REPUBLICAN STATE TICKET. FOR GOVERNOR.

GEN. HENRY M. HOYT,

OF LUZERNE. FOR LIEUTENANT-GOVERNOR.

GEN. CHARLES W. STONE, OF WARREN.

FOR SUPREME COURT JUDGE. JAMES P. STERRETT. OF ALLEGHENY.

FOR SECRETARY OF INTERNAL AF-FAIRS, COL. A. K. DUNKEL. OF PHILADELPHIA.

Editorial Notes.

NATIONAL banks have generally stopped paying interest on deposits, and for this reason their depositors are prisons. seeking investment which aggregates millions every week.

THE following named articles have been submitted to the department recently, and ruled upon as unmailable. form, eye glasses or spectacles, glass, jewelry having pins attached, salve, pens, stove polish, sugar, tin dishes, tooth powder. Postmasters are obliged to refuse to receive into the mails any of the above articles; the manner in which it is wrapped cannot be taken into consideration.

THE Journal of Commerce, in sprightly article, calls attention to the rapidity with which Japan has Americanized her institutions. She has a funded debt of \$30,000,000, and pays her interest so promptly that her seven per cents are worth 106 and 108, and her nine per cents 111 and 113. She has a system of national banks, a large paper currency, and is about to issue a new loan of \$15,500,000 at six per cent. to be taken from her own people only, no foreigners being allowed to subscribe. Her money is decimal, and her "yen" is equal to our dollar. She has railroads, telegraphs, light houses, custom houses, public schools and a post office, all on the American pattern, and in fact, first set going by standard.

SINCE the new law regulating the offices by the amount of stamps canceled, instead of the amount of stamps diminution has been observed at the Chicago Times. post office department in the number quisitions already received for stamps for the present quarter, there are Mo." many offices where, under the old law, the salary has grown nearly to the back to the old figures of twelve dollars per annum.

COMMISSIONER WILLIAMSON, of the Land Office, in speaking of the decision of Secretary Schurz, said: "I cannot estimate the amount of land that will be thrown open to homestead settlement under the Secretary's decision. There are hundreds of thousands of acres, I am sure. But there is not one acre in forty of the lands which have not already been disposed of by the companies that is worth anything for agricultural purposes. Thousands of acres granted the companies have not even been surveyed. There is a larger area of worthless land now owned by the companies than all the lands we have patented to them since the Union Pacific Road as far as the Black Hills the land grants have been surveyed. From the Black Hills west to the California line very little surveying has been done. The Kansas Pacific land-grants have been surveyed. There is considerable good land for agricultural purposes remaining unsold on the line of the Kansas Pacific. There are also some farming lands in the Union Pacific grants which may be pre-empted. The climate is preferable and the soil better adapted to wheat raising in Kansas than farther north. I believe that the advantages accruing to settlers under the Secretary's decision will be far less important than is generally expected. The area thrown open to pre-emption is large, but the quantity of good land upon it remaining unsold is comparatively small

Long Branch Cor. of the Graphic. A Wicked Story by Hugh Hastings.

Hugh Hastings' latest story is that an old subscriber wrote to him to stop his newspaper on account of his hostility to Governor Tilden. Hugh replied by letter: "My antagonism began in my youth, when from the window of Erastus Corning's store in Albany I saw old Moses Tilden and his son come into town from Lebanon to sell herbs, and that boy Sam was pointed out to me as the chap who sold Job Gould, the herb doctor, grated turnips for horseradish. I nips for horseradish ever since." The subscriber renewed.
