WEST POINT CADETSHIP.-The Erie Dispatch says that a vacancy now exists at West Point, for a cadetship in this Congressional District. Some young man between the ages of 17 and 21, is to be selected-to report at West Point on the 26th of August next-and application should forthwith be made to Col. Curtis, member from the district.

And it also says that at the Louisville Medical College, every Congressional district is entitled to one beneficiary student. Any young man wishing to avail himself of the advantage of that institution may apply to the member from this district, who will make the nomination.

It is a fact worth knowing, but which does not seem to be generally understood, that the amalgam of tinfoil with mercury, which is spread on glass plates to make looking-glasses, is very readily crystalized by actinic solar rays. A mirror hang where the sun can shine on it is usually spoiled; it takes a granulated appearance familiar to housekeepers, though they may not be acquaninted with the cause of the change. In such the continuity of the surface is destroyed, and it will not reflect outlines with any approach to decision. Care must therefore be exercised in hanging

THE famous Mead well now making considerable noise in the oil regions is owned by one of the Meads at Youngsville, G. W. B. of the Erie Dispatch says: "The Mead well, which is situated on the extreme frontier beyoud Millerstown, struck last Wednesday, and is a two hundred barrel gusher. All eyes had been turned to 'this well for the last month, as great doubt existed in the minds of operators as to the belts extending thus far ' toward Pittsburg. Oil and the spirits of operators fell ten cents per barrel the next twenty-hours after the striking of this well. The Modoe, Greece City and the Southern belt at Millerstown, has been defined, but this one seems to be for all M Schultz's interest in deed of inclined to lead producers to eternal R. A conviction prevails that Dr Ayer does it. Disorders of the blood have been healed by his Sarsaparillia. and affections of the lungs by his Cherry Pectoral, too frequently and too distinctly to be disputed. His Ague Cure is said, by those who use it, to never fail. Reader, if you must have medical aid, take the best of medicine. Charleston Courier. GOVERNOR DAVIS, of Minnesota, makes an appeal for the people of a portion of his State, who are suffering from a visitation which has had no parallel in this country, and may be fitly compared to the plagues which Moses invoked upon Egypt through the agency of his rod. Seven counties of the States, it seems, have been swept as completely bare of their crops by grasshoppers as if by fire, the insects, it is to be supposed, invading the land in ar* mies of millions. The appeal is addressed to the granges of Minnesota, but outside aid will not be refused July 3d 1874, assigning Dickinson's Although the people of the East have recently had numerous calls upon their charity, this appeal of the Northwest will not probably be allowed to go un-

Harrisburg, July 9 .- To-day at 12: 50 p. m. Lewis Rosentine and John Moody were hanged for the murder of Abram Behm, an old farmer living a short distance from Middleton, Dauphin county, November 14, 1873. They both made a confession a short time af ter their sentence. Their statements differed in some points, but show that both were guilty of the horrible crime,

which they had premeditated. Rosentine made a short address on the gallows. He said he murdered Bohm, and hoped God would have mercy on his soul. Moody made a long speech the substance of which was that he was along with Rosentine, and deserved to die. He hoped for forgiveness. Rosentine died almost instantly, but Moody struggled three or four minutes.

Ex-Governor Marshal Jewell, Bursting of Another Reservoir in Massach :-

Springfield, Mass., July 13 .- Details coming to hand of the second flood in Hampshire county say that it was caused by the giving way of a reservoir outery, at the Court House, Ridgway, of a factory at the village of Middlefield

The reservoir was situated on Middle Monday, August 3D, 1874. The reservoir was situated on Middle field brook, which emptics into the west branch of Westfield River at Middleffeld Switch. It covered nearly 100 acres and was built about 80 years ago. It was used for storing water for running two broadcloth mills, a thill, and stave factory, and a grist mill.

The water swept over farms, gardens, and roads, and several houses were moved some distance. The heaviest oser at Chesters is Dr. Herman Lucas, who estimates his loss at \$10,000. The town of Chester suffers heavily in the loss of bridges and damage to roads To replace these bridges will cost \$10. The Boston & Albany railroad very badly damaged for a distance of tween Middlefield and Huntington i wholly or partly destroyed.

At the Middlefield switch two unoc cupied house were swept away, and also an old red house used as an office when the railroad was building. Several barns and outbuildings were also carried off at the switch, and farms and gardens were badly damaged. A tenement house occupied by the family of Leon Jouezaux, was swept away. The total amount of dumage to individuals and to the town of Chester is estimated at \$250,000. The latest figures indicate that the total less will reach \$350,000,
