Prevention better than Cure.

For the prevention and cure of Bilious and Malignant Fevers, is recommended, Dr. HAHN'S

Anti-bilious Pills,

WHICH have been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West Indies, and in the southern parts of the United States.

The operation of these pills is perfectly mild and may be used with safety by persons in every situation and of every age.

They are excellently adapted to carry off full perfidious bile and prevent its morbid secretions; to restore and amend the appetite; to produce a free perspiration and thereby prevent colds which are often of fatal consequence.

They have been found remarkably efficacious in preventing and curing most disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

300 Dollars

REWARD.

RAN AWAY from the subscriber, on the 18th of June inst. TWO NEGRO SERVANTS; viz a negro woman named Pat, a washer-woman and cook, of about fifty years of age—tall and well shaped, of a black complexion. She has had teeth, those of her under jaw are much discoloured and project a good deal. She has a full head of woolly hair—a very cross forbidding countenance, is very impertinent, and laughs and talks loud. Pat was born in South Carolina, and speaks bad English, with the negro dialect. She has on the upper part of her breast, two pretty large lumps of flesh resembling Wens, or rather with the appearance of the marks of a burn. She carried away with her several changes of cloaths, and gowns of white muslin, and of coloured and figured printed cottons fashionably made up. She also carried away with her,

CLARA her daughter—a very stout, robust, strong made girl, of a short stature, and round shouldered—appearing to be about 14 years of age. Clara has large staring eyes, a flat nose, an oval flat face, her under jaw projecting a little, and good teeth. She is very artful and impudent, has a great fluency of speech, uses good language, and has been taught to read.—She has the appearance of ring worms on her left cheek and chin; the skin in spots appearing much paler than the rest of her complexion, which is much lighter than her mother's—Her hair is short and woolly. She wore a pink ground printed cotton with a small black figure, with new fore parts.

Also ran away, on Wednesday the 11th inst. June, DICK and AMELIA. Dick, or as he has lately called himself, Richard Weaver, is a house-servant,—he is about 5 feet 7 inches high, rather stout made, is about 25 years old, of a good smooth, black complexion—has a flat nose, with very large open nostrils. He carried his head and neck as if he were stiff in the neck and shoulders, which are high and tolerably square, and his neck short—his legs are straight but small and lily made, with scarce any calf. He has had bad teeth, is left handed, and exceedingly awkward—he has a full head of woolly hair, which he plits and dresses to the best advantage. His voice is small, his speech commonly mild and slow, and his manners appear extremely simple, but he is at bottom an artful knave, and when spoken to is very apt to be passionate and impertinent. Dick is a native of South Carolina, and speaks bad English—he seduced and carried away with him Amelia, who he called his wife.

Amelia is a very complete, well instructed ladies maid, much below the common stature and of a small make—her complexion is that of a dark mulatto or melizoe, nearly resembling that of the Lacars of India, with black curling hair, and a very low forehead—her right eye has a great weakness, owing to the small-pox in her infancy—under her eyes very black—a flat face, flat broad nose, with scarce any rising at the bridge; a large mouth, with thick lips, and good strong teeth. On the nape of her neck she has the marks of a Sciton. Dresses with taste, and imitates the French style; is very sensible, and expresses herself well. She took with her a variety of clothes, fashionably made—she has for more than two years past been liable to fits, which at times give her a wildness in her eyes—her health is generally delicate—she is at present likely to enclose her family, and is about 22 years of age—the can dress hair, clear starch, has a taste for millinery and mantua-making; and as she is very ingenious, can turn her hand to anything and may probably offer herself to some milliner or mantua maker as a work-woman. As Amelia has heretofore been a great favourite of a very indulgent mistress, and has believed has been led away by the persuasion of her paramour Dick, if she will return to me, she will be forgiven and treated with the same tenderness she has always received.

FIFTY DOLLARS Reward for each will be paid for the delivery of Pat and Clara to the subscriber, or to any goal in the United States, so that I may get possession of them—One Hundred Dollars each for Dick and Amelia, on the like delivery. The subscriber warns all master of vessels, from taking these Runaway Servants from the United States, and requests such of his friends and acquaintance as it may not suit to arrest them, to give information, should they hear of either of the fugitives, to the subscriber by letter directed to the post office, Philadelphia, which will find him, wherever he may pass the summer, or to the Printer of the Gazette of the United States, who will communicate it to a friend in Philadelphia to act on his behalf.

QUESTIONS

To Merchants, Store keepers, and Tradesmen in general, &c.

1st. PRAY Gentlemen, is a perfect standard of discount, or interest, calculated on every dollar (without exception) from 1 to 1000, from one day to sixty-four days inclusive, of any value, whether used as a standard, or as a check upon the enquirers' own calculations. 2d. Is it of any importance to know the best methods of computing the exchanges, between this country and the principal maritime trading place in Russia, Sweden, Denmark, Norway, Prussia, Poland, Germany, Holland, Flanders, Spain, Portugal, Italy, in several of the Windward and Leeward West India Islands, and many ports in the East Indies?

3d. Is a table of all the coins and monies of account in the places aforesaid, of any use?

4th. Are the coins and monies of account in the aforesaid places, when reduced to dollars and cents, of any service?

5th. Is a table of compound interest of any utility?

6th. Is the table by which the banks determine the value of gold, desirable?

7th. Is the amount of interest, accurately calculated for each month from one to twelve months, and on every dollar (without exception) from 1 to 1000, of any value?

8th. Is a table of all the post towns in the United States, and rates of postage therewith, of any use?

9th. Will not all these together make a book, as generally useful and convenient as ever entered a counting house or store?

10th. Will not the whole, when comprized in a quarto volume of from 200 to 225 pages, be worth two dollars?

And lastly, Is the person, who at the expence of FOUR THOUSAND DOLLARS undertakes to perform upwards of one hundred and fifty thousand calculations of Interest, and of giving all the preceding information to the public in the most complete manner, deserving of your Encouragement and Support?

If the answer is in the affirmative, you are individually and respectfully invited to subscribe in one of the specimen books, exhibited at the City Tavern, Hardy's Hotel, Francis's Hotel, the Indian Queen, Dunwoody's Tavern, the Franklin Head, and at the George.

It is proper to state, that the work will not be executed unless fifteen hundred subscribers are obtained: for four thousand dollars is too much to hazard.

NOTHING IS TO BE PAID IN ADVANCE, neither will it be expedient of subscribers to take the work when published, if it is not delivered rigorously conformable to my agreements with the public, expressed in the conditions affixed to the specimen books, each of which consists of six detached pages of the work.

I am, with respect,

Gentle, &c. &c.
