ENTERED AT THE POST-OFFICE AT RIDGWAY, PA., AS SECOND CLASS MAIL MATTER.

-San Francisco, January 16 .- A dispatch from Tueson and Deming report that the stage coach running from Mesilla to Fort Cummings was attacked by Indians on Friday evening, about fourteen miles from Fort killed his five-year-old sister. Cummings. The bodies of the driver three men and one woman, passengers were found mutilated and burned. The bodies were removed to Fort Cummings, Troops are in pursuit, The Indians are supposed to have numbered about forty.

-In the palmy days of free and easy land grants large slices from the publie domain were given to companies for building wagon roads in the Far West, under the pretence that such roads were needed for military transportation. Some of these roads are like the one described by Longfellow in his "Hyperion," which began in a broad and smooth causeway, but grew narrower and rougher, and finally ended in a squirrel track and ran up a tree. A highway of this sort exists in Oregon. It has absorbed 861,440 acres of land, but is of small account to the Government or the public. Secretary Schurz has had an investigation made and recommends Congress to take measures for bringing the company to terms. Meanwhile he refuses to issue any more land patents to the concern.-Mc Keau Miner.

-The struggle for the Senatorial prize still continues unabated at Harrisburg. In the vote in each house separately on Tuesday, no one seems to have had an advantage over the action of the caucuses. Yesterday the houses met in joint convention to decide the matter, which will be awaited with interest. From the last view of the situation, a dark horse seems to cast his shadow over the coming event. The regular Republican cancus nominee, Oliver, lacked thirty votes of the number necessary for a choice, which number will need to come from the Grow faction or the ranks of the Democrats. Taking either horn of the dilemma, Mr. Oliver seems to be out, while as Grow lacks a greater number of votes than Oliver, which must come York. from the Oliver men or the Democrats, the conclusion is naturally reached, as we have intimated, that a dark horse must ultimately carry off the prize. Who is the dark horse?

## George Eliot's Romola.

A timely interest is given, by the death of the author, to the new edition of her masterpiece, "Romola," just is-sued by the American Book Exchange, New York. It shows her work at its best and strongest, and at the same time gives the reader the opportunity to acquire a lasting familiarity with the scenes and society of medieval Italy. It is one of the lew really great historical novels of the world. It is issued in handy and beautiful form, extra cloth binding, simple but rare elegance and taste in design, and like the other issues of the "Literary Revolution" its cost is almost nominal. viz.: 35 cents. It is one of a series intended to form a library of classic fietion, which will include one representative and characteristic work of each of the great authors who have won

lasting fame in the realm of fiction. Life is too short and too full of work to permit the reading of  $\alpha ll$  that is beautiful and valuable in these creations of the imagination, but even very busy people can find time to read one book by each of the score of au-thors who have won immortal fame and place in the affections of the peode. Not to be acquainted with them s to be ignorant of much that is most important and most interesting in the history of nations and of men. Not to possess them is to be deprived of to possess them is to be deprived of most fruitful and profitable sources of enjoyment. Among those issued or nearly ready are Scott's "Ivanhoe." Bulwer's "Pompeii," Irving's "Kniek-erbocker, "Cooper's "Mohicans," "Tom Brown at Rugby," "Adventures of Don Quixote" and "Uarda, a Ro unuse of Archieut Farry "Educate mance of Ancient Egypt." Ayer's Hair Vigor, FOR RESTORING GRAY HAIR TO ITS

NATURAL VITALITY AND COLOR.

It is a most agreeable dressing, which is at once harndess and effectual, for preserving the hair. It restores, with the gloss and freshness of youth, faded or gray, light, and red hair, to a rich brown, or deep black, as may be desired. By its use thin hair is thickened, and baldness often though not always cured. It checks falling of the hair immediately, and causes a new growth in all cases where the glands are not decayed; while to brashy, weak, or otherwise diseased hair, it imparts vitality and strength, and renders it pliable.

The Vision cleanses the scalp, cures and

prevents the formation of dandruff; and, by its cooling, stimulating, and soothing properties, it heals most if not all of the humors and diseases peculiar to the scally keeping it cool, clean, and soft, under which conditions diseases of the scalp and hair are impossible.

As a Dressing for Ladies' Hair, The VIGOR is incomparable. It is colorless, contains neither oil nor dye, and will not soil white cambric. It imparts an agreeable and lasting perfume, and as an article for the tollet it is economical and

unsurpassed in its excellence. PREPARED BY
