KILLED.—Last Saturday a Swede named Peter Johnson, in the employ of W. H. Osterhout, while peeling bark near Boot Jack, was almost instantly killed by the falling of a tree. He leaves a wife and child.

AN exchange having said, "spend your idle time in the garden," the *Girard Press* frankly responds: "That advice just suits us, for if there is any time that we like to be idle, it is when we are in the garden."

THE "infallible" Gene. of the Elk *Democrat*, in his last weeks issue, calls us stupid, and intimates that our judgment is none of the best, and all because we mentioned the fact that it was reported that Bromley had been captured. It is too bad that we were so *stupid* as not to ask this astute editor's advice, in the matter, and our judgment so poor that we published a "report" and simply as a "report." First cast out the beam that is in thine own eye brother Gene, erst thou attempt to discover the mote in ours.

THE new legislative apportionment makes the following Senatorial Districts:

Twenty-fourth district, the counties of Lycoming, Montour, Sullivan and Columbia.

Twenty-fifth district, the counties of Tioga, Potter and M'Kean.

Twenty-sixth district, the counties of Susquehanna and Wayne.

Twenty-seventh district, the counties of Union, Snyder and Nothumberland.

Thirty-eighth disrict, the counties of Cameron, Elk, Clarion and Forest.

Thirty-fourth district the counties of Clinton, Clearfield and Center.

There will be fifty Senators elected in all.

LIST of instruments entered in the Fair Book, in the Prothonotary's office, for record, during the past two weeks:

Satisfaction of Mortgage—James M. Waddle to Harmon Straissley.

Weston fell seventy miles short of making his five hundred in six days.

THE following are the legal holidays designated on the statute books of Pennsylvania: New Year's day, Washington's Birth Day, Good Friday Decoration day, Fourth of July, Thanksgiving day, and Christmas.

THE Corry *Republican* says that J. W Blair, of Clymer, formely of Corry, was literally cut in pieces, on the 25th, by coming in contact with the knife of the Shingle Cutter at his mill at Clymer Station. One of his legs was cut off once and the other twice, besides other injuries. He died in a few minutes.

THE Norristown *Herald* is authority for the following. "A man who was seen coming ont of a Texas newspaper office with his nose split open, one eye ...uged out and an ear chawed off, explained to a policeman that he was not a subscriber to the paper—he had simply entered the office to ascertain if the editor was in. "And he was in," he mournfully added."

TO CONTRACTORS.—Sealed proposal for the contract for building a M. E. church in Ridgway, Pa., will be received at the office of the Secretary of the church building-committee, until June 8th, when the contract will be given to the lowest and best bidder, the committee reserving the right to reject all bids. Full plans and specifications of the proposed church can be seen at the dental rooms of J. D. Fullerton in Ridgway.

J. O W. BAILEY, Sec'y.
Ridgway Pa. May 25th '74.-t3.

GOV. DIX, of New York, has signed the bill which compels parents and guardians of children between the age, of eight and fifteen years to give them, in school or at home, at least fourteen weeks regular instruction every year in reading, writing, arithmetic, English grammar, and geography. It prohibits the employment of children within the ages named at any labor during the time when the district schools are opened, and the school officers are given authority to see that it is enforced.

THE FISH SEASON.—The abundance of fish in the Susquehanna during the present season seems to have been almost unprecedented. The Havre de. Grace *Republican* says that during several days of last week, such immense schools of shad and herring came up the bay that the fishermen had to slacken up and make fewer hauls than usual or they would have taken more than they had capacity to handle. As it was, the Philadelphia and Baltimore market was glutted with fresh shad, and everything available for striking hering was utilized, and the stock of salt and barrels exhausted in putting them up.

FATAL ACCIDENT.—Friday morning last, at 10 o'clock, the portable saw mill of Mr. Lafayette Stahlman, on Mill Creek, Eldred township, was blown up and completely demolished. Mr. S. was thrown up into the air a distance of some seventy feet, falling through and lighting in some birch brush. His injuries were shocking, his body terribly mutilated. Mr. Jos. Wilson, an employee on the mill, was also severely injured, his left arm being terribly mashed, necessitating amputation; he also received internal injuries. David Summerville, a young man employed on the mill, received very severe injuries, and his case is thought serious. William Geer escaped by running from the building, imagining that he had been thrown about seventy feet in the catastrophy. The boiler was torn to pieces and parts of it were thrown many yard distance. The cause of the explosion seems to have been in a measure lack of care in its management, being out of order and carrying too great an amount of steam. Drs. McKnigh and Hunt were summoned, and attended the sufferers.—*Brookville Republican.*

COMPULSORY EDUCATION.—Senator Stewart, of Nevada, has proposed an ammendment to the constitution as follows:

ARTICLE 16.—If any State shall fail to maintain a common school system, under which all persons between the ages of five and eighteen years, not incapacitated for the same, shall receive, free of charge, such elemementary education as Congress may prescribe, the Congress shall have power to establish therein such a system, and cause the same to be maintained at the expense of such State.

This is one of the most important amendments that has ever been submitted to Congress, says the New York *Herald*. The constitution imposes upon Congress the guarantee to every State of a republican form of government. Now there can be no such form of government, either in form or in spirit, without education. We are rapidly coming to the doctrine that ignorance is a crime, and certainly it is a crime against the State. It is more necessary to build School houses than jails, and quite as important to send children to school as to preserve the quarantine at our ports. We trust the Senator will press this amendment, or one similar in spirit' and that it will commend itself to the prompt and intelligent consideration of Congress.—*Pittburgh Telegraph.*

ALTHOUGH the civil rights bill has passed the Senate, there seems to be but little hope entertained that it will go through the House at this session. This, in view of the fact that it goes to the bottom of the calendar, and a two-third vote is necessary to reach it.

J. EDGAR THOMPSON, President of the Pennsylvania Central Railroad Company, died at his residence, in Philadelphia, on Thursday, May [illegible] after an illness of some weeks. The several stations on the roads owned by the company were draped in mourning in honor of the deceased. Col. Thos. A. Scott, the First Vice President, will likely be the successor of Mr. Thompson.

THE Arkansas Legislature has, by an almost unanimous vote, passed a resolution calling on United States Senators Clayton and Dorsey to resign, and requesting the United States Senate, in case of their refusal to vacate their seats within ten days, to investigate the charges set forth in the resolution. The charges are, that they procured their election by bribery, treasonably conspired with Brooks and others to overthrow the State government and attempted to corrupt the judiciary of the State.

THEY had another lumber fire in Williamsport, on Wednesday, May 20. About one hundred and forty piles of boards and plank containing 2,500,000 feet, belonging to Woolverton & Tinsman, were burned. A considerable portion of this was the finest lumber cut by the firm this year. The loss on lumber cannot be less than $40,000 to $5,000. As they had an insurance of $32,500 their loss will be quite well covered. They had no insurance on their railroad tracks, and their loss in these will be from $3,000 to $4,000. From 60,000 to 70,000 feet of lumber belonging to Mr. E. B. England and the Brown estate, were also burned. loss about $1,500. No insurance.

CALIFORNIA'S WHEAT CROP.—California has two million acres of land sown to wheat this season, and her statisticians have been so delighted by the spring rain falls, which are necessary to insure a grain crop, that they have already counted the yield for 1874, the amount to be exported and the cost of shipment. According to their estimates, the State will produce not less than forty million bushels of wheat, which is nearly three times the yield accredited to it in the census of 1870, and ten million bushels more than the production of Illinois, as reported in the same census. The entire wheat export of the United States, in 1873, was fifty-six million bushels, and California expects to export half of that amount this year, and to pay nineteen millions of dollars for freight charges in getting it to consumers.
