To be sold by Auction.

On Tuesday the 11th day of November next, at noon, at the house of Archer Gifford, in Newark, New Jersey, if not previously disposed of by private contract.

THE FOLLOWING

Tracts of Land,

Belonging to the American Iron Company, situate at Ringwood, Long Pond, and Charlottenburg, in the Counties of Bergen and Morris in the said State of New Jersey, viz.

12 tracts of land, containing about 6533 acres, situate at Ringwood, on part of which the Ringwood Mansion-House and Store are erected.

4 tracts of Land, containing about 6156 acres, situate on Long Pond River.

7 tracts of Land, containing about 6165 Acres, situate at Charlottenburg.

These Estates are well worthy of the attention of any Gentleman or Company inclined to engage extensively in Iron Works: There are several Buildings and some considerable Improvements on these Lands; about 50 Acres of excellent Meadow, are already cleared, and much more might be added at a trifling Expence. On the Premises there are several very convenient Seats for Furnaces, Forges, Mills, &c. There are also some very valuable Iron-Mines. Most of the unimproved Parts of these Lands are covered with fine healthy Timber.

These Estates will be shewn by Captain Joseph Board, of Ringwood, and the Terms of Sale made known by applying to him, or to

C. W. PEALE.

EVER solicitous to render his MUSEUM still more and more an object of rational entertainment, and subservient to the interests of useful science, has on the suggestion and with the advice of a number of his friends, provided a Book, which will be always open for the inspection of those who visit his Museum, in which book it is proposed to insert all such discoveries, inventions, improvements, schemes, observations, experiments, projects, hints or queries relating to the arts or sciences, as any of his visitors, or correspondents, may from time to time communicate.

Such as may chuse to conceal their names may either send their communications anonymous, or at their desire, C. W. Peale will insert their names, with the number or signature of their respective communications in a private book which he will keep for that purpose.

The advantages of such a public register are obvious. It will rescue from oblivion many useful hints, which might otherwise have died with their authors. It may secure to inventors their just claims, and prevent others from taking the honor or profit of a discovery to which they are not entitled, and as the Museum is now visited by persons from almost all parts of the world, success, register, it is presumed, will soon contain and be the means of disseminating a vast fund of useful knowledge, and promote that spirit of enquiry and invention, for which the people of the United States are already so justly distinguished.

Distant Subscribers

For this Gazette, are hereby respectfully requested to pay up their Subscriptions to the first of January next. The Editor will be under the necessity of considering those who do not then renew their Subscription by paying Six Months in Advance, as declining to take the Paper any longer.

As there is a considerable Sum due from remote Subscribers for the late half Weekly Paper published by the Editor, he most earnestly requests those who may be delinquent, to take the earliest opportunity of remitting him the balance they may respectively be indebted—the sums are individually trifling—the want of the Aggregate is severely felt.

A Frenchman who is well
