the great Burlington Route, which runs direct through Southern Iowa to Nebraska and Kansas, with close connections to California and the Territories; and passengers starting from Elk County, on their way westward, cannot do better than to take the BURLINGTON ROUTE. This Line has published a pamphlet called "How to go West," which contains much valuable information; a large correct map of the Great West, which can be obtained free of charge by addressing the General Passenger Agent of the B. & M. R., Burlington, Iowa.
