Ridgway Borough.

After many years; after much striving for a simple right its citizens to have our beautiful village incorporated and made a Borough under the act of Assembly made and provided, the end has at last been reached. The Grand Jury on Wednezday morning of this week recommended the petition of the citizen's of Ridgway for a borough. This recommendation will lay over until the November term under a rule of the court, at which time, unless objections of grave importance be made against the recommendation it will then be made absolute. As no remonstrance was presented to the court, and as the people generally who refused to sign the petition, also expressed themselves as unwilling to sign a remonstrance, it is reasonable to suppose that at the proper time Ridgway will be made a regular, true borough. Then at the spring election the necessary borough officers will be elected, and the borough machinery jut in motion. Ridgway Borough that sounds well. Don't it?
