**GUTHRIE'S GEOGRAPHY**  
 Improved.  
 THE subscription for this work on the original terms, of twelve dollars and the binding, will be closed this day—and on Monday the subscription will open at fourteen dollars, exclusive of the price of binding.  
 The new maps added to this edition are twenty one; among which are those of New-Hampshire, Massachusetts, Connecticut, Rhode-Island, Vermont, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, Kentucky, North Carolina, the Genessee Government, South Carolina, and Georgia. These maps have never been given in any former system of Geography, and, it is hoped, would alone be sufficient to entitle this work to a preference to any other edition of Guthrie.  
 N. B. The map of the United States, which is compiling by Mr. Samuel Lewis, from the respective state maps, will be far more complete than any one yet published, and be printed on two large sheets of paper, nearly the size of the late Mr. Murray's map.

 I. O another part of this tract it is supposed there is a quarry of slate, convenient to water-carriage. Upwards of two thirds are in woods. Mr. Enoch S. Lane, living on the premises, will shew this tract.

Another tract, in Fairfax county, called Springfield, containing 2040 1-2 acres, a about 13 miles from Alexandria and 10 from Washington; abounds with fine springs and meadow ground, and may be seen by applying to Mr. John Wood, living on part of it.

My only object being to raise a certain sum of money, by selling so many or such parts of the aforesaid tracts of land and lots as shall be necessary for that purpose, one half of the purchase money must be paid at the time of contract, and the other within a year from the first day of August next, and at the time of delivering possession or executing a legal conveyance. The lands remaining unsold, except the tract in Prince William, after raising a limited sum, will be divided into tenements, and leased for a term of years. From the 12th day of October next, till the 15th of December, I shall be in the city of Richmond, and after that time I shall remain at home, in Alexandria, at which places, or elsewhere, shall be prepared to detail particulars, and to enter into contracts.

 of the law for establishing a Health-Office, &c. passed the last session of the Legislature, is re-published for the information of all concerned.

**The Public are cautioned to**  
 beware of counterfeited Five Dollar Bills of the Bank of the United States, and Twenty Dollar Bills of the Bank of North America, several of which have appeared in circulation within a few days past; they are good general imitations of the genuine Bills, but may be distinguished by the following

**MARKS.**  
 Five Dollar Bills of the Bank of the United States.  
 ALL that have appeared have the letter F. for their Alphabetical Mark.  
 The Texture of the Paper is thicker and whiter and it takes the ink more freely than the genuine paper.  
 The O. in the word Company is smaller than the M. and other letters of that word, so that a line extended from the top of the O, to touch the top of the M. would extend considerably above the range of the whole word.  
 In the word United the letters are narrower and closer together than the rest of the bill.  
 The i and f in the word promise are not parallel, the f inclining much more forward than the i.  
 The engraving is badly executed, the strokes of all the Letters are stronger and the device in the margin particularly is much coarser and appears darker than in the true bills. Some of the counterfeits bear date in 1791—Whereas the Bank was not in operation till December, and no five dollar bills were issued in that year.  
 Twenty Dollar Bills of the Bank of North America.

ALL that have appeared have the letter B. for their alphabetical mark.  
 They are printed on a paper nearly similar to that of the counterfeit Five Dollar Notes above described; the engraving is better executed, and they approach nearer to the appearance of the genuine bills.  
 The fine ruled lines through the word Twenty, in the body of the bill, are in number thirteen in the genuine bills, and but twelve in the counterfeits.  
 The word Company is much like the same word in the Five Dollar Bills as described above, the o being less than the m, and others following.

There is no stroke to the t in the word North whereas in the genuine bills the stroke is well defined.  
 The letters ent in the word Twenty, to the left hand at the bottom, do not come down to the line, but are so cut as to give an irregular appearance to the word, the Tw and the y going below them.  
 The signature J. Nixon, has the appearance of being written with lamb-black and oil, and differs from other inks used in printing t h bills and the cashier's signature.  
 It is supposed these forgeries were committed in some of the Southern States, as all the counterfeits that have appeared, have come from thence; and two persons have been apprehended in Virginia, on suspicion of being the author of them.

The reward of ONE THOUSAND DOLLARS will be paid to any Person or Persons who shall discover and prosecute to conviction the several offenders of the following descriptions or any of them, viz.  
 The person or persons, who manufactured the paper on which the Bills are printed.  
 The person or persons, who engraved the plates.  
 The printer or printers, of the bills.  
 Every person who has acted as a principal in any other way, in the counterfeiting and uttering the said bills.  
 Philadelphia, March 28, 1794

**Other counterfeit bills**  
 of the Bank of the United States have appeared in circulation.  
 The denomination is of TWENTY DOLLARS, and the alphabetical mark is the letter B.  
 They may be distinguished from the genuine by the following MARKS:  
 The paper of the counterfeits is of a more tender texture and glossier surface than the genuine, and there is no water mark in them.  
 The letter C. in the word Cashier, in the true bills is strongly marked, whereas in the counterfeits, the whole letter is a fine hair stroke, evidently in an unfinished state. The letter a in the word demand, is badly formed and the whole word ill done and there is no comma at the end of it, as there is in the genuine bills.  
 The marginal device, is much darker in the false, than in the genuine bills owing to the shade strokes being coarser, much nearer together, and consequently much more numerous. This difference strikes the eye at first view.  
 The same reward of ONE THOUSAND DOLLARS, will be paid for apprehending, & prosecuting to conviction the several above described offenders in respect to this, as to the last described bills.  
 THOMAS WILLING, President of the Bank United States.  
 JOHN NIXON, President of the Bank of North America.  
 By order of the Committees of the Respective Boards.
