Death of General James Shields.

Ottumwa, Iowa, June 2.-General this city at 101 o'clock last night. He had appeared in his usual health on trict courts, Senator Conkling appear-Sunday, and ate a hearty supper at 6 o'clock, after which he wrote several letters, but just before retiring he complained of a pain in the chest, and shortly afterward said to his niece that he was dying, and in thirty minutes expired, sitting in his chair, remaining unconscious to the last. Twenty-seven Children Poisoned.

Boston, May 29.-An Island Pond, Vt., dispatch states that there have been nine deaths so far of children who drank from a poisoned brook, viz: Edward Morse lost two of his children, John Aldrich three, Fred. Simpson one, L. Wilson one, Mr. Park one, and John Cole one, the others cannot live. Potato tops poisoned by Paris green were also thrown into the brook, causing the belief that the latter is the prime cause more than the carcasses of dead animals. There is terrible distress here. Work is suspended, and there is great excitement. Another dispatch states that twenty-seven children were poisoned by drinking from the brook, and that the farmer who allowed the carcasses to be thrown into it will be arrested. The bodies of the dead children soon decomposed, and had to be buried forthwith.

Island Point, Vt., May 30,-Two more children of John Aldrich died from drinking water from the poisoned brook, making 5-his entire family. Mr. Aldrich is insane.

Geo. P. Rowells & Co'S. SELECT LIST

NEWSPAFERS

Many persons suppose this list to be composed of CHEAP, low-priced newspapers. The fact is quite otherwise. The Catalogue states exactly what the papers are. When the name thence south 68 3-4 degrees west 13 perches 19 links to the place of beginning, containing 8 acres 52 perches.

Another of said lots beginning at the centre of the public road leading up Mosquito creek, the southeast corner of land belonging to Stephen Jackson; thence south 67 degrees west along the line of said Jackson 11 perches 10 links to a post; thence the place when printed in Roman letters it is neither the best nor the only paper, but is usually a very good one, notwithstanding. The list gives the population of every town and the perches 10 links to a post; thence the population of every town and the south 9 degrees west 5 perches 14 links to a post; thence north 60 degrees east NOT A CO-OPERATIVE LIST. IT 13 perches I link to the centre of the aforesaid public road; thence north by the Catalogue for each State the important towns which are not covered by the list are enumerated. IT IS AN HONEST LIST. The rates charged for and privileges vested in the said advertising are barely one-fifth the Mahlon Fisher, now deceased, in a publishers schedule.
