

Business Prospects.

The New York Herald devotes over three of its news columns to the business of the country, and editorially takes a hopeful view. The pith of its deliveries is found in the annexed paragraph:

"The first great impetus to the revival of business is expected from the movement of the grain reserves held in the West. There is no branch of business with which the unwelcome severity of the weather has so seriously interfered. The state of prices in the foreign markets is favorable to large exportations, and we are confident that as soon as the softening weather permits the grain stored in the West to be moved all the nerves of business will be touched and stimulated into moderate activity. In the course of two or three weeks the navigation of the lakes and canals will be reopened, when cheap transportation and good foreign prices will impart briskness to that great branch of trade which infuses life into all others."

The Stamp Tax.

The following letter from Commissioner Douglas explaining some of the doubtful points in the act of February 5th, concerning the stamp tax on checks, drafts, etc., will be found of special interest to business men.

THE TREASURY DEPARTMENT, OFFICE OF INTERNAL REVENUE, WASHINGTON, MAR. 10, 1875.

SIR: In your letter of the 4th instant, you inquire as to the proper interpretation of the word "vouchers" in section 15 of the Act to amend existing laws, etc., approved Feb. 5, 1875.

You also ask the following questions: First.—Are notes, drafts, and acceptances when made payable at a bank, subject to a stamp tax of two cents, and if so, does the tax apply to notes, drafts, and acceptances drawn or accepted prior to Feb. 5, 1875, and which have matured and been paid since?

Second.—Does the tax apply to checks drawn by a bank upon itself for the purpose of paying its own dividends and the dividends, coupons, or interest of other corporations?

Third.—Are checks drawn by a State county, or city Government on a bank liable to this tax? Section 15 of said act of Feb. 5, 1875, provides: That a bank check, draft, order, or voucher for the payment of any sum of money whatsoever, drawn upon any bank, banker, or trust company shall be subject to a tax stamp of two cents.

It was understood that this enactment was made mainly to meet occasions of the stamp tax on checks by the substitution of receipts, orders, "payable one day after date," etc. It imposes the tax upon checks or orders, etc., drawn on time, as well as those payable at sight, or on demand, so also on receipts and all other vouchers substituted for checks, etc., as commonly used according to the custom of banks.

Section 6 of the act of March 3, 1875, exempts from the tax "the receipts in the receipt book of a savings bank or institution for savings, having no capital stock and doing no other business than receiving deposits to be loaned or invested for the sole benefit of the parties making such deposits, without profit or compensation to the association or company when money is paid to depositor on his passbook."

This provision leaves the tax upon all receipts (with the above exception) given to banks as vouchers for the payment of money on deposits, as imposed by section 15 of the said act of Feb. 5, whether such receipts are loose or contained in a book.

I reply to your specific questions: 1. That if there is any understanding between the bank and the maker of the notes, or acceptor of the checks, drafts, or orders payable at bank, that all such notes and acceptances shall be paid by the bank and charged in the account of the maker, drawer, or acceptor, in the same manner as ordinary checks would be, such notes and acceptances are considered liable to the two cent stamp tax as "vouchers" for the payment of money by the bank. This applies to notes, drafts, etc., made drawn, or accepted prior to Feb. 5, 1875, when paid by the bank on or after that date.

2. This tax applies to checks drawn by a bank upon itself for the purpose of paying its own dividends and the dividends, coupons, or interest of other corporations, or for other payments. 3. Checks drawn by State, county, or city officers in their official capacity upon public funds deposited in a bank, are exempt, if said funds are kept separate from any private accounts, it not being within the intent of the law to tax a public treasury.

I will add with reference to some other questions, frequently proposed to this office, that orders for dividends are subject to the tax if drawn for a definite and certain sum, but not otherwise. An ordinary certificate of deposit, used in the ordinary manner, is not liable. Interest coupons are considered exempt: bills of exchange, foreign as well as inland, when drawn upon a bank, banker, or trust company, are held to be subject to the tax, whether payable at sight or otherwise.

Duplicates of bills, orders, etc., are liable the same as originals. Receipts not relating to banking business, for instance for rent, are exempt. Very respectfully,

(Signed) J. W. DOUGLASS, Commissioner.

F. D. Tappan, Esq., President Gallatin National Bank, New York.

An old lady down in Georgia is looking for "seven partners of husbandry." She has seven marriageable daughters.

Republican State Convention.

The Republicans of Pennsylvania are requested to assemble, by their delegates, in the Opera House, in the city of Lancaster, at noon, on WEDNESDAY, MAY 29, 1875, for the purpose of nominating candidates for Governor and State Treasurer.

Each Senatorial and Representative district will be entitled to the same representation therein as they are entitled to under the present apportionment of Senators and Representatives in the Legislature.

By order of the Republican State Committee. RUSSELL ERRETT, Chairman.

A. WILSON NORRIS, Sec'y.

GENERAL NOTES.

Nichigan thinks of utilizing convict labor in her copper mines. There are 7,000 more women than men in the District of Columbia.

Monroe county, Ohio, has a 425 pound girl who is still growing. Charles R. Cutler is the Democratic nominee for Governor in Connecticut.

A bank, with \$5,000,000, has been organized by the Grangers of California. The total number of granges in the United States is now reported at 22,547.

Rosch the shipbuilder, has still 1,100 men in his employment at Chester, Pa. The prospects of the fruit crop are reported to be better than for years past.

Colorado steps into the Union with more than one hundred mountain peaks over 13,000 feet high. Muskingum county, Ohio, produced last year 701,633 pounds of butter and 512,793 pound of wool.

The Kansas Legislature proposes to distribute \$25,000 among the destitute in its border counties. Daniel Doran, sentenced to be hanged at Lockport, N. Y., on April 2, has been respited until April 16.

The only church in the county where preaching may be heard in Irish is said to be at Elmira, Ill. Our total cotton production for the last three years reaches the enormous aggregate of 11,750,000 bales, worth about \$725,000,000.

It is estimated that from thirty to fifty per cent. of all the cattle in Montana, Nevada, Idaho, Utah, Eastern Washington, Oregon is likely to be lost from the severity of the winter. The way the Chicago saloon-keepers evade the civil-rights act and keep out Sambo is to put up a sign, "Drinks \$5, subject to discount." The discount for white men is \$4.85 per drink.

Michigan has a compulsory school-law, but the State Superintendent of Education says: "I have yet to learn of its enforcement in a single locality. It is a dead letter on the statutebook."

An African Lothario, who made persistent attempts to ingratiate himself in the favor of a number of white ladies in Ashbury, Warren county, received a coat of tar and feathers a few nights ago.

A prodigal son, finding himself in the police station at Juliet, shot himself, using a golden pocket piece for a bullet, and his last N for a wad. His death might be called pecuniary embezzlement.

George Crowell, of Gardner, Me., gets \$2,905 from Litchfield for injuries caused by an unsafe bridge in that town, and Mary N. Libby \$3,000 from Portland for injuries caused by a defect in the street.

Paris, Ky., April 5.—During the stallion show here to-day Goldsmith's Abdullah, while going around the track, was met by his full brother John Bright, and the shaft of the sulky drawn by the latter entered his breast and came out near the top of the shoulder, causing death in a few minutes. He was valued at \$20,000.

Pottsville, Pa., April 2.—The riotous feeling among the miners and laborers is increasing. During a riot at Ashland only a few shots were fired and no damage done. A dastardly attempt was made to wreck the evening train from Philadelphia, two miles below Pottsville, at seven in the evening. A large stone was rolled down the mountain side and struck the rear car demolishing it but not wrecking the train. When the train reached Mount Carbon, the bystanders asked, "Did you get through? Were you not stopped?" showing that the stone was not dislodged accidentally. The outrage was doubtless the work of the men recently discharged by the Philadelphia and Reading Company. The miners at Schuylkill Haven resumed work. North of the mountain trouble is hourly expected, and a number of colliers in the Shamokin district struck yesterday for the basis of 1874. Others are still running, the operators agreeing to pay on that basis. All the coal now going to market comes from these collieries.

New England Stage Route.—Notwithstanding the advent of railroad lines, the old fashioned stage is still a convenience and necessity in the way of intercourse and travel through some parts of the country. The route between Southport and Kaas is a want which has long been felt, and is now we are glad to say to be supplied. Kane is one of the most prominent and flourishing villages of the county, yet under the present travelling accommodations it is a long journey to the county seat, unless by private conveyance. Some months ago the Government established a daily mail route between the two places, and called for bids. Mr. E. V. Chadwick, the present owner of the route from here to Larrabee, obtained the contract at \$475 per year. Upon the opening of the McKean & Buffalo road to the public his present route will undoubtedly be abandoned. He will then give his entire attention to the Kane route, and the experience of the past is sufficient assurance that with good horses, good stages and prompt attention he will make it a pleasant and popular route.—McKean Miner.

GENERAL NOTES.

General Sheridan is at New Orleans, it is supposed on account of the Mexican Texas troubles. Teaching convicts trade is the only sort of compulsory education against which there is no objection. A number of professionals have arrived at Chicago to participate in the Western billiard tournament this week. The prizes aggregate \$4,000.

A duel is reported to be impending in St. Louis between Silas Hutchinson, of the Dispatch, and James Hyde, of the Republican, newspapers. The trouble arose from a practical joke.

Gen. Sherman states that the German girls taken from the Indians will be provided for life by the Government. The Indians who massacred the girls' parents will be sent to Florida and held as prisoners of war.

The managers of Dexter Park, Chicago, have concluded to give two race meetings in July, the prizes to aggregate \$20,000. Efforts are being made to secure the attendance of Bodine, Occident and Goldsmith Maid.

Fall River, April 5.—A dispatch received from Warren, R. I., says the manufacturers there have turned out on strike, owing to the manufacturers declining to give back the ten per cent.

The commission of John E. New, of Indiana, to be Treasurer of the United States, to take effect from June 30th next, was signed by the President Monday, and forwarded to Mr. New at Indianapolis.

A Bangor, Pa., special gives an account of a brutal outrage by Welsh miners in the strike upon William Hughes, a miner who refused to quit work. They blackened their faces, surrounded his house at midnight, dragged him from his bed through the snow and beat him nearly dead with clubs, inflicting injuries which will likely prove fatal.

Washington, April 5.—Information received by the Bureau of Statistics shows that during the month of March, 1875, there arrived at the port of New York 6,477 immigrants, of whom 4,293 were males and 2,274 female. During the month of March, 1864, 6,058 immigrants arrived, 4,018 being males and 2,040 females.

New York, April 5.—John Dingham was tried in the Court of General Sessions today on a charge of bigamy. Both his wives were in the court room. He pleaded guilty and refused to change the plea. The Recorder asked him which he would prefer, to be discharged to live with his two wives, or sentenced to State Prison for three years. The prisoner promptly expressed a preference to be locked up, and the Judge sentenced Dingham to State Prison for three years on hard labor.

New York, April 5.—A Pottsville special says: There were no serious outbreaks among the miners yesterday, but an insecure feeling continues. At Shamokin the excitement is at fever heat. The strikers have compelled the working miners to cease work at Continental and Independence was attempted at Tuscarora, but fortunately was unsuccessful. Bands of armed and unarmed men are wandering around and assaults and depredations are not unfrequent. The Workingmen, the strikers' official organ, calls upon them to preserve peace and quietness until the end, which is believed to be near, when victory for the strikers is predicted. President Welsh, of the Laborers' Benevolent Association, publishes an appeal to the strikers to observe law and order.

whether it be of the counting-room, the professional office, the work-shop, or the family. Its circulation, equal to the best from the start, has grown in extent and importance daily, until now it acknowledges but two equals—the Dispatch and Leader—so far as the number issued daily is concerned, and no equal as to the character of its readers. These facts are so well known and appreciated by the business community, or the shrewdest members thereof, that our columns have been well filled by the favors of

THE BEST CLASS OF ADVERTISERS. and we are glad to know that their faith in the TELEGRAPH as an advertising medium has been firmly established.

THE ALDINE COMPANY'S NEW PUBLICATIONS.

SOLD ONLY BY SUBSCRIPTION.

THE ALDINE; THE ART JOURNAL OF AMERICA.

This splendid enterprise is not only well sustained in every feature, but is being constantly developed and improved. It stands without a rival in the whole world of periodical literature. The beautiful color-plate, "Man's Unselfish Friend," a chromo presented to every subscriber, is a decided hit, and will, if possible, add to the popularity which this work has gained. The Art Union feature also promises great and beneficent results, in arousing public interest in the fine arts. Circulars and full information on application.

Parts I, II, III, and IV are now ready.

SUTTON'S Leisure-Hour Miscellany.

To be completed in 40 parts issued fortnightly. Each part will contain an elegant frontispiece, originally engraved on steel for the London Art Journal.

REPRODUCING At a price within the popular reach, engravings never before offered at less than five times the amount.

These plates have been the attraction of The London Art Journal. Each part will contain 25 quarto pages, including the elegant frontispiece, on heavy plate paper. A superb title page, richly illuminated in red and gold, will be given with the first part, and the printing of the entire work will be a worthy representation of "The Aldine Press" which is a guarantee of something beautiful and valuable.

At a Cost of 25 Cents a Part

Parts I, II, and III are Just Published. THE ART JOURNAL Complete in 12 monthly parts, at 81 each. Reproducing the best full-page illustrations from the earlier volumes of The Aldine.

Each monthly part will contain six superb plates with accompanying descriptive matter, and whether for binding or framing will be entirely beyond competition in price or artistic character. Every impression will be most carefully taken on the finest toned paper, and no pains will be spared to make this the richest production of a press which has won, in a marvellously short time, a world-wide reputation.

GENS FROM THE ALDINE Especially assorted for Scrap Book Illustrations and Drawing Class Copies.

A large collection of pictures of different sizes and on almost every conceivable subject have been put up in an attractive envelope, and are now offered at a price intended to make them popular in every sense.

Envelope No. 1, containing 50 beautiful engravings, is now ready, and will be sent, postage paid, to any address for ONE DOLLAR. A liberal discount to agents and teachers.

SCRAP BOOKS. A splendid assortment of SCRAP BOOKS have been expressly prepared for the holiday season, and no present of more permanent interest can be selected for gentleman or lady, old or young.

No. 1. Half bound, cloth sides, gilt back, 250 pp., 12x16 inches, \$5.00 No. 2. Half bound, cloth sides, gilt back, 500 pp., 12x16 inches, 7.00 No. 3. Full morocco, beveled boards, gilt and antique, very rich, 500 pp., 12x16 inches, 10.00 Letters to order in gold, at 25 cents each line.

Sent by mail post-paid on receipt of the price.

THE ALDINE PASSE-PARTOUTS. In compliance with repeated requests, the publishers of THE ALDINE have prepared impressions of many of their most beautiful plates for "passe-partout" framing. The cuts are mounted on a beautifully tinted aure mat, with a handsome red border line.

To attach the border, it is only left for the customer to paste and fill over an already attached holder and this may be done by a child.

27 subjects, 12x15 inches, 25c; with glass, 50c. Six of this size for \$1 when selection is sent to the publishers. 5 subjects, 10x12 inches, 20c., with glass, 45c. 12 subjects, 14x11 inches, 50c.; with glass, 81c. Sent by mail, without glass, post paid, for price.

CANVASSERS WANTED THE ALDINE COMPANY, 58, Maiden Lane, New York, N. Y.

REMINGTON SEWING MACHINES FIRE ARMS, and AGRICULTURAL IMPLEMENTS.—The Remington Sewing Machine has sprung rapidly into favor as possessing the best combination of good qualities namely, light running—smooth—noiseless—rapid and durable. It has a straight needle, perpendicular action, automatic drop-feed, makes the Lock or Shuttle Stitch, which will neither rip nor ravel, and is alike on both sides.

The Remington Sewing Machine has received premiums at many Fairs, throughout the United States, and with out effort took the Grand Medal of Progress, the highest order of medal that was awarded at the late Vienna Exposition.

The Remington Works also manufacture the new Double Barreled Breach Loading Shot gun snap and positive action, with patent joint check, a marvel of beauty, finish, and cheapness, and the celebrated Remington Rifles—adopted by nine different governments, and renowned throughout the world for military, hunting and target purposes—all kinds of Pistols, Rifles, Canes, Metallic Cartridges, &c.

Agricultural Implements, Improved Mowing Machines, Steel Plows, Cultivators, Road Scrapers, Patent Excavators, Hay Tedders, Cotton Gins, Iron Bridges, &c.

The undersigned has been appointed agent for the sale and introduction of the Remington Sewing Machine in and for the counties of Elk, Clearfield and Warren. THOS. J. BURKE, Depot and office, St. Mary's, Pa. P. S.—A good local agent wanted.

Ayer's Cathartic Pills,

For the relief and cure of all ailments of the stomach, liver, and bowels. They are a mild, pleasant, and excellent purgative, and contain no mercury or other injurious ingredients. They are sold in every family, and every family should have them on hand for their protection and relief, when occasion may require.
