WILCOX NOTES. WILCOX, PA., Sept. 11th, 1876.

Dull. Dogs. Rain. Croquet. Wampires, (Warmires). Woodchucks. The millet is all garnered.

"I" caught a woodchuck last Saturday. They are drilling at last, at oil well No. 3. Oil well No. 2, is being tubed today and a flow of oil is expected to be the result.

Amos Myers' child died to-day, from scarlet fever I believe. W. R. Garrett has been very sick, but is now able to get again.

Business has closed at the mill and the employees are all playing croquet. Handful of the little DEMOCRAT parts his hair like a man, chews tobacco, smokes 5 cent cigars, and plays croquet like a woman.

I hereby challenge Vandike or the little DEMOCRAT, to an encounter with croquet mallets, time and place to be fixed hereafter.

The Republicans of Wilcox met at the hotel of Martin Sowers last Saturday evening and organized a Hayes and Wheeler Club. A. B. Preston, was elected President, A. T. Aldrich vice President, and J. G. Mahoney secretary.

Our citizens have gone crazy over croquet. It is played in the rain and mud and by lamp light nearly all night. I know of a case where a person was run over and bed at night, to play a game, and left the soft arms of morphology to do so.

There are a few Peter Cooper men in town and they all hanker after greenbacks. Doct. A. M. Straight and lady arrived home from the Centennial this morning.

Leslie Eranth has returned east to resume his studies; he will attend medical lectures this winter at an institution of note near N. Y. City.

There is some talk of starting a newspaper here, to accommodate the numerous "scribblerers" which this place contains. It will be called the "Wilcox Punch" and devoted to punning everybody and everything.

We would respectfully suggest to "K" and "King" that a light umbrella would be a good thing to use in playing croquet when it rains, besides necessitating the use of only one hand in playing making a fair thing of it.

A number of small, cheap and very indammable frame structures were burned near the Centennial grounds on Saturday afternoon. They were occupied by beer saloons, restaurants, side shows, etc.

The Committee of the Union Veteran Association, having in charge the reunion of Boys in Blue, at Indianapolis, the 26th and 27th inst., have issued an invitation to the soldiers and sailors who served in the Union Army and Navy during the late war, and all others in sympathy with the cause for which they fought to be present.

In Somerset, Pa., a few days ago, a little two year old child of P. R. Frank Walter met with a very painful death by being scalded. The child was playing in the yard beneath the kitchen window where the hired girl, who had been boiling corn in the kitchen, water, and not seeing the child, poured the water all over it scalding the poor little one so severely that it died in a few hours afterward.

A TRIP TO ALTOONA.

We arrived duly at Altoona, on the evening of the 20th of September via Lock Haven and Tyrone. We boarded the cars of the Bald Eagle R. R. at Lock Haven, running through Bald Eagle Valley all the way to Altoona; changed cars and rode up to Altoona, on the P. C. R. B. a distance of about fifteen miles.

The shingle Mill of Wm. Crispin, Darran, & Moores, was burnt on Saturday, the 9th, about 4 o'clock. Loss about \$3,500, the mill is situated about two miles north of the mouth of Millstone creek, and has been running for the last two months at an average of about sixteen thousand shingles per day, running only in daylight.

The shingle mill was a good one and was built only last winter, but like most all steam mills was of short duration. Mr. Dayley, the sawyer, shut the mill down at noon, on Saturday, and all of the hands and himself left the mill. After dinner there were no signs of fire about the mill only the fire at the waste pile some five or six rods distant.

About four o'clock Mr. Dayley, and Samuel Brandon, a teamster, went to the mill and found it enveloped in flames, and too far gone to do anything with it, but they succeeded in saving all the shingles that were at the mill with the exception of about fifty thousand. The mill was insured for \$1,700 about one-half the loss. It will probably be rebuilt but will throw eight men out of employment for some time.

We have had a very dry fall in this section of the county, but lately have been blessed with several small showers.

The oats, and potato crops, will not be over one-half of the former yield. Upon Sunday we had a very moderate rain, but how far it extended we do not know, but hope it will extend far enough to bring a rise in the river as there is a considerable amount of timber now rafted in awaiting its coming, which would financially retrieve a great many and brighten business through this section of the county.

We have had considerable sickness in this locality. The disease being diphtheria, and mostly among the children. Mr. Harrison Cats buried one of his children on the 6th inst., the other two are recovering.

Political items are scarce, and but little is said. The citizens of Clarington formed a Hayes & Wheeler Club Saturday night, and got thirty members, and some who were formerly Democrats but are tired of New York reforms.

CITIZEN. The result has shown that all the talk we have heard lately, or read in print, of the unpopularity of Gov. Rice and the probability of his defeat in the Convention, had no substantial foundation, that his popularity with the party is unimpaired, and that he will carry as many votes, with a single exception, as any man in the party.-Boston Herald.

A Hayes and Wheeler pole two hundred and fifty feet long was being raised at Lancaster, Ohio, on Saturday evening, about five o'clock, and when the top had reached an elevation of about one hundred feet the rope broke and one of the derricks fell.

The Pacific Mail Steamship Company's steamer City of Peking made the remarkable passage from Yokohama to San Francisco, a distance of 5,000 miles, in fifteen days, arriving at the latter port September 7, this being a daily average of 337 miles, or fourteen knots per hour.

LIST OF JURORS FOR SEPT. TERM, 1876.

- GRAND JURORS: Milton Chase, Hotel Keeper, Benzenette, H. R. Wilcox, Farmer, Benzenette, Henry D. Dorr, Blacksmith, ...

WE would advise any one if they are not done sight seeing in this Centennial year take a ride up to Slodsville.

TRAVELER. "Wheat & Chess."

Earley, Elk Co., Pa., Sept. 11th, 1876. Mr. EDITOR.-Strange as it may seem, to the minds of some thinking men, it is nevertheless a fact that under certain circumstances chess is produced from wheat.

Now, I know this to be a fact. On one occasion I sowed wheat quite late in the fall, a portion of the field was wet, and the wheat on that portion did not mature well, and there was a good many stalks left on the ground, some of which lay there all the year.

The following year, after I went through the lot, and noticing stalks of chess, I took pains, as it happened, to trace the roots of the chess to the old wheat head of the former year, which was still intact, showing plainly that the wheat had sprouted while remaining in the chaff, upon or in the wheat head, and above ground and where it stood a good chance to get rather rash treatment from exposure to heat and cold, during the sprouting process, which no doubt, to some extent, would change its nature.

This fact should impel the managers of our national canvass to increasing effort. As in the campaign of '72, the brunt of the fight must be borne by the contestants in the preliminary elections.

It is said that Mr. Tilden's physical condition is about as uncertain as that of Mr. Seymour, and it is notorious that the work of the campaign has been entrusted mainly to the "Literary Bureau" in Liberty street.

Political Notes. The South is prepared to treat for peace on the same terms as in 1861.

Baltimore and Ohio Railroad train; Hayes, 121; Tilden, 99; Cooper, 3. Put on the brakes.

It is observed that people on the fence are tapping their toes a little on the Hayes side.

Tilden's income in 1862, it is claimed, reached \$108,500. His taxable income was only \$7,118 in that time.

The Baltimore Gazette threatens to oppose "Minute Men" to the Boys in Blue. That kind of talk is at least eleven years too late.

Democratic papers are changing their tone. It is fortellable, as they bragged and blustered; to-day they threaten or appeal for votes.

Wonder if Tilden wanted Wade Hampton nominated for Governor in South Carolina "for the sake of the outside effect?"-New York Tribune.

The two great Demos at the next session of Congress will be Ben Butler and Ben Hill. The Republican minority will feel as though it might have been -worse.-Press.

The Northern States alone are going to elect Hayes and Wheeler. The Southern "people" had better accept this as a fact and come in and help swell their majority.
