Our people are still as energetic as of yore, notwithstanding the scarcity of ness. We are, however, about to lose one of our most energetic citizens in the perthis week to take charge of the American refitted for the accommodation of his numerous friends, who may have business in that city. It is not a matter of doubt that and we are satisfied that the American House, under his management, will become a favorite resort for his many friends white sojourning in the Smoky City. Sheriff Barr in thus leaving us casts quite a damper on his friends in this county who were determined to make him the Republican candidate for the Legislature, and had he have got the nomination there would have been no such thing as defeating him. But as it is as necessary to have good hotel s will cheerfully put up with our disappoint-

We are again having some excitement in this section over the prospects of another railroad being built into this county. This time we are to be connected directly with the lakes, by a railroad from our vast coal fields to Buffalo. This road as at present spoken of will pass directly through Brook ville, and thence south of us, where already there has been considerable land, underlaid with superior coal, purchased by

Buffalo parties. But for fear that you may think I am taking up too much of your valuable space I will close this, and promise more interesting matter next time,
