The claim was by the captain, stating that he with his brother, who was his mate, were owners of the brig, that they had chartered said vessel to a Mr. Hector Scott of New-York; that they were to take a cargo and carry to Curacao, and return with another, and that they had nearly completed the contract when taken, (being just off the Hook.)

TO JOHN DORRANCE.

President of the Town Council in Providence.

THE subscribers appointed to correspond with, and to aid in the relief of the inhabitants of Baltimore, Norfolk and Providence, now suffering under the most terrible disease that ever afflicted our cities, take the liberty to address you, and to give you some account of their proceedings.

For the purpose of assisting you on the occasion of your present sickness, Ward Committees are appointed to collect subscriptions in the city and district of Philadelphia, on whose exertions we depend for pecuniary aid; and this committee will not fail to write you again, as soon as the amount of their subscriptions is known, in the mean time, we request you will please to advise us of your general situation, that we may proportion our contributions to the exigence of the poor in the cities of Baltimore, Norfolk and Providence, according to the best of our judgment.

With our best wishes for the prosperity of Providence, and the speedy restoration of health to all its inhabitants, we remain your friends.

(Signed by the Chairman.)

P. S. You will please to mention whether cash, provisions, or cloathing, will be most acceptable.

A Town Council holden in and for the town of Providence, on the 30th day of September, 1800.

GENTLEMEN, Your letter of the 9th inst. having been laid before us, by Moses Brown, we cannot but feel very sensibly affected with its contents, and gratefully acknowledge on the part of our distressed fellow-citizens, the favour contemplated for them therein.

We would inform that the malignant disorder with which this place has been visited, made its first appearance on the 15th of August last, in the fourth part of the town, a quarter which is now nearly deserted by the inhabitants. During the time the disorder has prevailed, this Council have been in the constant custom of giving regular statements to the public respecting it. The numbers taken sick have been eighty four, of whom fifty one have deceased, including three who died abroad, twenty seven have recovered, and six now remain sick, all of whom are at the Hospital, about one mile from the town. Although the disease has been confined within narrow limits, and partially affecting only the fourth part of the town, yet the alarm excited thereby, has induced about one third of the inhabitants (comprising the most wealthy) to leave their abodes; this, with the stoppage of the coaling trade, and the suspension of the necessary supplies from the country, and the general stagnation of business, has operated greatly to the disadvantage of the labouring poor, who are delicate of employment.

The police of this town, however, is such, and the powers of those to whom it is intrusted by law to make provision, so ample, as that their necessities have been as yet provided for, and unless the calamity should be more distressing than what we are encouraged to hope, we trust that the means of the town will still be adequate thereto;—this we may expect from the Town Treasurer being authorized to borrow monies of the Bank; the Directors of which have hitherto furnished him for that purpose.

We leave it with you to judge from this statement, whether the situation of this place, requires your assistance. If you should conceive that it does, your favours would be more acceptable in cash than in any other article, as it could be readily applied to the relief of the necessitous.

It is more immediately the province of this Council to provide for the poor labouring under contagious sickness, and relative thereto, you will please to address your communications, and such pecuniary favours as you may deem expedient, to John Dorrance Esq. President of this Council by whom they will be properly and faithfully bestowed.

Please to accept our best wishes for your welfare, and continuance of health to the inhabitants of your city, and of our assurance of the high sense we entertain of their benevolence and philanthropy.

Signed by order, and in behalf of said Town Council, Sept. 30, 1800. NATHAN W. JACKSON, C. Clerk,

To Samuel Coates Esq. Chairman of the Committee of Correspondence, Philadelphia.

Fellow Citizens of the County of Burlington.

FINDING my name inserted in a pamphlet, published by order of a meeting of republicans citizens of the county of Burlington, at the house of Joshua Rainear, in Springfield, the 20th September, 1800, Major General Bloomfield, chairman, as one of their corresponding committee for the township of Hanover, which pamphlet is addressed to the people of the county of Burlington. I feel it my duty, as well as inclination to inform you, my fellow citizens, lest you may be led to form unfavourable and false sentiments of my political principles, that the placing my name as one of the corresponding committee, was without my consent, and that I had no knowledge whatever of the meeting at the house of Joshua Rainear. No better proof

The republican meeting as it is called, in Springfield, was unmoored at Slab-town; but the chairman and secretary have omitted the name of the village—Were they ashamed of it? Or was it for fear of reminding the county of the noted republicans who inhabit there.

need be produced of this fact, than their placing me as a committee for Hanover, when my residence is notoriously known to be in Northampton. Another proof also presents itself, of the illegal and random manner they named their committees, two names being inserted with mine as their Hanover committee, neither of which men reside in the township of Hanover, viz. Leovy Budd and Joseph Shinn—Levi Budd is a resident in Springfield, and Joseph Shinn in Northampton. I call on the chairman, see et al or any member of that meeting, to announce, if they can, that I gave any authority whatever, to any of them, to place my name as one of their committee.

I have examined the productions of this republican meeting, contained in their pamphlet, and I am pointedly opposed to the principles they advance, being convinced that they lead to disorganization, confusion and war—However plausible or specious their doctrines may appear, I believe them to be erroneous, and will be productive of multiplied evils to the community. I ask my fellow citizens, if the same system which were laid by our great and unanimous departed Washington, have not been pursued by his successor, our now President Adams; you will agree with me, that they are the same, all America knows they are, and all the good, wise and virtuous men in Europe have acknowledged and applauded the wisdom of his measures. I am proud to own the honor, that I served under his banners in the times that tried mens souls, when the summer soldier and the sunshine patriot, shrunk from their duty. Where were these men at this time? He it was that led us through lonely woods, over desert hills and fields of blood, and raised the banners of freedom: He it was, that formed the present political and civil systems which Adams purveys; do they not all coincide with his farewell legacy? If we continue to pursue them, be assured they will guide us safely on, to that rank, respect and eminence we are entitled to hold among the nations of the world: If we forsaek his sage advice, for inconsiderate schemes of private pique or revenge, we enter into parties, will split to pieces and like the Roman Empire come to nothing. Read this great man's farewell address to the citizens of America, and you will be convinced of the truth of these remarks, and you will, as I do, despise and discard the piddling, creaking and disorganizing policy, held forth by the chairman and secretary of this republican meeting.

THE LATEST FOREIGN INTELLIGENCE.

Via New-York.

From the Times—London August 27.

Yesterday during the sitting of the Cabinet Council, dispatches were received from his Majesty's Minister Plenipotentiary at Vienna. They are dated upon the 15th inst. So late as that date, no notice had been given by Gen. Moreau of the re-commencement of hostilities; but this is not the only circumstance which confirms the belief we have lately entertained of Duroc's possessing a secret latitude of power, and of their being room for another ultimatum upon the part of Buonaparte.

On Sunday some private dispatches were received from Paris, and another express arrived yesterday morning by the way of Dover. We shall not permit ourselves to reason loosely upon a subject so important.—We know that no overtures for a just, solid, and permanent peace will be refused by his Majesty's Council. We think, under the present circumstances, the French Government must perceive the absurdity of offering any other.

The menaces of the Chief Consul against Portugal, and the mission of Gen. Berthier to the Court of Madrid; the demand, if it be true, of a passage through the papal territories for the invasion of Naples, and the new appointments of commanders in chief to new armies both severally and collectively indicate the vast projects of Buonaparte; who, while he attempts to dictate a conqueror's peace from the Meuse to the Minio, is disturbing the flamber of Spain, terrifying Portugal with arms or tribute, and endeavouring to sow discord at the bottom of the Baltic. What region of the earth is not full of his labours? What state does he neglect to agitate and embroil? The continent of Europe appears at last awake to its dangers, and the impolicy of declaring the "vast projects," pending the negotiations, will be as profitable, we trust, to the common cause, as it is open to the common-sense apprehension.

The removal of Gen. Massena from the command in Italy may be variously accounted for. A man who is as great in war, as infamous in character, may be dismissed or preferred, may be wanted or may be superfluous. His removal may be intended as mercy to the Cisalpines whom he has robbed and pillaged with the unrelenting ferocity of an Arab. His science in the art of plunder may delude him to the Tagus; or finally, he may lead the second army of reserve into the Tyrol, where, in the event of the renewal of hostilities, the republicans will doubtless attempt to force their way, joining on either hand the armies of the Rhine and of Italy, and advancing in a common line against every part of the Hereditary states.
