Lachawannock.

A LARGE body of LAND on this river and its waters, is now for sale to Settlers on easy, or moderate terms, and at a long credit. The soil is remarkably fertile, and numerous streams of water are interspersed throughout the whole country. The main river flows through one tract of about thirty thousand acres, and is with the exception of one obstruction, navigable to the Suquehannah. Spring Brook Creek, which with its branches, waters another tract of about forty thousand acres of good Land, empties itself into the Lachawannock, about twelve miles from the Suquehannah. It affords numerous Mill seats, & in its course creates large bodies of well watered meadow ground. The other tracts are intersected by creeks of considerable importance. Several Mills are already erected for the accommodation of the settlers. Roads are cut in different directions, towards the most convenient markets. The county town is not more than 12 miles distant from many parts of the settlement. The Suquehannah affords an easy and safe navigation to Middleton, from whence the Canal to Schuylkill extends the communication to the city. Another means of connection with Philadelphia, is by the Delaware, from which the distance in several places is about thirty miles. The proprietors combining their own interest with that of the inhabitants, are disposed to erect works of public utility, open roads, &c. and in every one miles square, a tract of one hundred acres is allotted for a School, and one hundred acres for the first resident clergyman of any denomination of Christians.

French Revolution.

JUST PUBLISHED.

(Price two Dollars.)
By **MATHEW CAREY,**
No. 118, Market street,
AN IMPARTIAL HISTORY OF THE FRENCH REVOLUTION;
From its Commencement to the execution of the QUEEN and the DEPUTIES of the Gironde Party

Extra'd from the Preface

"The authors have presumed to affix to their title, the epithet impartial; and the reason is, because they cannot charge themselves with feeling the smallest bias to any party but to that of truth and liberty; and they flatter themselves, that their readers will find not only every circumstance fairly stated, but every censurable action, whoever were the authors or actors, marked in its proper colours. If it was necessary to make a declaration of their own principles, they would say, they are neither Tory nor republican—they love liberty as English whigs, and execrate every criminal act by which so noble a cause is endangered and disgraced.

"In the present ferment of the public mind, they cannot flatter themselves with the hope of seeing this claim universally acknowledged. On the contrary, they are well assured that these pages will not be acceptable to the zealots of either party. But when time shall have dissipated the clouds of political deception, and appeared the tumult of the passions, they will with some confidence expect to veridical from public opinion, which and our moderation shall not fail to receive."

Extra'd from the Critical Review, June 1794
12 Page.

"We have certainly derived much pleasure, and acquired much information from the perusal of these volumes; and we think them, both for matter and style, worthy the attention of all who interest themselves in Events which have so justly excited the curiosity and astonishment of mankind."

M. CAREY will in about three weeks Publish, Plowden's history of the British Empire from May 1793, to December 1793.

Christiana Mills

For Sale.

ON Monday the first day of September next at 8 o'clock in the evening, at the Coffee House in the city of Philadelphia will be sold by public vendue, two tracts or pieces of land situated in White Clay Creek hundred, New Castle county and state of Delaware; one of which contains about sixty acres of highly improved land, on it are a large two story brick dwelling house, a convenient brick barn, with stabling and carriage house underneath, an excellent mill for drying corn; and the well known mills called Christiana Mills (late Patterson's) which being at the head of the tide on Christiana river, and but about half a mile from the landing, is conveniently situated for carrying the articles manufactured at the mills by water to Philadelphia. This property being close to the road leading from Elkton to Christiana bridge, and at the head of the tide, with many other attendant advantages, render its situation for the milling business so very valuable, as to be equalled by few and excelled by none.

The latter tract containing 175 acres, is about one mile from the mills and is chiefly woodland, which being contiguous to water carriage to the city of Philadelphia, must be of increasing value, especially as there is a quantity of large timber in said tract suitable for the purposes of the mills.

The terms upon which the above mentioned estates will be sold are—one thousand pounds to be paid on executing the deeds, and seven hundred and fifty pounds per annum, with interest for the remainder, or proportionally for each part.

Indisputable titles will be made for the property, by
JOHN NIXON,
ALEX. FOSTER,
GEO. LATIMER.
