It is wholly unnecessary to expatiate on
the advantage to American readers, that
this edition possesses, over every imported
edition of any system of Geography extant.
The addition of maps of the several states,
procured a very great expense, and from
the best materials that are attainable,
speaks such full conviction on this subject,
that it would be disrespectful to the read-
er's understanding to suppose it requisite
to enter into a detail of arguments to
prove its superiority. In no similar work
have such maps been ever introduced.

The emendations and additions which
are made in this work, are innumerable,
and occur in every page. The public are
referred to the preface for a slight sketch
of a few of them.

The publisher takes the present oppor-
tunity of returning his most sincere thanks
to those respectable characters who have
favored him with documents for improv-
ing the maps of several of the states. He

requests a continuance of their kindness;
and hopes that such public spirited citizens,
as are possessed of similar documents, will
favor him with their assistance in perfect-
ing his undertaking.

The extraordinary encouragement with
which he has been favored, has excited in
his breast the warmest sentiments of gra-
titude—sentiments which time will not ef-
face. He pledges himself to the citizens
of the United States, to spare neither pains
nor expense to render the present edition
of Guthrie's Geography improved, deserv-
ing of their patronage.

Joseph Clark,
ARCHITECT AT ANNAPOLIS,
Proposes to publish, by subscription,
POLYMATHY;

OR
The American Builder.
A Work calculated equally to edify and en-
tertain the Gentleman, Farmer, Sur-
veyor, Builder & Mechanic.

THIS work will contain various unions
of the best writers on Architecture, Arts,
and Science; together with experiments, and
accurate notes of observation, by the author;
being the result of thirty years study and ex-
perience in his profession.

It will also contain an alphabetical account
of the quality and value of the various kinds
of materials, and numerous species of labor,
expended on building.

Exemplifications, to ascertain the quanti-
ties of materials and labor necessary to com-
plete, almost, every part in a building, of
whatever dimensions.

An account and explanation of all the
terms and phrases, used in ancient and modern
architecture and building.

To persons inclined to build, it will afford
an opportunity of regulating their plans with-
in the compass of their finances, and prepare
them to prevent impositions from tricking
venders of materials, and extortionate work-
men—To Mechanics, who cannot, for want
of experience, calculate the value of their
respective labour, and materials expended in
their particular branches of building, this
work will afford an opportunity to estimate
with facility and accuracy, any done or im-
tended to be done, either in the aggregate or
the minutiae.

It will contain many curious and valuable
recipes to make fine and coarse varnishes, for
preserving roofs of houses, barns, palings,
troughs, pipes, &c. Recipes to make vari-
ous glues and cements; recipes to make com-
positions for elegant, or minute ornaments,
and enrichments for outside or inside com-
partments: recipes to make composition for
figures and inscriptions—to endure the
weather in any aspect; recipes to make flu-
co compositions, for floors, mall-houses, dis-
tilleries, hearths, linings for chimneys, &c.
Tables to ascertain the quantity of different
species of timber necessary to perform their
respective functions, in proportion to their
various suspensions: Tables to ascertain the
dimensions of the various openings intro-
duced in different edifices, and doors, windows,
chimneys, sky-lights, stair-cases, &c. in pro-
portion to their different uses and intentions—
whether for beauty or utility: A concise
mode to take, and square the dimensions of
all kinds of artificer's work belonging to
buildings, and to ascertain the cubical or super-
ficial contents thereof: Observations on
the doctrine of echo and sound: A disserta-
tion on the philosophy, doctrine, and con-
struction of chimneys, to void or emit the
smoke. Propositions and recipes to cure
smoky chimneys: Observations on the instab-
ility of the edifices heretofore, generally,
erected in America: Suggestions of modes to
pursue in buildings here, that will, without
additional expense, tend more to their dura-
bility than those heretofore, commonly, con-
structed: Descriptions and proportions of
the general and particular members of vari-
ous orders in Architecture, viz. the Tuscan,
Doric, Ionic, Corinthian, Composite, Chie-
nese, Attic, Cargatic, Arabesque, Moresque,
Grottesque, Sarcenic, Rustic, Antique, Anti-
quo-Modern, Gothic, and Britannic: Many
curious historical accounts of various won-
derful buildings in different parts of the
world: Many curious and original accounts
and eulogiums on Free Masonry.

This work will be printed in two octavo
volumes, each to contain upwards of 400
pages, on fine paper of elegant letter press:
The price to subscribers, in boards, FIVE
DOLLARS; TWO and a HALF DOLLARS to
be paid on the delivery of the first, and TWO
and a HALF DOLLARS on the delivery of the
second volume. Mr. Clark assures the public,
that he will literally perform all that he hath
set forth in these proposals.

Gentlemen inclined to promote this work,
by subscribing thereto, are requested to write,
post paid, to Mr. Joseph Clark, at Annapolis,
authorizing him to annex their names to the
subscription list.

The Printers in the United States, are so-
licitated to give these proposals occasionally,
a place in their papers.

A New Novel.

To the **LADIES** of Philadelphia.
This Day is Published by
MATHEW CAREY,
118, Market Street,
Charlotte, a tale of Truth,

IN TWO VOLUMES.
By Mrs. **ROWSON,** of the New Theatre,
Philadelphia, Author of Victoria, the In-
quisitor, the Fille de Chambre, &c.
Of Charlotte, the Reviewers have
given the following character.

IT may be a Tale of Truth, for it is
not unnatural, and it is a tale of real dis-
tress. Charlotte, by the artifice of a teach-
er, recommended to a school, from huma-
nity rather than a conviction of her integ-
rity, or the regularity of her former con-
duct, is enticed from her governess, and ac-
companies a young officer to America—
The marriage ceremony, if not forgotten,
is postponed, and Charlotte dies a martyr
to the inconstancy of the over, and treach-
ery of his friend.—The situations are art-
less and affecting—the descriptions natu-
ral and pathetic; we should feel for Char-
lotte if such a person ever existed, who
for one error scarcely, perhaps, deserved
to sever a punishment. If it is a fiction,
poetic justice is not, we think, prop-
erly distributed.

Said Carey has just published,

GUTHRIE'S GEOGRAPHY

Improved.

THE subscription for this work on the
original terms, of twelve dollars and the
binding, will be closed this day—and on
Monday the subscription will open at four-
teen dollars, exclusive of the price of bind-
ing.

The new maps added to this edition are
twenty one; among which are those of
New-Hampshire, Massachusetts, Connecti-
cut, Rhode-Island, Vermont, New York,
New Jersey, Pennsylvania, Delaware, Mar-
yland, Virginia, Kentucky, North Caro-
lina, the Genesee Government, South Car-
olina, and Georgia. These maps have never
been given in any former system of
Geography, and it is hoped, would alone
be sufficient to entitle this work to a pre-
ference to any other edition of Guthrie.

N. B. The map of the United States,
which is compiling by Mr. Samuel Lewis,
from the respective state maps, will be far
more complete than any one yet published,
and be printed on two large sheets of
paper, nearly the size of the late Mr. Mur-
ray's map.

The Complainant hath filed
his bill, for the purpose of obtaining a
decree, to vest in him a complete legal title
to two tracts of land, lying in Baltimore
county, one called Painters Level, con-
taining 100 acres, the other called Prospect
containing 50 acres. He states, that the said
John Wells on the 10th day of March 1774
contracted to sell the said land to the said
Mordecai Cole, &c. executed to him a bond for
conveyance, that the said Cole, on the same
day, executed to the said Wells a bond for
the payment of the purchase money amount-
ing to £675 Pennsylvania currency, that
the said Cole hath since discharged the whole
of the purchase money, and hath assigned
to the complainant the said bond for con-
veyance; that the said Wells hath never
executed a deed, agreeably to his contract
but hath removed out of the state of Mary-
land, and now resides in the state of Ken-
tucky.

It is thereupon, and at the request of the
complainant, adjudged, and ordered, that
he procure a copy of this order to be inser-
ted at least six weeks successively, before
the first day of August next, in the United
States Gazette at Philadelphia, to the in-
tent, that the said John Wells may have
notice of the complainant's application to
this court, and may be warned to appear
here, on or before the first Tuesday in Oc-
tober next, to shew cause wherefore this
court should not proceed to decree, agree-
ably to the prayer of the complainant, and
to the ad of assembly, for such cases made
and provided.

Aliquid semper ad communem utilitatem

Cicero.

The First American Edition.

THE grand principle of Equality, if
rightly understood, is the only basis
on which universal justice, sacred order,
and perfect freedom, can be firmly built,
and permanently secured. The view of
it exhibited in this essay, at the same time
that it represents the intolerance of office,
the tyranny of pride, in the most forcible
manner, the necessity of subordination,
and the just demands of lawful authority.
So far indeed, from loosening the bands
of society, that it maintains inviolate,
every natural and every civil distinction,
draws more closely every social tie, unites
in one harmonious and justly proportioned
system, and brings men together on the
even ground of the inherent rights of hu-
man nature, of reciprocal obligation, and
of a common relation to the community.

The Public are cautioned to
beware of counterfeited Five Dollar Bills
of the Bank of the United States, and
Twenty Dollar Bills of the Bank of North
America, several of which have appeared
in circulation within a few days past; they
are good general imitation of the genuine
Bills, but may be distinguished by the fol-
lowing

MARKS.
Five Dollar Bills of the Bank of the
United States.

ALL that have appeared have the letter
F. for their Alphabetical Mark.

The Texture of the Paper is thicker and
whiter and it takes the ink more freely
than the genuine paper.

The O. in the word Company is smaller
than the M. and other letters of that word,
so that a line extended from the top of the
O, to touch the top of the M. would extend
considerably above the range of the whole
word.

In the word United the letters are nar-
rower and closer together than the rest of
the bill.

The i and j in the word promise are not
parallel, the j inclining much more forward
than the i.

The engraving is badly executed, the
strokes of all the Letters are stronger and
the device in the margin particularly is much
coarser and appears darker than in the true
bill. Some of the counterfeiters bear date in
1791—Whereas the Bank was not in opera-
tion till December, and no five dollar bills
were issued in that year.

**Twenty Dollar Bills of the Bank of North
America.**

ALL that have appeared have the letter
B. for their alphabetical mark.

They are printed on a paper nearly simi-
lar to that of the counterfeit Five Dollar
Notes above described; the engraving is
better executed, and they approach nearer
to the appearance of the genuine bills.

The fine ruled lines through the word
Twenty, in the body of the bill, are in num-
ber thirteen in the genuine bills, and but
twelve in the counterfeit.

The word Company is much like the same
word in the Five Dollar Bills as described
above, the e being less than the m, and o-
thers following.

There is no stroke to the i in the word
North whereas in the genuine bills, the stroke
is well defined.

The letters ent in the word Twenty, to
the left hand at the bottom, do not come
down to the line, but are so cut as to give
an irregular appearance to the word, the
T and the y going below them.

The signature J. Nixon, has the appear-
ance of being written with lamb-black and
oil, and differs from other inks used in
printing the bills and the cashier's signa-
ture.

It is supposed these forgeries were com-
mitted in some of the Southern States, as all
the counterfeiters that have appeared, have come
from thence, and two persons have been ap-
prehended in Virginia, on suspicion of being
the authors of them.

The reward of **ONE THOUSAND DOL-
LARS** will be paid to any Person or Persons
who shall discover and prosecute to convic-
tion the several offenders of the following
descriptions or any of them, viz.

The person or persons, who manufac-
tured the paper on which the Bills are printed.

The person or persons, who engraved the
plates.

The printer or printers, of the bills.

Every person who has acted as a principal
in any other way, in the counterfeiting and
uttering the said bills.

Philadelphia, March 28, 1794
April 22, 1794.

Other counterfeit bills
of the Bank of the United States have ap-
peared in circulation.

The denomination is of **TWENTY
DOLLARS,** and the alphabetical mark is
the letter B.

They may be distinguished from the ge-
nuine by the following **MARKS:**

The paper of the counterfeit is of a
more tender texture and glossier surface
than the genuine, and there is no water
mark in them.

The letter C. in the word Cashier, in
the true bills is strongly marked, whereas
in the counterfeit, the whole letter is a
fine hair stroke, evidently in an unfinished
state. The letter a in the word demand,
is badly formed and the whole word ill done
and there is no comma at the end of it, as
there is in the genuine bills.

The marginal device, is much darker
in the false, than in the genuine bills ow-
ing to the shade strokes being coarser, much
nearer together, and consequently much
more numerous. This difference strikes the
eye at first view.

The same reward of **ONE THOUSAND
DOLLARS,** will be paid for apprehending,
& prosecuting to conviction the several
above described offenders in respect to this,
as to the last described bills.

THOMAS WILLING, President
of the Bank United States.

JOHN NIXON, President of the
Bank of North America.

By order of the Committees of the Res-
pective Boards.

An Essay on Slavery,

Designed to exhibit in a new point of
view its effects on morals, industry, and the
peace of society. Some facts and calculations
are offered to prove the labor of freedom to be
much more productive than that of slaves;
that countries are rich, powerful, and happy,
in proportion as the laboring people enjoy
the fruits of their own labor; and hence
the necessary conclusion, that slavery is impo-
sible as well as unjust.
