Should any rations be required at any place,  
or within other districts, not specified in  
these proposals, the price of the same is to be  
hereafter agreed on between the United States  
and the contractor.

The rations to be supplied are to consist of  
the following articles, viz.

One pound of bread or flour,  
One pound of beef,  $\frac{3}{4}$  of a pound of pork,  
One quart of salt,  
Two quarts of vinegar, } per 100 rations.  
Two pounds of soap,  
One pound of candles,

The rations are to be furnished in such  
quantities, as that there shall at all times,  
during the said term, be sufficient for the  
consumption of the troops at each of the  
said posts, for the term of at least three  
months in advance, in good and wholesome  
provisions, if the same shall be required.

It is to be understood in each case, that all  
losses sustained by the deprivations of  
the enemy, or by means of the troops of the  
United States, shall be paid for at the prices  
of the articles captured or destroyed, on  
the depositions of two or more persons  
of credible characters, and the certificate  
of a commissioned officer, ascertaining the  
circumstances of the loss, and the amount  
of the articles for which compensation shall  
be claimed.

The contract for the above supplies will  
be made either for one year, or for two  
years, as may appear eligible. Persons  
disposed to contract will therefore confine

their offers to one year, as they may form  
their propositions so as to admit an election  
of the term of two years.

The offers may comprise all the places  
which have been specified, or a part of  
them only.

It is also Desired,

that proposals may be offered for supplying  
at the two posts of Fort Washington and  
Pittsburgh all the rations necessary for the  
main Army, its detachments and the Garri-  
sons above mentioned during the said year  
1795. The provisions &c. which will be  
received at Pittsburgh will be those which  
shall be necessary for the troops at that  
place and at the posts north, north-west  
and, in the vicinity, on the west thereof.  
The provisions which will be received at  
Fort Washington will be those which  
shall be required for the remainder of the  
posts, for the principal detachments and for  
the main Army. The expense and trouble  
of safe keeping unpacking and issuing the  
provisions deliverable under this second  
form of the propositions, will be saved to  
the Contractors. The exact proportion of  
the whole supplies, which will be required  
at each of the two Posts of Fort Washing-  
ton and Pittsburgh will be determined at  
the time of executing the contract.

The TRIAL

OF

Maurice Margarot,

Before the High Court of Judiciary at

SEDITIONARY PRACTICES.

OF the many remarkable trials which  
the present extraordinary system of crimi-  
nal jurisprudence in G. Britain and Ireland  
has brought before the public eye; this,  
certainly is most entitled to universal perusal  
and attention. It develops, more fully  
than any publication extant, the latest  
views and objects of the British conven-  
tion; and proves incontestably, that judi-  
cial prosecutions (or persecutions) and de-  
cisions are now more the result of the pre-  
sent order of things, than any old fashion-  
ed attachment to the laws or the constitu-  
tion. Add to this, that it holds up to the  
wonder and admiration of mankind, the  
firm, manly, and patriotic conduct of this  
devoted victim—this 'Second Sydney,'  
as he has justly and deservedly been called;  
who in the course of one of the longest tri-  
als we know of, unassisted even by a single  
member of the long robe, evinced such a  
depth of legal and constitutional knowl-  
edge and, in a speech of four hours  
length, displayed such a blaze of eloquence  
and first rate abilities, as astonished the  
court—and, strange to relate! even drew  
involuntary applause from the venal  
and time-serving creature of a corrupt go-  
vernment.

Lachawannock.

A LARGE body of LAND on this river  
and its waters, is now for sale to Settlers on-  
ly, on moderate terms, and at a long credit.

The soil is remarkably fertile, and nu-  
merous streams of water are interspersed  
through the whole country.

The main river flows through one tract  
of about thirty thousand acres, and is with  
the exception of one obstruction, naviga-  
ble to the Susquehanna.

Spring Brook Creek, which with its  
branches, waters another tract of about  
forty thousand acres of good Land, em-  
pties itself into the Lachawannock, about  
twelve miles from the Susquehanna.

It affords numerous Mill seats, & in its  
course creates large bodies of well-watered  
meadow ground.

The other tracts are intersected by creeks  
of considerable importance.

Several Mills are already erected for the  
accommodation of the settlers.

Roads are cut in different directions, to-  
wards the most convenient markets.

The county town is not more than 12  
miles distant from many parts of the set-  
tlement.

The Susquehanna affords an easy and  
safe navigation to Middleton, from whence  
the Canal to Schuylkill extends the com-  
munication to the city.

Another means of connection with Phi-  
ladelphia, is by the Delaware, from which  
the distance in several places is about thirty  
miles.

The proprietors combining their own in-  
terest with that of the inhabitants, are dis-  
posed to erect works of public utility, open  
roads, &c. and in every nine miles square, a  
tract of one hundred acres is allotted for a  
School, and one hundred acres for the first  
resident clergyman of any denomination of  
Christians.

For further particulars apply to

George Eddy.

Pennsylvania, July 9.

Letters directed to George Eddy, at Phi-

C. W. PEALE.

EVER solicitous to render his MUSEUM  
still more and more an object of rational  
entertainment, and subservient to the in-  
terests of useful science, has on the sugges-  
tion and with the advice of a number of  
his friends, provided a Book, which will  
be always open for the inspection of those  
who visit his Museum, in which book it  
is proposed to insert all such discoveries,  
inventions, improvements, schemes, obser-  
vations, experiments, projects, hints or  
queries relating to the arts or sciences, as  
any of his visitors, or correspondents, may  
from time to time communicate.

Such as may chuse to conceal their names  
may either send their communications an-  
onymous, or at their desire, C. W. Peale  
will insert their names, with the number or  
signature of their respective communica-  
tions in a private book which he shall keep  
for that purpose.

The advantages of such a public register  
are obvious. It will rescue from oblivion  
many useful hints, which might otherwise  
have died with their authors. It may se-  
cure to inventors their just claims, and pre-  
vent others from taking the honor or profit  
of a discovery to which they are not en-  
titled, and as the Museum is now visited  
by persons from almost all parts of the  
world, such a register, it is presumed, will  
soon contain and be the means of dissemi-  
nating a vast fund of useful knowledge, and  
promote that spirit of enquiry and inven-  
tion, for which the people of the United  
States are already so justly distinguished.
