From The Seat of War. EDITORIAL CORRESPONDENCE. Governor Hartranft issued orders calling out the State Militia, to assist in bringing peace and order out of the chaos brought about by the rise of the laboring classes.

Our camp is located, as we have before intimated, on a steep hill the south side fronting the railroad track by a perpendicular bluff. At this point we are greeted as far as the eye can see, in an easterly direction by the ruins wrought by the mob on that ever memorable Sunday night when the Union depot, 125 locomotives, several hundred cars, and thousands of dollars worth of merchandise fell a prey to the devouring element.

The citizens of Brookville seemed surprised to see an armed body of men invading their territory but instead of devouring us, we caused a famine at the American House. Mr. Kretz only charging the boys two bits and a nickel for one of the squarest meals you wish to see, and very kindly transported our baggage to the depot and in many other ways added to the comfort of the boys, for all which the humane proprietor has the thanks of the command.

Trains are running now with considerable regularity and will likely all move as usual by the end of the week. Large forces of men are engaged removing the debris and repairing the tracks.

At Redbank the danger of being intercepted by rioters made us just unwise enough to be cautious, but all seemed determined to do the duty required of them at any cost.

At Kittanning the citizens especially the ladies, and more especially the young ladies waved their handkerchiefs, and by actions stronger than words welcomed us as exponents and champions of law and order the sight of blue uniforms seeming to guarantee to all the protection of law, and possessing all with confidence in the ability of the State to sustain itself even if it be by the calling out of armed bodies of citizens.

Pittsburgh was reached without any disturbance and we were landed, at Lawrenceville one to two miles above the Union depot, a drizzling rain giving us a disagreeable welcome. The guide appointed to take us to our camping ground being evidently slightly confused, we were first marched into a barn yard and into some body's back fence, and out again only to stumble over boilers which lined the streets, and each member silently cursing the fate that compelled us to march under the direction of a confused guide in a rain storm.

Female prisoners in the California prisons are chained to poles, tied to iron rings and drawn around by the hair, and some folks think it is bearing on a little too much.

When you see a piece of ice lying on the walk after 10 o'clock A. M., you may know that the husband is determined and the wife obstinate, and that they are waiting to see who will give in.—Free Press. Penfield, P., July 30, 1877.

EDITORIAL CORRESPONDENCE. The regular trains give about 3 hours on the ground. Dinner and Speeches at 2 3/4 P. M. all but Editors bring baskets of dinner.

Bitten by a Rattlesnake. Mrs. Palmer Abbey, of Keating township, met with a curious accident some days ago, which came near proving fatal. She and her husband were out picking berries, and while stepping over a log she felt something strike one of her limbs below the knee. The immediate sensation was quite painful, and she says felt as if some one had hit her with a stone.

Speaking of hard times, an exchange arrives at the very sensible conclusion that hard times will cease when "big bugs" take less and give more, when common people work more, wear less and pay for what they get; when young men learn to be mechanics in place of gentlemen; when young women learn first to cook in place of playing on a piano.

It is stated that an old man at Blackville, S. C. recently declined an offer of 12 cents on the dollar for \$750 Confederate money. The Courier Journal pronounces the story ridiculous, and says: "If the person who made the offer will only prosecute his efforts he can get a steamboat load of that sort of currency at less than 12 cents on the dollar, as when the war closed thousands of people had all the old barrels and boxes full of it, and the most of them have got it yet."

What's the "High French Twist"? Will the ladies explain?—Williamport Gazette & Bulletin. First make three plaits of hair, hold the ends of the right and left plaits with your teeth while you roll the centre plait up in a ball and fasten it to the top of your cranium with a hair pin. Then twist the other two together and hang 'em on the ball with a set of hair pins and there you have it.

THE AUSTIN COMPANY'S STORE HOUSE AT SHARON BLOWN TO PIECES—GREAT DESTRUCTION OF PROPERTY. A terrific explosion of a power-house took place at Sharon, at one o'clock yesterday morning. The building was situated in the woods, about half a mile east of the city limits, and contained 635 kegs of powder belonging to the Austin Powder Company, of Cleveland. For some time small amounts of powder have been missed, and it had been the opinion that thieves were obtaining admission; so it is believed that while the intruders were at work the powder was ignited in some way.

WILCOX Notes. Wilcox, Pa., August 1st. Hot and dry with showers all around us. Just as I expected if you hit a skunk Egypt howls, there must be a strong affinity between them.

BE FRANK.—Never deceive for the sake of a foolish jest, or to excite the laughter of a few companions at the expense of a friend. Be anxious when you relate anything that you tell it just as it occurred. Never vary in the least degree. The reason why our ears are often saluted by false reports is because people in telling real things add a little to them, and as they pass through a dozen mouths the original stories are turned into something entirely different. So when you attempt to tell anything that you have seen with your own eyes relate it correctly in every particular, and as you grow older you will reap the advantages of this course.

Inflammation of the kidneys is known by fever, pain in the region of the kidneys and shooting along the course of the ureter, numbness of the thigh, vomiting, urine high colored and frequently discharged, costiveness and colic pains. The Barosma, or Back-ache, Liver and Kidney Cure is warranted to relieve these symptoms as it has not failed in so doing the past eight years. Daily papers call to tell us of the great benefit received from using it. Prepared by E. K. Thompson, Titusville, Pa. On receipt of one dollar will be expressed to any address or six bottles for five dollars.

An Englishman committed suicide the other day, and left a paper stating that he did so "because his wife was too good for him!" The jury very properly returned a verdict that the deceased was of "unsound mind.—Graphic.

Mrs. Elizabeth Rogt, wife of James M. Rogt of Millville, committed suicide by hanging on Friday last. Mrs. Rogt was blessed with two children, and at the time of the said calamity, one of them (a little girl) was present to witness the sad sight of seeing her mother take her own life.

The party of surveyors engaged in establishing the boundary between New York and Pennsylvania are now operating in Bradford county. Altogether about 2,600 cars were destroyed by the Pittsburgh fire, over one-half of which were loaded.

By the destruction of the Acme barrel works at Titusville on Friday 25th men were thrown out of employment. A limb last week struck Samuel Stiver, of Clearfield county, while he was felling a tree. He died in half an hour after the accident.

A little boy named Keller, while climbing on a pile of lumber at Chambersburg, was thrown to the ground and sustained dangerous injuries. A panther with a brass ring in its nose infrightening the citizens near Dreherilles, Schuylkill county. It is believed to have escaped from a circus.

John Bratton, supervisor of Shamokin railroad, while proceeding to his home in Sunbury, one night last week, was attacked with clubby several men. He was rendered insensible for two days. No clue to the assailants. A ball of rags saturated with oil was set on fire at Greensville, Franklin county, a few days ago, and tied to a dog's tail. The frightened animal ran into a stable and set it on fire, but the flames were promptly discovered and extinguished. Dangerous amusement.

The counsel of Allen C. Laros, the condemned prisoner, intend to petition the Governor to appoint a commission to inquire into and determine as to the sanity of the prisoner. Orlando Boritz a lad of fifteen, living with his grandfather near Allentown, committed suicide the other day, hanging himself to a tree. His motive for the act is not understood.

The coal shipments of the Delaware, Lackawanna and Western Railroad Company for the past week show an increase of 48,033 tons over those of the corresponding week last year. Up to the present time this year the company has shipped 1,535,275 tons. Major James H. Stewart, late of General Pearson's staff has been appointed aide-de-camp, with the rank of colonel, to Governor Hartranft, commander-in-chief of the National Guard of Pennsylvania. General Pearson himself has not been promoted as yet.

Mary Sellers an old lady of Pottstown, has recently made several attempts to commit suicide. On Wednesday she jumped from a second-story window of her dwelling to the ground, injuring one of her limbs badly. Trouble about some property has produced insanity. Samuel Norman, a constable of Tarentum, Allegheny county, arrested August Meyer on Thursday last for knocking down a woman with a base ball bat. While in the constable's custody Meyer fired two shots at him, causing fatal injuries. The murderer is at large.

Thomas and Harry D. Armit were arrested by the police, one day last week, on the charge of shooting at the Philadelphia soldiers. Thomas worked at the coal yard of Dickson, Stewart & Co., and Harry is an engineer on the Evergreen railroad. It is claimed that one of these is the man who so deliberately followed up the soldiers on Penn and Butler streets, and by whose weapon ten men were killed. The report that Sheriff Fife, of Allegheny county, was killed in the fight with the rioters at Pittsburgh on Saturday night week, is contradicted now, and that he is alive and unharmed. Probably when a boy, he read the couplet about the chap "that fights and runs away," etc. He has proved himself a valiant (!) officer of whom his constituents must feel proud.

Postal Changes. WASHINGTON, July 29.—Postal changes in Pennsylvania for the week ending July 28: Discontinued—Canoa, Clarion county. Postmasters Appointed—D. C. Thro, DuBois, Clearfield county; O. B. Graham, Fordwood, Delaware county; E. Rupert, Girty, Armstrong county; D. Curtis, Ludlow, McKean county; G. Wagner, Rosecrans, Clinton county; J. H. Mattern, Bobbick, Clearfield county; O. W. MISS LEFRANC'S WALK. She Accomplishes Fifty Miles in Twelve Hours. Miss Bertie Lefranc, pedestrian, began in Lawrence Hall, at eleven o'clock this morning, the task of walking fifty miles in twelve hours. She accomplished the feat in the given time, finishing the last mile at eight minutes past ten o'clock, having rested meanwhile 1h. 32m. 30s.

Her best time was made in the thirty-ninth mile, which she walked in 3m. 45s. The fortieth mile was made in 10m.; forty-first and forty-eight in 10m. 10s.; forty-second and forty-sixth in 10m. 45s., and the forty-ninth and fiftieth in 11m. 30s. each. From the forty-seventh to the forty-ninth she rested at intervals of twenty-nine and a-half minutes, and six and a-half minutes before beginning her last half mile. At the conclusion of the walk her pulse marked ninety-eight and she was apparently not much exhausted.

Miss Lefranc is eighteen years of age, is five feet three inches in height, and weighs 124 pounds. Her first walk was in Providence with May Marshall, pedestrian, in May last, when she walked twenty-five miles in 5h. 24m. She is a free, easy walker and toe walker and has great powers of endurance.—N. Y. Herald.

Major General Hamilton has been appointed to the position of Chief of the Pennsylvania National Guard. He will be sworn in on the 1st of September. The Governor has directed the Attorney General of the State to prosecute them immediately. This quiet occupation of Pittsburgh I think settles the question of order in this division, and the only trouble that seems to remain is concerned with the miners in certain parts in the coal districts, such as Scranton. Possibly that may require similar treatment to that of the railroad.

W. R. HAWCOCK, Major General Commanding.

State Notes. The total number of persons killed in the Pittsburgh riot is about forty.

The loss by destruction of the grain elevators at Pittsburgh is \$250,000. The rolling mill at Tamaqua is working night and day.

Mrs. Patrick McGovern, of Hazelton, Luzerne county, has been missing since Monday. The Empire House at Greenville, Pa., was destroyed by fire Friday night. Loss \$7,000 to \$9,000.

The citizens of Hamburg, Montgomery county, have voted against the purchase of a steam fire engine. Four children of the family of Frank M. Trout, of Lancaster county, died within a few days of diphtheria.
