Thieves Break In and Steal. Last Saturday night sneak thieves broke into the residence of G. W. Nichols on Zion's Hill, and took three overcoats, a black dress coat and vest, also a silver watch, chain, and locket containing picture, together with a low crown felt hat, and a lot of miscellaneous articles including money, handkerchiefs, &c. Several suspicious characters were prowling around the streets on Saturday, begging from door to door. It is quite likely that they were the parties who did the sneaking work. Mr. Nichols' family slept up stairs while the articles taken were down stairs. The thieves were in their stockings feet and entered at a back window Charlie Nichols, who is "devil" in THE ADVOCATE office owned one of the overcoats stolen. And it is a mighty low thief that will steal from a printer's devil, the curse of all printers and all devils follow the dastardly sneak-thief.

The passenger depot was entered the same night. An attempt was made to enter the residence of C. H. McCauley, but was frustrated by reason of Mr. McCauley being up with a sick child. An attempt was also made to enter the residence of Mr. A. H. Head, and Rev. S. M. Clark. We are informed that several houses in Wilcox have also lately been visited by sneak-thieves.

Our citizens should be on the alert and meet all attempts to enter their houses by these sneaks with a double charge of buckshot, or the equally satisfactory welcome of a rifle ball. A few thieves, killed in the act would help materially to lesson this species of dirty meanness. Another thing, any tramp, or other suspicious character, coming to our doors, should promptly receive the benefit of the Pennsylvania tramp law. It is a hard matter to refuse a fellow mortal a morsel as he begs at our door, but when the canting hypocrite who begs a crust is likely to be a thief who will repay our kindness by breaking into our houses after night, and only beg food as a means of canvassing the situation in order to steal, the milk of human kindness turns to gall, and maybe many a worthy person turned away whom we might assist.

At the recent term of court, Judge Wetmore confirmed the action of the Grand Jury at the September term in granting the petition of citizens of Ridgway for a Borough incorporation. The place for holding the first Borough election is fixed at the old Prothonotary's office. H. H. Wenzel was appointed by the Court to give the necessary notice of such election. The following election board to hold such election was appointed by the Court: Judge of Election—Henry A. Parsons, Jr. Inspectors of Election—Hugh McGeehin, and Allen W. Jones.

There will be a long list of officers to elect as will be seen by the following list, twenty-nine in number, which we believe is necessary to inaugurate our little municipality. The election will be held at the regular time for holding spring elections, viz: the third Tuesday of February, being the 15th day of the month: Chief Burgess. Six Councilmen. Six School Directors: two for one year; two for two years; two for three years. Two Justices of the Peace. One Road Commissioner. Two Overseers of the poor. Borough Treasurer. Borough Clerk. High Constable. Borough Constable. Judge of Election. Two Inspectors of Election. Three Borough Auditors. Assessor.

This makes a long string of officers to be voted for and gives our citizens a fair chance to attain honor. Any of us are liable to wake up some fine morning to find ourselves elected to one of the many places to be filled. Alas, there is a sad side to the story for as many will wake up to find themselves defeated as will awake to find themselves famous and elected. A residence of two months in the Borough, and a payment of tax within two years is necessary for those who expect to vote at the ensuing election.

WHO R. U.

Horse Diseases.

The new prevailing disease afflicting horses called Cold, Catarrhal Cough or Epizootic is a Catarrhal Cold, affecting the air passages to the lungs, and sometimes affecting the frontal and nasal sinuses of the head and if left without treatment frequently terminates in what is called Glanders, the horse lingers along a few weeks or months and dies.

THE REMEDY. For many years past a brother of mine in Cory, E. Bordwell, has been using a compound which has saved nearly every case that he has treated, especially if taken in the first stages of the disease, and he has treated thousands of cases.

ITS ACTION. In the first place it cuts the membrane in the air passages. Secondly it is loosening. Thirdly it acts as an absorbent. Fourthly it gives an immediate appetite.

In looking up the properties of this compound I find it is good. I have tried it. Others have tried it in this place and have not lost any cases.

I am the sole manufacturer and dealer. The medicine is put up in pound bottles with directions. Those in my acquaintance living near and responsible can take trial bottles and if it does not cure if given in the first stages, need not pay for it. Price per pound \$1.00. By the half dozen or dozen a liberal discount.

All orders should be marked for Bronchial Elixir. J. S. BORDWELL, M. D., Ridgway, Elk Co., Pa.
