 6. The names of the subscribers will be

 ture, arts, and sciences.
 It is wholly unnecessary to expatiate on
 the advantage, to American readers, that
 this edition possesses, over every imported
 edition of any system of Geography extant.
 The addition of maps of the several states,
 procured a very great expense, and from
 the best materials that are attainable,
 speaks such full conviction on this subject,
 that it would be disrespectful to the read-
 er's understanding to suppose it requisite
 to enter into a detail of arguments to
 prove its superiority. In no similar work
 have such maps been ever introduced.
 The emendations and additions which
 are made in this work, are innumerable, and
 occur in every page. The public are re-
 ferred to the preface for a slight sketch
 of a few of them.
 The publisher takes the present oppor-
 tunity of returning his most sincere thanks
 to those respectable characters who have
 favored him with documents for improv-
 ing the maps of several of the states. He

I came to the subscri-
 requests a continuance of their kindness;
 and hopes that such public spirited citizens,
 as are possessed of similar documents, will
 favor him with their assistance in perfect-
 ing his undertaking.
 The extraordinary encouragement with
 which he has been favored, has excited in
 his breast the warmest sentiments of gra-
 titude—sentiments which time will not ef-
 face. He pledges himself to the citizens
 of the United States, to spare neither pains
 nor expense to render the present edition
 of Guthrie's Geography improved, deserv-
 ing of their patronage. waff

 tertain the Gentleman, Farmer, Sur-
 veyor, Builder & Mechanic.

 tions of the best writers on Architecture, Arts,
 and Science; together with experiments, and
 accurate notes of observation, by the author;
 being the result of thirty years study and ex-
 perience in his profession.
 It will also contain an alphabetical account
 of the quality and value of the various kinds
 of materials, and numerous species of labor,

 ties of materials and labor necessary to com-
 plete, almost, every part in a building, of
 whatever dimensions.

 terms and phrases, used in ancient and mod-
 ern architecture and building.
 To persons inclined to build, it will afford
 an opportunity of regulating their plans with-
 in the compass of their finances, and prepare
 them to prevent impostures from tricking
 vendors of materials, and extortionate work-
 men—To Mechanics, who cannot, for want
 of experience, calculate the value of their
 respective labour, and materials expended in
 their particular branches of building, this
 work will afford an opportunity to estimate
 with facility and accuracy, any done or in-
 tended to be done, either in the aggregate or
 the minutia.
 It will contain many curious and valuable
 recipes to make fine and coarse varnishes, for
 preserving roofs of houses, barns, palings,
 troughs, pipes, &c. Recipes to make vari-
 ous glues and cements; recipes to make com-
 positions for elegant, or minute ornaments,
 and enrichments for outside or inside com-
 partments; recipes to make composition for
 figures and inscriptions—to endure the
 weather in any aspect; recipes to make flu-
 co compositions, for floors, malt-houses, dis-
 tilleries, hearths, linings for chimneys, &c.
 Tables to ascertain the scantling of different
 species of timber necessary to perform their
 respective functions, in proportion to their
 various suspensions: Tables to ascertain the
 dimensions of the various apertures intro-
 duced in different edifices, and doors, windows,
 chimneys, sky-lights, fair-ways, &c. in pro-
 portion to their different uses and intentions—
 whether for beauty or utility: A concise
 mode to take, and square the dimensions of
 all kinds of artificer's work belonging to
 buildings, and to ascertain the cubical or su-
 perficial contents thereof: Observations of
 the doctrine of echo and sound: A disserta-
 tion on the philosophy, doctrine, and con-
 struction of chimneys, to void or emit the
 smoke. Propositions and recipes to cure
 smoky chimneys: Observations on the instab-
 ility of the edifices heretofore, generally,
 erected in America: Suggestions of modes to
 pursue in buildings here, that will, without
 additional expense, tend more to their dura-
 bility than those heretofore, commonly, con-
 structed: Descriptions and proportions of
 the general and particular members of vari-
 ous orders in Architecture, viz. the Tuscan,
 Doric, Ionic, Corinthian, Composite, Chie-
 nese, Attic, Cariatid, Arabesque, Moreque,
 Grottesque, Saracenic, Ruslic, Antique, Anti-
 quo-Modern, Gothic, and Britanic: Many
 curious historical accounts of various won-
 derful buildings in different parts of the
 world: Many curious and original accounts
 and eulogiums on Free Masonry.

This work will be printed in two octavo
 volumes, each to contain upwards of 400
 pages, on fine paper of elegant letter press:
 The price to subscribers, in boards, FIVE
 DOLLARS; TWO and a HALF DOLLARS to
 be paid on the delivery of the first, and TWO
 and a HALF DOLLARS on the delivery of the
 second volume. Mr. Clark assures the public,
 that he will literally perform all that he hath
 set forth in these proposals.
 Gentlemen inclined to promote this work,
 by subscribing thereto, are requested to write,
 post paid, to Mr. Joseph Clark, at Annapolis,
 authorizing him to annex their names to the
 subscription list.
 The Printers in the United States, are so-
 licited to give these proposals occasionally,
 a place in their papers.

A New Novel.
 For the LADIES of Philadelphia.
 This Day is Published by
MATHEW CAREY,
 118, Market Street,
 Charlotte, a Tale of Truth,
 IN TWO VOLUMES.
 By Mrs. ROWSON, of the New Theatre,
 Philadelphia, Author of Victoria, the In-
 quiritor, the Fille de Chambre, &c.
 Of Charlotte, the Reviewers have
 given the following character.
 IT may be a Tale of Truth, for it is
 not unnatural, and it is a tale of real dis-
 tress. Charlotte, by the artifice of a teach-
 er, recommended to a school, from huma-
 nity rather than a conviction of her integ-
 rity, or the regularity of her former con-
 duct, is enticed from her governess, and ac-
 companies a young officer to America.—
 The marriage ceremony, if not forgotten,
 is postponed, and Charlotte dies a martyr
 to the inconstancy of the over, and treach-
 ery of his friend.—The situations are art-
 less and affecting—the descriptions natu-
 ral and pathetic; we should feel for Char-
 lotte if such a person ever existed, who
 for one error scarcely, perhaps, deserved
 to sever a punishment. If it is a fiction,
 poetic justice is not, we think, prop-
 erly distributed.
 Said Carey has just published,

 lar and two thirds.

 Germany, Spain, Italy, the United Provin-
 ces, the Netherlands, and the West Indies.

GUTHRIE'S GEOGRAPHY
 Improved.
 THE subscription for this work on the
 original terms, of twelve dollars and the
 binding, will be closed this day—and on
 Monday the subscription will open at four-
 teen dollars, exclusive of the price of bind-
 ing.
 The new maps added to this edition are
 twenty one; among which are those of
 New-Hampshire, Massachusetts, Connecti-
 cut, Rhode-Island, Vermont, New York,
 New Jersey, Pennsylvania, Delaware, Mar-
 yland, Virginia, Kentucky, North Caro-
 lina, the Genesee Government, South Car-
 oline, and Georgia. These maps have ne-
 ver been given in any former system of
 Geography, and it is hoped, would alone
 be sufficient to entitle this work to a pre-
 ference to any other edition of Guthrie.
 N. B. The map of the United States,
 which is compiled by Mr. Samuel Lewis,
 from the respective state maps, will be far
 more complete than any one yet published,
 and be printed on two large sheets of
 paper, nearly the size of the late Mr. Mur-
 ray's map.

The Complainant hath filed
 his bill, for the purpose of obtaining a
 decree, to vest in him a complete legal title
 to two tracts of land, lying in Baltimore
 county, one called Painters-Level, con-
 taining 100 acres, the other called Prospect
 containing 25 acres. He states, that the said
 John Wells on the 10th day of March 1774
 contracted to sell the said land to the said
 Mordecai Cole, &c. executed to him a bond for
 conveyance, that the said Cole, on the same
 day, executed to the said Wells a bond for
 the payment of the purchase money amount-
 ing to 675 Pennsylvania currency, that the
 said Cole hath since discharged the whole
 of the purchase money, and hath assigned
 to the complainant the said bond for con-
 veyance; that the said Wells hath never
 executed a deed, agreeably to his contract
 but hath removed out of the state of Mary-
 land, and now resides in the state of Ken-
 tucky.
 It is thereupon, and at the request of the
 complainant, adjudged, and ordered, that
 he procure a copy of this order to be inser-
 ted least six weeks successively, before
 the first day of August next, in the United

 tent, that the said John Wells may have no-

 this court, and may be warned to appear
 here, on or before the first Tuesday in Oc-

 court should not proceed to decree, agree-
 ably to the prayer of the complainant, and
 to the act of assembly, for such cases made
 and provided.

AN ESSAY ON THE
Natural Equality of Men,
 On the Rights that result from it, and on
 the Duties which it imposes.
 To which a MEDAL was adjudged, by
 the Teylerian Society at Haarlem.
 Corrected and Enlarged, by
WILLIAM LAWRENCE BROWN,
 D. D.
 Professor of Moral Philosophy, and the
 Law of Nature, and of Ecclesiastical
 History; and Minister of the English
 Church at Utrecht.
 Aliquid semper ad communem utilitatem
 afferendum. CICERO.
The First American Edition.
 THE grand principle of Equality, if
 rightly understood, is the only basis
 on which universal justice, sacred order,
 and perfect freedom, can be firmly built,
 and permanently secured. The view of
 it exhibited in this essay, at the same time
 that it represses the intolerance of office,
 the tyranny of pride, and the outrages of
 oppression; coarcting, in the most forcible
 manner, the necessity of subordination,
 and the just demands of lawful authority.
 So far indeed, from loosening the bands
 of society, that it maintains inviolate,
 every natural and every civil distinction,
 draws more closely every social tie, unites
 in one harmonious and justly proportioned
 system, and brings men together on the
 even ground of the inherent rights of hu-
 man nature, of reciprocal obligation, and
 of a common relation to the community.

The Public are cautioned to
 beware of counterfeit Five Dollar Bills
 of the Bank of the United States, and
 Twenty Dollar Bills of the Bank of North
 America, several of which have appeared
 in circulation within a few days past; they
 are good general imitation of the genuine
 Bills, but may be distinguished by the fol-
 lowing
MARKS.

Five Dollar Bills of the Bank of the
United States.
 ALL that have appeared have the letter
 F. for their Alphabetical Mark.
 The Texture of the Paper is thicker and
 whiter and it takes the ink more freely
 than the genuine paper.
 The O. in the word Company is smaller
 than the M. and other letters of that word,
 so that a line extended from the top of the
 O, to touch the top of the M. would extend
 considerably above the range of the whole
 word.
 In the word United the letters are nar-
 rower and closer together than the rest of
 the bill.
 The i and f in the word promise are not
 parallel, the f inclining much more forward
 than the i.
 The engraving is badly executed, the
 strokes of all the Letters are stronger and
 the device in the margin particularly is much
 coarser and appears darker than in the true
 bills. Some of the counterfeiters bear date in
 1791—Whereas the Bank was not in opera-
 tion till December, and no five dollar bills
 were issued in that year.
Twenty Dollar Bills of the Bank of North
America.
 ALL that have appeared have the letter
 B. for their alphabetical mark.
 They are printed on a paper nearly simi-
 lar to that of the counterfeit Five Dollar
 Notes above described; the engraving is
 better executed, and they approach nearer
 to the appearance of the genuine bills.
 The fine ruled lines through the word
 Twenty, in the body of the bill, are in num-
 ber thirteen in the genuine bills, and but
 twelve in the counterfeit.
 The word Company is much like the same
 word in the Five Dollar Bills as described
 above, the o being less than the m, and o-
 thers following.
 There is no stroke to the t in the word
 North whereas in the genuine bills the stroke
 is well defined.
 The letters ent in the word Twenty, to
 the left hand at the bottom, do not come
 down to the line, but are so cut as to give
 an irregular appearance to the word, the
 T and the y going below them.
 The signature of W. Nixon, has the appear-
 ance of being written with lamb-black and
 oil, and differs from other inks used in
 printing the bills and the cashier's signa-
 ture.
 It is supposed these forgeries were com-
 mitted in some of the Southern States; as all
 the counterfeiters that have appeared, have
 come from thence, and two persons have been ap-
 prehended in Virginia, on suspicion of being
 the author of them.
 The reward of ONE THOUSAND DOL-
 LARS will be paid to any Person or Persons
 who shall discover and prosecute to convic-
 tion the several offenders of the following
 descriptions or any of them, viz.
 The person or persons, who manufac-
 tured the paper on which the Bills are printed.
 The person or persons, who engraved the
 plates.
 The printer or printers, of the bills.
 Every person who has acted as a principal
 in any other way, in the counterfeiting and
 uttering the said bills.
 Philadelphia, March 28, 1794
 April 22, 1794.

Other counterfeit bills
 of the Bank of the United States have ap-
 peared in circulation.
 The denomination is of TWENTY
 DOLLARS, and the alphabetical mark is
 the letter B.
 They may be distinguished from the ge-
 nuine by the following MARKS:
 The paper of the counterfeit is of a
 more tender texture and glossier surface
 than the genuine, and there is no water
 mark in them.
 The letter C. in the word Cashier, in
 the true bills is strongly marked, whereas
 in the counterfeit, the whole letter is a
 fine hair stroke, evidently in an unfinished
 state. The letter a in the word demand,
 is badly formed and the whole word ill done
 and there is no comma at the end of it, as
 there is in the genuine bills.
 The marginal device, is much darker
 in the false, than in the genuine bills owing
 to the shade strokes being coarser, much
 nearer together, and consequently much
 more numerous. This difference strikes the
 eye at first view.
 The same reward of ONE THOUSAND
 DOLLARS, will be paid for apprehending,
 & prosecuting to conviction the several
 above described offenders in respect to this,
 as to the last described bills.
THOMAS WILLING, President
 of the Bank of the United States.
JOHN NIXON, President of the
 Bank of North America.
 By order of the Committees of the Re-
 spective Boards.

An Essay on Slavery,
 Designed to exhibit in a new point of
 view its effects on morals, industry, and the
 peace of society. Some facts and calculations
 are offered to prove the labor of freemen to be
 much more productive than that of slaves;
 that countries are rich, powerful, and happy,

 the fruits of their own labor; and hence
 the necessary conclusion, that slavery is in poli-
