FRED. SCHEENING, Clerk.

Good use for a Dime.

We advise all our readers to forward their address and 10 cents to Orange Judd Co., 245 Broadway, New York, who make a special offer to send for this sum (half price and postage) the number for October 1st, of the American Agriculturist.

Most will get from it hints and suggestions worth ten or twenty times its cost. Better still, to send \$1.00 and receive the paper, post-paid, from now to the end of 1878—that is all of free. (Two copies for \$1.50 each). Nowhere else can one get so much really valuable, paying information for so little money—not 3 cents a week, a sum easily saved or produced extra, which the paper will be sure to help one to do. This Journal is prepared by practical men and women, who know what they talk and write about from actual experience and large observation, and they can do greatly aid others to profitably planning and working. Many single hints and suggestions each abundantly repay a year's cost. The fearless exposures of quackery and humbugs in every number, are invaluable, and have saved his readers and the country millions of dollars. The departments for the Household and Children are pleasing and instructive. Every number of the paper is beautifully illustrated. In short, the American Agriculturist is full of good things, for every man, woman, and child, in city, village, and country. Take our advice and send \$1.00 for 14 months, or at least send a Dime for the half-price specimen now offered, and see it for yourself.

One of Kime's friends went electioneering among the "horny handed" a few days ago. He presented "Snayder's" claims with much eloquence; he was poor; he was a worker; he needed the office, and the like potent arguments, to all which the "horny handed son of toil" replied; "Its a—d strange his rich friends should be so anxious to get him an office." Our "horny handed" friend should remember that apparently rich men sometimes need a friend at court, and they may expect a call from the Sheriff themselves within the next three years.
