**Lachawannock.**  
A LARGE body of LAND on this river and its waters, is now for sale to Settlers only, on moderate terms, and at a long credit. The soil is remarkably fertile, and numerous streams of water are interspersed through the whole country. The main river flows through one tract of about thirty thousand acres, and is with the exception of one obstruction, navigable to the Susquehanna. Spring Brook Creek, which with its branches, waters another tract of about forty thousand acres of good Land, empties itself into the Lachawannock, about twelve miles from the Susquehanna. It affords numerous Mill seats, & in its course creates large bodies of well watered meadow ground. The other tracts are intersected by creeks of considerable importance. Several Mills are already erected for the accommodation of the Settlers. Roads are cut in different directions, towards the most convenient markets. The county town is not more than 12 miles distant from many parts of the settlement. The Susquehanna affords an easy and safe navigation to Middleton, from whence the Canal to Schuylkill extends the communication to the city. Another means of connection with Philadelphia, is by the Delaware, from which the distance in several places is about thirty miles. The proprietors combining their own interest with that of the inhabitants, are disposed to erect works of public utility, open roads, &c. and in every en miles square, a tract of one hundred acres is allotted for a School, and one hundred acres for the first resident clergyman of any denomination of Christians. For further particulars apply to

50,000 Tickets at 8 dollars 400,000

This Lottery will afford an elegant specimen of the private buildings to be erected in the City of Washington—Two beautiful designs are already selected for the entire fronts on two of the public squares; from these drawings, it is proposed to erect two centre and four corner buildings, as soon as possible after this Lottery is sold, and to convey them, when complete, to the fortunate adventurers, in the manner described in the scheme for the Hotel Lottery. A net deduction of five per cent. will be made to defray the necessary expenses of printing, &c. and the surplus will be made a part of the fund intended for the National University, to be erected within the City of Washington. The drawing will commence as soon as the Tickets are sold, or at all events on Monday, the 22nd of December next: The money prizes will be payable in thirty days, after it is finished, and any prizes for which fortunate numbers are not produced within twelve months after the drawing is closed are to be considered as given towards the fund for the University, it being determined to settle the whole business in a year from the ending of the drawing and to take up the bonds given as security. The real securities given for the payment of the Prizes, are held by the President and two Directors of the Bank of Columbia, and are valued at more than half the amount of the Lottery. The drawing will be under the management of 24 gentlemen approved by the commissioners for the City of Washington, for the time being, and acting on oath. Tickets may be had at the Bank of Columbia; of James West & Co. Baltimore; of Gideon Denison, Savannah; of Peter Gilman, Boston; of John Hopkins, Richmond; and of Richard Wells, Cooper's ferry. **C. W. PEALE.**  
EVER solicitous to render his MUSEUM still more and more an object of rational entertainment, and subservient to the interests of useful science, has on the suggestion and with the advice of a number of his friends, provided a Book, which will be always open for the inspection of those who visit his Museum, in which book it is proposed to insert all such discoveries, inventions, improvements, schemes, observations, experiments, projects, hints or queries relating to the arts or sciences, as any of his visitors, or correspondents, may from time to time communicate. Such as may chuse to conceal their names may either send their communications anonymous, or at their desire, C. W. Peale will insert their names, with the number or signature of their respective communications in a private book which he will keep for that purpose. The advantages of such a public register are obvious. It will rescue from oblivion many useful hints, which might otherwise have died with their authors. It may secure to inventors their just claims, and prevent others from taking the honor or profit of a discovery to which they are not entitled, and as the Museum is now visited by persons from almost all parts of the world, such a register, it is presumed, will soon contain and be the means of disseminating a vast fund of useful knowledge, and promote that spirit of enquiry and invention, for which the people of the United States are already so justly distinguished. **FROM** realm to realm, with crofs or crescent crown'd,  
Where'er mankind and misery are found,  
O'er burning sands, deep waves, or wilds of snow,  
Great HOWARD journeying seeks the house of woe.  
Down many a winding step to dungeons dank,  
Where anguish awaits aloud, and fetters clank;  
To caves be brew'd with many a mould'ring bone,  
And cells, whose echoes only learn to groan;  
—Onward he moves!—Disease and death retire,  
And murr'ring demons bate him, and admire.

Detested be the pen whose baneful influence  
Could to the youthful docile mind convey  
Pernicious precepts, tell loose tales,  
And point illicit passion in such colours,  
As might mislead the unsuspecting heart,  
And vitiate the young, unsettled judgment.  
I would not for the riches of the East  
Abuse the noblest gifts of Heaven thus,  
Or sink my Genius to such prostitution.

TAKEN FROM ACTUAL SURVEY.  
IT is with pleasure that the publisher has to inform his subscribers and the public in general, that the plate is now under the hands of the engraver, and in greater forwardness than was at first contemplated. At the same time he begs leave to remind them, that subscription papers are still open at most of the noted book-stores in the city; and that he hopes from the whole of them to be enabled to form such a respectable catalogue of names, as will do a credit to the work, as well as afford a reasonable encouragement to the undertaker. Those who are desirous of further information are requested to call on
