Prevention better than Cure.

For the prevention and cure of Bilious and Malignant Fevers, is recommended, DR. HAHN's Anti-bilious Pills,

Anti-bilious Pills,

W HICH have been attended with a degree of fuccefs highly grateful to the inventor's feelings, in several parts of the West-Indies, and the southern parts of the United Statespatticularly in Baltimore, Petersburg, Rich, mond, Norfolk, Edenton, Wilmington, Charleston, Savannah. &c. The testimony of a number of persons in each of the above places can be adduced, who have reason to believe that a timely use of this falutary remedy, has, under Providence, preserved their lives when in the most alarming circumstances.

Fasts of this conclusive nature speak more in favour of a medicine, than columns of pompous eulogy, founded on mere affertion, could do.

It is not indeed presumptuously proposed as an infallible core, but the inventor has every possible reason, which can result from extensive experience for believing that a dose of the pills, taken once every two weeks during the proventions.

taken once every two weeks during the preva-lence of our annual bilious fevers, will prove an leace of our annual billous fevers, will prove an infallible preventative; and further, that in the earlier flages of those diseases, their use will very generally succeed in restoring health and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild and may be used with fatety by persons in every structure and of every are.

and may be used with sajety by persons in every situation and of every age.

They are excellently adapted to carry off su persuous bile and prevent its morbid secretions; to restore and amend the appetite; to produce a free perspiration and thereby prevent colds which are often of satal consequence. A dose never fails to remove a cold if taken on its first appearance. They are celebrated for removing habitual cossiveness, sickness of the stomach and severe head-ache, and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing most disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

ant on long voyages, and should be procured and carefully preserved for use by every seaman.

DR. HAHN's Genuine Eye-water.

A certain and fafe remedy for all difeases of the eyes, whether the effect of natural weakness, or of accident, freedily removing inflammations, defiazions of rheum, dullness, itching, and films in the eyes, never failing to cure these maladies which frequently succeed the small pox, measles and severs, and wonderfully strengthening a weak sight. Hundress have experienced its excellent virtues when nearly deprived of sight.
