As there are no fuch coins in the United States as Pounds, Shillings and Pence, The Brokers of Philadelphia in future, intend to buy and fell all kinds of Public Stock, at so much per cent, in Dollars and Cents, which are the proper coins of the United States, and not as heretefore, at so much per pound. And to prevent any inconvenience which may arise to those who have been habituated to the old method, the sollowing table is published, showing the sem in Dollars and Cents, per Cent, which correspond with shillings and pence, per pound. They hope the simplicity of the new method, will be pleasing to the citizens of the U. States, and give general satisfaction.

LITERARY NOTIGE.

A Pamphlet has appeared within a few days from the press of Mr. DICKINS, entitled "The Claims of Thomas Jefferson to the Presidency, exa nied at the Bar of Christianity. By a Layman."

We are convinced this is not a false title page, and that this pamphlet really proceeds from a gentleman, unconnected with the facred profession.

This valuable little work has excited the just praises of a Critic in the city of New-York, who has not hefitated to declare that for ffrength and ingenuity of argument and energy of expression, this publication has not been exceeded. To this praise we may, with propriety add, that it is well calculated to induce reflecting men to paufe before they elect an Infidee Chief.

Thomas Franklin is elected to reprefent the county of Luzerne, in the House of Representatives of this State. This return had not come to hand when we gave our last. statement

In South-Carolina, the Electors of Prefident and Vice-Prefident, are appointed by the Legislature, according to a law of that state passed in '92. "The Electors shall be appointed by ballot, on the Tuefday preceding the first Wednefday of December."

Extrast of a letter from the American Conful at Liverpool, dated September 12, 1800.

" Meffages between Calais and Paris pontinue as frequent as ever. General Abercrombie has abandoned the project of attempting Malta. Our Commissioners at Paris are going on well."

Electors took place yesterday by the people in diffricts.

Captain Rea, arrived at Beverly, in the schooner Betsey, from Naples, via Gibraltar; failed from Gibraltar the 17th of September. Captain Rea, informs, that the English were about landing troops at Lisbon, from Gibraltar; that the French were about to march into Portugal; and that the plague still rages very violently in Cadiz; upwards of Three Hundred dying daily.

Extract of a letter from Paris dated Aug. 17th to a Gentleman in New-York.

"For some time past the negociation was actually suspended; the return of Buonaparte renewed it, and I have the strongest hope of its success; but the pens affini is not yet got over, or rather the mons auri. Compensation is what they cannot think on (and by the by it is hardly worth infifting on, for if they promise they will never pay;) that is still one great objection, add to that an article in our treaty with England is in the way, and fo tough it can't be borne, that forbids them or any other nation being put on the fame footing with England.

"The pride of this nation is fuch, that I doubt if they will ever confent to be placed on a worse footing; and I believe now, lament their Conduct destroyed a treaty that made them the most favoured nation; so that with one difficulty and another, the buliness is very doubtful. Could we put them on the fame footing with England, I believe they would PRO MISE TO ARRANGE for the compensationtor their depredations. If we do not arrange, all the property now depending in the tribunal of prizes will be loft; and it is in my opinion of infinite more confequence than all compensation we ever shall get. When things looked well two vessels and cargoes were acquitted; fince three are condemned, I will not tay in confequence of the state of the negociation, though I believe it to be fo. The more than brilliant fuccess of the campaign has been much against our friends negociating. Add to that, the preliminaries of peace to the powith the Emperor is actually figned and on long 59 the way to Vienna for ratification: Judge then of the hard fituation of our friends. The appointment is honourable, but be wffured it is not enviable; 1 am confident they find it painful, and in case of not succeeding probably found fault with; and I think it an equal chance they do not, and in the case I dread the consequence of party in America. I wish you had the power to make every man feel the true interest of his country, and divest himself of every liking either for England or France, for neither has a particle for us; on the contrary they envy our riling greatness and would divide to destroy us. Captain Tufft's veffel and cargo is acquitted. The Ruby is condemned; the Woodruff, capt. Sims,

condemned, the refused to obey the first fummons, and fought. Nothing decided by our envoys on the 17th of August." A letter from Charleston to a respectable gentleman in New-York, dated October 17, favs, "Our Election is over-The Federal Ticket carried 16 out of 17-and accounts from the Country affure us that fuch men will be elected as will carry Adams and to expect a few weeks fince. On this the Diforganifers look pale-They begin here to dispair, because they believe their Friends in the other states may have calculated too

Liberty of the Press.

I am told that his Republican E. Hency, he beloved and impartial Governor of Pennfylvania threatens to "stop my note." I have heard this from such authority that I cannot any longer doubt the good intentions of his bigbness. The information indeed is nearly general. Little Sammy Bryan's cail " wriggles to and fro." with redoubled velocity; and many of the negroes and other friends of the Governor say " Hamilton will be bung !" But these are only what Mr. Dallas calls the "little Democrats. They do not known that his Excellency is a leveller and not an exalter ; and that while he holds his present sentiments I shall have no chance of dancing upon air for Democratic amusement.

But whatever elfe his Highness may thuse to do with his victim, - whether he fends me to " the Banks of the Danube on the Severn's side"-to Botany Bay or Brackie's " green verge"—to Brannon's Bank or Stever's Dollar bole—it is a matter of confolation to know that I shall have merry company. "The Chirping Cobler" Merry Tom the Tinker," Peter Quid Elq. and myf. If and other great men are to be all huddled together, like a litter of pigs for the Table of the first Consul.

After fuch an elegantly poetical simile, I shall do myself the pleasure to tell my fellow labourers at Muc's Eulogy, that notwithstanding his highness has fixed our doom, bis Secretary informs that execution will not issue till the Hero of Monticello is seated on the Beak of the Federal Eagle.
