### Lachawannock.

A LARGE body of LAND on this river and its waters, is now for sale to Settlers on, on moderate terms, and at a long credit.

The soil is remarkably fertile, and numerous streams of water are interspersed through the whole country.

The main river flows through one tract of about thirty thousand acres, and is with the exception of one obstruction, navigable to the Susquehanna.

Spring Brook Creek, which with its branches, waters another tract of about forty thousand acres of good Land, empties itself into the Lachawannock, about twelve miles from the Susquehanna.

It affords numerous Mill seats, & in its course creates large bodies of well watered meadow ground.

The other tracts are intersected by creeks of considerable importance.

Several Mills are already erected for the accommodation of the settlers.

Roads are cut in different directions, towards the most convenient markets.

The county town is not more than 12 miles distant from many parts of the settlement.

The Susquehanna affords an easy and safe navigation to Middletown, from whence the Canal to Schuylkill extends the communication to the city.

Another means of connection with Philadelphia, is by the Delaware, from which the distance in several places is about thirty miles.

The proprietors combining their own interest with that of the inhabitants, are disposed to erect works of public utility, open roads, &c. and in every an miles square, a tract of one hundred acres is allotted for a School, and one hundred acres for the first resident clergyman of any denomination of Christians.

For further particulars apply to

George Eddy,  
Wilkes-Barre, Luzerne County,  
Pennsylvania, July 9.

Letters directed to George Eddy, at Philadelphia, or this place, or to Thomas Eddy, at New York, relative to this business, will be duly answered.

### C. W. PEALE.

EVER solicitous to render his MUSEUM still more and more an object of rational entertainment, and subservient to the interests of useful science, has on the suggestion and with the advice of a number of his friends, provided a Book, which will be always open for the inspection of those who visit his Museum, in which book it is proposed to insert all such discoveries, inventions, improvements, scheme, observations, experiments, projects, hints or queries relating to the arts or sciences, as any of his visitors, or correspondents, may from time to time communicate.

Such as may chuse to conceal their names may either send their communications anonymous, or at their desire, C. W. Peale will insert their names, with the number or signature of their respective communications in a private book which he will keep for that purpose.

The advantages of such a public register are obvious. It will rescue from oblivion many useful hints, which might otherwise have died with their authors. It may secure to inventors their just claims, and prevent others from taking the honor or profit of a discovery to which they are not entitled, and as the Museum is now visited by persons from almost all parts of the world, (see a register, it is presumed, will soon contain and be the means of disseminating a vast fund of useful knowledge, and promote that spirit of enquiry and invention, for which the people of the United States are already so justly distinguished.

### Christiana Mills

For Sale.

ON Monday the first day of September next at 8 o'clock in the evening, at the Coffee House in the city of Philadelphia will be sold by public vendue, two tract or pieces of land situated in White Clay Creek hundred, New Castle county and state of Delaware; one of which contains about sixty acres of highly improved land, on it are a large two story brick dwelling house, a convenient brick barn, with flabing and a carriage house underneath, an excellent mill for drying corn; and the well known mills called Christiana Mills (late Patterson's) which being at the head of the tide on Christiana river, and but about half a mile from the landing, is conveniently situated for carrying the articles manufactured at the mills by water to Philadelphia.—This property being close to the road leading from Elkton to Christiana bridge, and at the head of the tide, with many other attendant advantages, renders its situation for the milling business to very valuable, as to be equalled by few and excelled by none.

The latter tract containing 175 acres, is about one mile from the mills and is chiefly woodland, which being contiguous to water carriage to the city of Philadelphia, must be of increasing value, especially as there is a quantity of large timber in said tract suitable for the purposes of the mills.

The terms upon which the above mentioned estates will be sold are—one thousand pounds to be paid on executing the deeds, and seven hundred and fifty pounds per annum, with interest for the remainder or proportionably for each part.

Indisputable titles will be made for the property, by

### JUST PUBLISHED,

And for sale at  
Mathew Carey's Store,  
No. 118, Market Street.

Price half a dollar, embellished with a striking likeness of Mr. Margot,  
The TRIAL

OF  
Maurice Margot,

Before the High Court of Judiciary at Edinburgh, on an indictment for SEDITIOUS PRACTICES.

OF the many remarkable trials which the present extraordinary system of criminal jurisprudence in G. Britain and Ireland has brought before the public eye; this, certainly is most entitled to universal perusal and attention. It develops, more fully than any publication extant, the latest views and objects of the British constitution; and proves incontrovertibly, that judicial prosecutions (or persecutions) and decisions are now more the result of the present order of things, than any old fashioned attachment to the laws or the constitution. Add to this, that it holds up to the wonder and admiration of mankind, the firm, manly, and patriotic conduct of this devoted victim—this 'Second Sydney,' as he has justly and deservedly been called, who in the course of one of the longest trials we know of, unassisted even by a single member of the long robe, evinced such a depth of legal and constitutional knowledge and, in a speech of four hours length, displayed such a blaze of eloquence and first rate abilities, as astonished the court—and, strange to relate! even drew involuntary applause from the venal and time-serving creature of a corrupt government."
