The testimony taken by the Chinese Commissioner in San Francisco in reference to the shoe trade was very interesting. On October 28th a manufacturer testified that four years ago the average wages of journeymen those makers ranged from \$24 to \$30 d week, whereas at present they are able to earn only from \$16 to \$18 a week. This reduction he attributed to the employ-New England. As assistant forewoman in a factory in which 300 Chinese journeyman were hired, stated that 23 young woman were also employed on uppers. They did not like to work with the Chinese, but starvation was the alternative. There are hundreds of unemployed white women in the city who would gladly take the place of the Chinese, and they could certainly work with greater rapidity.

On Monday and Tuesday evenings, of next week Nov. 20th and 21st Rev. H. S. Getz, of Warren will deliver two lectures entitled "A Country Parson's Trip to Europe." These lecturers are spoken of in the very highest terms of praise and we hope our people will not fail to hear them. They will be given in the school building under the auspices of the Parochial Society of Grace Church for the benefit of the Church. Lecture will commence at 7 o'clock. Admission twenty-five

cents. Let all turn out. THE next complexion of the next lower house of Congress cannot be positively calculated yet, but the most careful estimates makes it as follows: Republicans......148 Democrats......147

To be elected......8 Democratic majority..... This shows a Republican net gain of

69. Other estimates place both parties even. Several days must clapse before the exact number can be ascertained with certainty. At all events the great Democratic majority of 73 in he present house has been almost entirely destroyed.

Gov. Hayes sets a splendid example to his friends by his calm dignity and readiness to accept the will of the people. Gov. Tilden would but do his duty if he would put a stop to the reckless mischief-makers among his followers who blantantly insist that returns which do not please them must be fraudulent, and that a decision which does not please them must be resisted. It is not to his credit that, while they threaten, he is silent. Has he not the patriotism to tell his followers that the laws must be obeyed? Has he not the good sense to repeat the calm advice given by Gov. Hayes, and to remind his folfowers that the actual results of elections are decided, not by hopes or beests, but by official returns?-N. Y. Tribune:
