PRICES CURRENT.

For American & reduce at Liverpool, 13th of May, Received by an arrival at Portsmouth, N. H.

Table of tobacco prices: TOBACCO, James River, 3d a 7d er lb; Rappahannock, 3d a 6d; Potomack, 3d a 4d; Georgia, 3d a 4d; Carolina, 3d a 4d; Stems, 6d a 10d; Maryland, 3d a 4d; color, 5d a 5 1/2; kitefoot, 6d a 8d. Also Indigo, Carolina, 2s a 4s; Athes, Pearl, 1st quality, 53 a 55.

Rice is in brisk demand at present, but doubtful if these prices can be long supported should large supplies come forward, yet 35s. per cwt. is now warranted by government for all rice imported until 1st October next, 100s per 28lbs. for fine wheat flower, and 90s. per quarter of 8 winch bushels for wheat; the former to be ascertained by the average price to be published each week in London, and the latter articles according to the average price of the kingdom. Produce admitted free of duty for exportation in American and other neutral vessels.

Table of sugar prices: Sugar, Musco. brown, 35 a 37s; Clayed, 45 a 48s; Havanna, brown, 45 a 55s; white, 67 a 80s. Coffee, Ordinary, 112 a 118s; Middling, 120 a 127s; Good, 129 a 133s; Fine, 135 a 140s; Triage, 86 a 96s. Cocoa, West-India, 80 a 85; Curacao, 88 a 92s.

The export demand for Sugars and Coffee has again become more limited within these few days, but prices are notwithstanding expected to keep pretty steady, at least until the summer West-India fleets arrive. The following articles may be imported for home consumption or exportation, paying the duties affixed: Cotton, Bourbon, 287 a 288 1/2; Surinam, 2-6 a 2-8; Demarara, 2-5 a 2-7; Curacao, 1-7 a 1-9; N. Orleans, 1-10 a 2-0; Georgia, Short Staple, 1-8 a 1-10; Sea Island, 2-8 a 2-10.

Prices of Cotton, particularly of the lower description, have experienced some further improvements in the course of the last month, and the demand for all sorts continues very regular, which is encouraged by a brisk vent for our manufactures, as well as an export demand for twist. The Manufacturers are applying to Government to lay some restrictions upon the latter in the way of duty or otherwise, and such a circumstance should they succeed, (contrary to expectation) would certainly tend to depress the raw material, which otherwise we think likely to maintain the present prices until more abundant supplies come forward, altho' they may probably become precarious some months hence, should our importations from all quarters prove so considerable as generally expected.

BY MAILS.

BALTIMORE, July 2. A gentleman arrived in town yesterday, who dined with Mr. Jefferson, on Thursday last, at Monticello!

ROME, (N. Y.) June 23. On Friday morning last, the Supreme Circuit Court, in this town, for the county of Oneida rote, after dispatching a great variety of civil business. The only criminal prosecution was against a Major Watson, for purchasing lands of the Indians, contrary to the statute. He was found guilty—His Honor Judge Radcliff, after stating the nature and consequences of his offence to him, in a very handsome and impressive manner, ordered him to procure sureties for his appearance at the next Circuit Court.

PORTSMOUTH, June 28. Arrived here the ship Hantonia, Captain Moulton, in forty one days from Liverpool. When we heard this vessel was coming in, we anticipated a flood of important foreign news! Boarded her in the river, and were informed that not a single paper was brought, as the Captain had been sick ten days previous to her departure, and could not obtain the late papers; neither were they in the way of hearing the news or reports of the hour. However we have received the following purport of a letter: Extract of a letter from a gentleman in Liverpool, to a respectable merchant in this town, mentions— "The campaign is just opened in Italy, where the French have been terribly beaten;—and General Massena and his army expected to be made prisoners." "The season is very forward, and appearance of plentiful crops."

BOSTON, June 30. Arrived on Saturday, brig Holbrook, Captain Sayer, forty-seven days from Greenock. May 17, spoke privateer brig Happy Couple, of eighteen six pounders, Captain La Touche, from Granville, on a cruise, who treated him politely, and informed him that in consequence of an amicable settlement between France and the United States, he had orders not to take or molest any American vessels—that he had previously taken and sent in a vessel from Virginia, loaded with tobacco, which had been acquitted and damages recovered. June 21, spoke the ship Two Sisters, Captain Joshua Knights, of Scarborough, from Portland, bound to Cork, five days out all well.

LATEST FROM EUROPE.

On Saturday last the brig Holbrooke, of New-York, capt. Sayer, arrived here from Greenock, in 47 days. The papers received by this arrival, are to May 6, from which we have extracted the most material articles of intelligence, which are to be found under the foreign head. Since the receipt of these papers we learn from capt. Sayer, that he had on board when he sailed a Glasgow Gazette of May 12, which contained an official account of the defeat of Massena's army, in Italy, in which between 7000 and 8000 men were killed and taken prisoners. This paper was taken from Capt. Sayer by a privateer which boarded him off the Western Isle. [The extracts in the Boston paper, the latest of which is a Glasgow head of May 6, have all been published.]

FROM THE LONDON GAZETTE. DOWNING-STREET, April 8. A dispatch, of which the following is an extract, has been received from the Right Hon. Lord Minto, his Majesty's Envoy Extraordinary and Minister Plenipotentiary at Vienna, by the Right Hon. Lord Grenville, his Majesty's Secretary of State for the Foreign Department. Vienna: April 17, 1800. My LORD. I have the satisfaction to acquaint your Lordship, that the campaign has opened in Italy, by an important success on the part of the Austrians. On the 6th inst. Gen. Melas attacked the several posts occupied by the French to the northward and westward of Savona and Vado, and drove them from the positions of Torre la de Buona, Monte Notte, and several others; some of these posts were strongly entrenched, and one of them defended by 3000 men; but they were carried by the courage and conduct of the Austrian troops, who appear to have acquired much honor on this day. The enemy retired with precipitation on Vado and Savona, leaving their cannon and about 300 prisoners, among whom is a Chief de Brigade and several officers of distinction. In the night between the 6th and 7th they evacuated Vado, having destroyed the stores and spiked the cannon and retired by sea towards Nice. Their number is supposed to have been between 7 and 8 hundred. The Austrians took possession of the fort of Vado in the morning, and found 17 pieces of heavy artillery. General Melas immediately invested Savona.

FLORENCE, April 12. The following bulletin has been published here officially: "A Courier from Field Marshal Count de Hohenzollern has brought me the agreeable intelligence that on the 19th the Bochetta was taken by assault. Six tier of entrenchments, which seemed impregnable, were scaled by our troops with heroic valor, notwithstanding the most obstinate resistance made by the enemy. The main body of the army has besides, taken possession of the fortresses of Vado, and has in part entered Savona. The loss of the enemy is much more considerable than ours. The French army surrounded, and defended themselves with desperation. The details will be published forthwith. (Signed) The Marquis of SOMMARIVA, Maj. Gen.

ROVERENO, April 13. General Elmitz was to have attacked Vado on the 7th, but the enemy did not think it advisable to make a stand, having retreated from St. Stefano, to Finale, leaving behind 17 pieces of cannon, several ships and military effects. In the citadel of Savona, 350 of the enemy were made prisoners. General Melas is at Savona, General Elmitz at Finale, General Ott at Guardo, and the British have begun to bombard. The manoeuvre of General Melas, by which he got in the rear of the French, and separated their forces, is considered here as masterly.

Prevention better than Cure.

For the prevention and cure of Bilious and Malignant Fevers, is recommended, Dr. HAHN'S

Anti-bilious Pills,

WHICH have been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West-Indies, and the southern parts of the United States—particularly in Baltimore, Petersburg, Richmond, Norfolk, Edenton, Wilmington, Charleston, Savannah, &c. The testimony of a number of persons in each of the above places can be adduced, who have reason to believe that a timely use of this salutary remedy, has, under Providence, preserved their lives when in the most alarming circumstances. Facts of this conclusive nature speak more in favour of a medicine, than volumes of pompous eulogy, founded on mere assertions, could do. It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason, which can result from extensive experience for believing that a dose of these pills, taken once every two weeks during the prevalence of our annual bilious fevers, will prove an infallible preventative; and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring health and frequently in cases esteemed desperate and beyond the power of common remedies. The operation of these pills is perfectly mild and may be used with safety by persons in every situation and of every age. They are excellently adapted to carry off superfluous bile and prevent its morbid secretions; to restore and amend the appetite; to produce a free perspiration and thereby prevent colds which are often of fatal consequence. A dose never fails to remove a cold if taken on its first appearance. They are celebrated for removing habitual costiveness, sickness of the stomach and severe head-ache, and ought to be taken by all persons on a change of climate. They have been found remarkably efficacious in preventing and curing most disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.
