

Centennial Notes.

Seven million six hundred thousand dollars will be required for the Centennial buildings. Of this sum the money has thus far come in the following direction: State of New Jersey, \$1,000,000; Pennsylvania, \$1,000,000; city of Philadelphia, \$1,000,000; Coupled with this about \$2,000,000 has been raised by the sale of stock, private subscriptions, sale of medals, &c., the later articles being disposed of in immense numbers and yielding quite a large revenue. One million five hundred thousand dollars will be required by the first of next January to carry out the plans of the Board of Finance, and there seems no doubt but that it will be forthcoming. Taking the general characteristics of the people of this country as a basis, and incorporating the one fact of their desire to see and be seen, it is believed that the stockholders in the exhibition are bound to realize a profit by their investment. It is estimated that the number of tickets which will be sold will reach about 7,000,000, if that is not exceeded. Then, after the exhibition closes, the sale of the buildings will net about half a million; all will be disposed of except the Memorial and Horticultural halls.

The Temperance party have nominated a ticket, which will surely take some votes from the Republican party. Mr. Brown, the candidate for Governor, is a gentleman of good character, and he has seen some public life. Mr. Penneyacker, who was nominated for State Treasurer, is a Chester County Friend. We have no patience with the temperance politicians. Men who will endeavor to promote any reform by putting or helping to put the Democratic party in power, must be very short-sighted. The only thing possible for Black and his friends to do this year is to take a few votes from Gov. Hartranft. —March Chunk Coal Gazette.

The business classes of the country are constantly demanding more money order post offices, for the transmission of small sums from one location to another. It is cheap and sure means of transacting this portion of mercantile business, and hence its increasing popularity. On Thursday July 1, two hundred and ninety-nine additional money order offices were put in operation in the United States. Of these thirty-two will be in Illinois, seven in Kentucky, thirty-eight in Iowa, nine in Kansas, one in Arkansas, and eight in Missouri. The remainder will be located in various States. There will also be named at the same time twenty-three offices, through which money orders may be forwarded to or received from Great Britain, twenty-one to do business with Germany, and five with Switzerland. Since the adoption of the money order system only nine offices have been discontinued.

The New York Times has analyzed the figures of the report of the bureau of statistics for April, and finds that there has been a considerable falling off of both imports and exports for the last ten months as compared with the corresponding period of the fiscal year 1874. The latter period included July, August and September, before the panic. Some of the items of difference are curious as well as instructive. We have taken \$3,000,000 worth less coffee, and \$1,100,000 more of tea. In hides and skins we have increased both our imports, just doubling the latter. In raw silk there has been a slight increase and a corresponding one in silk manufactures imported. The importation of metals has largely diminished—of iron 500,000 or nearly forty-five per cent. The exports of these articles, on the other hand, have increased fully thirty-three per cent, and now equal seven-eighths the imports. Curiously enough, the importation of precious stones has increased by nearly two-thirds. Wool and its manufactures also show a slight increase. In exports the most notable items of decrease are in breadstuffs, cotton, oil and tobacco, and the most remarkable instance of increase is of course, gold.

Col. Harry Hoyt, Wilkesbarre, has been appointed Chairman of the Republican State Central Committee. He is very well versed in State politics and has had a great deal of experience in managing campaigns in Luzerne county, which is large enough for a small State. Col. Hoyt will make a vigorous canvass, and we believe, one the Democrats will have cause to remember. —Coal Gazette.

Counterfeit fives on the First National Bank of Canton, Ill., are appearing.

The New Hampshire Legislature has adjourned until next May.

GENERAL NOTES.

In spite of the confidence expressed by Gen. Spinner and other officials of the Treasury, no trace has been discovered of the \$47,500 recently stolen in broad daylight, during business hours, and with six clerks present, from the cashier's room of the Treasury of the United States.

A bridge is to be built over the Frith of King Dagobert the Abbe Denis found a hen's nest full of eggs. They had been there 1,200 years hidden from the light and the air and the changes of temperature, and the hen herself had, perhaps, barely escaped when the falling walls sealed her eggs hermetically for future times. Abbe Denis put three eggs under a hen and they were hatched.

Jersey City, June 24.—Early this morning a herd of sixteen short horn cattle, comprising the finest animals in America, and probably in the world, which cost one hundred and twenty-five thousand dollars, were shipped on the steamship Holland for England. They were purchased for G. W. Fox, European partner of A. T. Stewart, for his country seat in Staffordshire. One bull cost thirty thousand and one heifer eighteen thousand dollars.

Washington, June 26.—The Postmaster General has issued the following order: It is hereby ordered that the fee for registering a letter mailed at any post office within the United States, or to a foreign country, be fixed on and after July 1, 1875, at the uniform rate of 10 cents, in addition to the regular postage, to be fully prepaid by postage stamps affixed to such letter, and canceled at the mailing office.

A man walked into the office of a Long Branch hotel the other day, and actually had the audacity to address the elegant hotel clerk by his first name. Two call-boys fainting away, the porter went into spasms, and the offender himself was carried out frozen stiff as an icicle, but a gorgeous man simply gave his moustache an additional twirl, and went on just as if nothing had happened.

Washington, June 26.—The following dispatch was received at the Indian Bureau this morning from Indian Inspector Daniels from the Red Cloud agency, June 21.—Hon. E. P. Smith, —Red Cloud and Spotted Tail Indians have signed the agreement to relinquish their right in Nebraska. They want \$1,000 in horses \$9,000 in cows, \$2,100 in harness and \$2,300 in wagons. All are well pleased.

Washington, June 24.—The Indian Bureau does not credit the report that all the Sioux are on the war path. They believe that neither Spotted Tail or Red Cloud's men are engaged in any warlike demonstrations, and feel confident that if any Sioux are mixed up with the lawless movements that it is only roving raiders, who are not under the control of these chiefs, and it would hardly be fair to hold the Sioux, as a nation, responsible for any raids or depredations committed by these lawless bands.

Three highwaymen intercepted a lady and gentleman near Kansas City, Mo., on Thursday night and ordered them to hold up their hands and deliver the request was not acceded to, and on the parties attempting to escape the robbers assailed them, knocking down the lady—Miss Alice Williams—and beating her severely. The man escaped, leaving the lady to the mercy of the brutes. They searched her person, but found nothing she having concealed her watch in her bosom. They left her in an insensible condition on the ground and made their escape, but were subsequently captured after a sharp fight and are now in jail.

The locusts throughout Kansas began to take their flight on Friday last, and immense swarms of them were observed in the air, moving in a northwest direction. Their instinct seems to direct them to travel northwest, but occasionally unfavorable winds drive them out of their course. Very few of the pests remain in the State. Advice from all parts of Northwestern and Southwestern Kansas are to the effect that very few of them have descended, and consequently the splendid crops throughout that vast region are as promising as before the locusts came and in fully five-sixths of the State the prospects of an immense harvest were never more favorable. It is estimated that 2,000,000 bushels of wheat, Northwestern Kansas as much more in rye, barley and oats and the corn harvest promises to be equally as large.

The Chicago Tribune, commenting on Judge Kelley's views as lately published in the Times, says: "We think a nation that can pay annually \$250,000,000 in gold to Europe is not so hopelessly insolvent. The annual product of gold and silver in the United States does not much exceed \$70,000,000, and if we succeed in paying out of that sum \$250,000,000 the trade is evidently a profitable one. But the statement shows upon its face how sadly this man of figures, theories and prophecies digests his facts. He entirely overlooks the fact, which is apparent to the astonished eyes of all the civilized world, that we prohibit the exchange of commodities which would render the exportation of gold entirely unnecessary. Judge Kelley closes his eyes to this defect in our system, to which our financial embarrassments are due, and closes his eyes to the fact that this condition of things is aggravated by the circulation of 85-cent dollars; and sitting amid the commercial, financial, industrial and social wreck in his own Congressional district, he bewails the ignorance and stupidity which refuse to reduce the paper dollar to forty cents, and which permits anything to be exported but gold."

Those new style prints, at P & K's are the general talk of the town. Go and see them.

If you want any bleached or brown muslins, from 1/4 to 10-1 wide any quality, go to head-quarters,—Powell & Kime's—and select to your taste.

Those Hamilton Corsets at P & K's are the most durable, and the cheapest in market.

PAY AS YOU GO.

If you pay for goods when you buy them, you will never be troubled with the nightmare of debt, your sleep will be sweet your dreams pleasant, and your wife and children will greet you with a smile in the morning. Go to Powell & Kime's model store with your cash, get more than its value and go home satisfied. They have adopted the cash system, and say it is working charmingly.

If you want a bag of feed, or a bushel of potatoes or a barrel of sack of flour or even a small sack of Graham flour, it will pay you to step into P & K's and examine their prices and goods.
