REPUBLICAN STATE TICKET.

FOR GOVERNOR. GEN. HENRY M. HOYT. OF LUZERNE.

FOR LIEUTENANT-GOVERNOR. GEN. CHARLES W. STONE. OF WARREN.

FOR SUPREME COURT JUDGE, JAMES P. STERRETT. OF ALLEGHENY.

FOR SECRETARY OF INTERNAL AF-COL. A. K. DUNKEL,

OF PHILADELPHIA. Editorial Notes.

THE Congress of the great powers now in session at Berlin is likely to break up in a row, and then war.

CHICAGO will have a monster parade of the red flag communists, without arms, but if molested they will shoulder their muskets.

WASHINGTON'S monument, that eye-sore of a generation, is at last to be completed, Congress having appro priated \$200,000 for that purpose.

CHRISTIAN K. Ross (father o Charley Ross) has been appointed Master Warden of the port of Philadelphia, by Governor Hartranft.

INSANITY is proved by statistics to be on the increase, owing, no doubt, to the pressure on the mind of people genererally in this fast age of steam.

A GENERAL uprising of the Indians and a costly Indian war seems eminent. Extermination really seems to be the only medicine to give the red devils.

WILL General Grant be the Republican candidate for President in 1880? His chances seem to be good as that of any other man, and stranger things have happened.

In the Hungarian exhibit at the Paris Exposition is a monster tun, eighteen feet in diameter, and eighteen feet long, and capable of holding 21,000 gallons of wine.

THE Crown Prince of Germany, returns thanks to President Hayes, and the American people, for the sympathy manifested on account of the recent attempted assassination of Emperor William.

A Woman in Muncie, Ind., threw red pepper in the face of the editor of the News, and then administered a brutal horse-whipping, all for an alleged slanderous article. The woman was arrested.

A CARD written by James Gorden Bennett removing the seal of secreey from the seconds in the Bennett-May unpleasantness has been published. The only question that suggests itself cares?

CONGRESS at last has adjourned, after an eight-months session, in which nothing hasbeen done, either good, bad or indifferent, and the prospects of an extra session to provide for the payment of the Canadian fish award, is more than possible.

JUNE 17TH has come and gone, and no car wheels are stopped, as was threatened by the communists. Law and order will be preserved at any cost, and the sooner all evil-disposed persons understand that, the better for them and the country.

TIMES are hard, and the commonest necessities of life are denied thousands of honest, hard-working men and women. And yet to see the style of dress, and the extravagance indulged in by the favored few, one would think this a land of milk and honey.

THAT the present season will bean abundant one is foreshadowed by the the West. In Michigan the only thing to be feared from the growing wheat is that it may attain too rapid a growth to enable the straw to obtain

THE appointment of Gen. John C. Fremont to the governorship of Arizona territory is one that will be sanctioned by the whole American people. Years." These two poems alone being supposed to be the one who remained large.

About Swindlers.

It is astonishing to see how much agenuity is displayed by that class of men who live by their wits. We have recently heard of a new swindle which illustrates the danger of dealing with strangers. In this case there was a E. & H. T. ANTHONY & CO. genuine sale of land, the party buying 100 acres of poor land, for which he paid \$300 in cash. He then made a sham sale of it to a confederate for \$10,000. Five thousand of this is supposed to be paid in eash, and notes are given for the remaining five thousand, secured by mortgage on the land, and the mortgage is regularly recorded. These notes are then turned over to a resolution in favor of the marriage of third party, who goes to some city bank and asks for a loan of perhaps \$2,000, and offers the notes and mortgages as collateral security. The officers of the bank telegraph to the recorder of the county and get a reply that such a mortgage is recorded, and they let him have his money. Of course the notes and mortgages are never called for, and when the bank undertakes to foreclose, the trick is discovered.

Perhaps the most amusing piece of rascality that we have heard of, was that of a lightning-rod pedler, who drove up to a new house and found the owner skinning a wood-chuck. He tried to get the job of putting rods on the house, but the farmer said he could not afford it. The agent tells him that woodchuck skins have been found valuable for certain purposes, and number of lives lost by the collision of finally offers to put a rod on his house and take his pay in woodchuck skins channel on the 31st ult., is 280, of whom at fifty cents each, to be delivered at the railroad station at a certain date. As the farmer's fears have been excited elers have struck at Buffalo. As yet by the picture drawn by the agent, of no acts of violence have been com- the danger of living in a house without rods, and knows that he can easily get the skins, a bargain is soon struck, and a note is drawn up to read payable in woodehuck skins some months hence. The farmer caught Micro-scientific Lanters, The line is 1,560 miles in length, and his woodchucks and cured the skins, but when he presented them as payment, found to his surprise that there was no "woodchuck" in the noteburying a number of people in the nothing but cash, which he had to ruins. Four were recovered alive, but pay, and now nothing would afford him greater pleasure than to make those woodchuck skins into whiplashes, and wear them out on the lightning-rod agent's back .- Columbia

Courant. ANOTHER CASE FROM DU BOIS .-I'wo men named James McGrah and Benj. Straley got into a dispute at Du Bois on Monday, which resulted in the serious injury, and perhaps death, of the former. The facts as related by the constable of Brady township, who arrived here early on Tuesday morn. ing with Straley in irons, are about as follows: The dispute had come to an end and McGrah was carelessly leaning against a support of some kind with his back to Straley, when the latter suddenly raised a piece of edging and struck McGrah a fearful blow Straley struck him another blow with the club, and then kicked him before the bystanders could interfere. He almost immediately began to throw up blood, and the doctors give it as their opinion that he cannot recover. Straley was arrested and committed to jail to await the result of McGrah's injuries, and will be required to answer before the next session of our criminal court. Clearfield Republican.

-In New Haven the other day a superintendent of a line of steamers wanted some laborers on the dock. and going to a lot of idle men on the street, whom he had been informed were seeking work, he offered them one dollar and a half per day. To a man, however, they demanded twenty-five cents an hour, and jeered the superintendent for his proposal. One would suppose that times are not hard in New Haven, or that people find it more comfortable to live without doing anything, but a local paper explains that among those who refused this proposal for a dollar and a half per day are a number who are frequently petitioning the city authorities for relief. Labor reform is evidently not so much needed in New Haven as a reform of those who won't labor. And these are the kind of men who are Brooklyn bridge were lowering into most dangerous, who, having the least right to consideration, are constantly agitating for recognition. A man has the right to refuse to work if \$1. he can get along without it, but such watch.-Philadelphia Times.

TAR-WATER FOR INSECTS.-For the last five years I have not lost a cucumber or melon vine or cabbage plant. Get a barrel with a few gallons of tar in it; pour water on the tar; always FLOWER AND VEGETABLE have it ready when needed, and when the bugs appear give them a liberal drink of the tar-water from a garden sprinkler, or otherwise, and if the rain washes it off, and they return, repeat the dose.
