PROPOSALS

FOR PUBLISHING IN AQUATINTA

TWENTY-FOUR VIEWS,

SELECTED from the most striking and interesting Prospects in the United States; each of which Views, will be accompanied with a descriptive account of its Local, Historical, and other Incidental Peculiarities

By **G. I. PARKYNS,**

Author of the "Monastic Remains and Ancient Castles in Great Britain."

CONDITIONS.

1. That the work shall be published by Subscription; and that each Subscriber shall engage to take the whole set of Views, and shall pay for each engraving, if black or brown, 2 Dollars; and if coloured 5 Dollars.
2. That the dimensions of each engraving shall be 24 by 17 inches, executed in aquatinta, and published upon paper of a superior quality. The publication to commence immediately; and one engraving to be delivered to the Subscribers, on the first Monday of each succeeding month, until the proposed series shall be finally completed.
3. That with the last View of the series, shall be delivered an engraved title-page; an elegant characteristic vignette; a map of the route, connected with the prospects exhibited in the course of the Work; and an Alphabetical list of the Subscribers.

Subscriptions are received by Mr. Harrison, at his Print Shop, Maiden-lane, New-York, by Mr. Carey, Book-seller, No. 118, Market street, Philadelphia, and by all the principal Book-sellers in the United States.

February 28.

City of Washington.

Scheme of the LOTTERY, No. 2,

For the Improvement of

THE FEDERAL CITY.

A magnificent 20,000 Dollars, and
dwelling house, } cash 30,000 are

1 ditto 15,000 & cash 25,000	50,000
1 ditto 15,000 & cash 15,000	30,000
1 ditto 10,000 & cash 10,000	20,000
1 ditto 5,000 & cash 5,000	10,000
1 ditto 5,000 & cash 5,000	10,000
Cash prize of	10,000
2 ditto 5,000 each, are	10,000
10 ditto 1,000	10,000
50 ditto 500	10,000
100 ditto 100	10,000
200 ditto 50	10,000
400 ditto 25	10,000
1,000 ditto 10	10,000
15,000 ditto 20	150,000

16,739 Prizes
23,261 Blanks

50,000 Tickets at 8 dollars 400,000

This Lottery will afford an elegant specimen of the private buildings to be erected in the City of Washington. Two beautiful designs are already selected for the entire fronts on two of the public squares; from these drawings, it is proposed to erect two centre and four corner buildings, as soon as possible after this Lottery is sold, and to convey them when complete, to the fortunate adventurers, in the manner described in the scheme for the Hotel Lottery. A net deduction of five per cent. will be made to defray the necessary expenses of printing, &c. and the surplus will be made a part of the fund intended for the National University, to be erected within the City of Washington.

The drawing will commence as soon as the Tickets are sold off. The money prizes will be payable in thirty days after it is finished, and any prizes for which fortunate numbers are not produced within twelve months after the drawing is closed are to be considered as given towards the fund for the University, it being determined to settle the whole business in a year from the ending of the drawing and to take up the bonds given as security.

The real securities given for the payment of the Prizes are held by the President and two Directors of the Bank of Columbia, and are valued at more than half the amount of the Lottery.

The twenty four gentlemen who by appointment of the late Commissioners assisted in the management of the Hotel Lottery are requested to undertake this arduous task a second time on behalf of the public; a sufficient number of these having kindly accepted, it is hoped that the friends to a National University and the other federal objects may continue to favor the design. The synopsis of one of the Colleges, to form a branch of the National Institution, is already in the press, and will be speedily published, together with its constitution.

A complete PLAN of the whole of this important Institution, compiled from a selection of the best materials, ancient and modern, will be submitted to the public whenever the same may have gone through such revisions as may be necessary to establish the perfect confidence and general approbation, so essential to its present rise and future existence for the general good of America.

By accounts received from the different parts of the Continent as well as from Europe, where the tickets have been sent for sale, the public are assured that the drawing will speedily commence, and that the care and caution unavoidably necessary to insure a safe disposal of the tickets, has rendered the short suspension indispensable.

February 24, 1795.

SAMUEL BLODGET.

Tickets may be had at the Bank of Columbia of James West & Co. Baltimore or Gideon Denison, Savannah, of Peter Gilman, Boston; of John Hopkins Richmond; and of Richard Wells, Cooper's ferry.

Aug 30

TO BE SOLD,

Jesse Waln,
John Nicholson,
John Arudi,
William Henry,
John Hilder,
James Hyslop,
Thomas Paul,
Thomas Bullman.

Commissioners.

Philadelphia, May 8

FRANCES'S TAVERN.

No. 59 South Water Street.

THE Subscriber respectfully begs leave to inform his friends and the public in general, that he has removed from No. 166 South 2d Street, to that large, commodious, House in Water Street, between Chestnut and Walnut Streets, lately occupied by Mr. Isaac Haslebarth, and, on which he has spared no pains or expence, to make it convenient and agreeable for the reception of gentlemen. The House being situated on the same spot where the noted Beef Steak and Punch house formerly stood, has the advantage of the best water in this city, known long since by the name of the *Green Tree Water*. As there are several elegant Rooms, sufficiently large to accommodate any Society or company of gentlemen, and from his well known abilities to please in the line of his business, he flatters himself with a continuance of that patronage which he has experienced since he first opened a Public House in this City, and, for which he begs leave to make a public acknowledgment.

For the accommodation of Small Parties, the Large Coffee Room on the ground floor is conveniently fitted up with a number of Boxes, constructed in such a manner as to admit gentlemen to be as private as they please—Where may be had, at any hour, Soups, Beef-Steaks, Relishes, &c. &c.

He has on hand, and will keep a constant supply of Spirituous and Malt Liquors, and of the best qualities.

Breakfasts provided—Also Dinners and Suppers cooked in the most approved manner, at a short notice, and Paltry of all sorts, made to order, in the House, or to send out at any hour.

He has several well furnished Bed Chambers, for Boarders and Lodgers, by the Week, month, or year.

SAMUEL FRANCES.

P. S. The large, convenient, Stairs and Vaults, underneath the House, with the Office above, to be rented, either separate or together—For terms apply to the Subscriber.

June 2.

RIDING-SCHOOL,

AND

Horse Academy;

ALSO, HOSPITAL FOR SICK AND LAME HORSES, &c.

THE Ladies and Gentlemen of Philadelphia and its vicinity are respectfully informed, that a Building of the above description is intended to be immediately erected, under the sole direction of T. SWANN, where Ladies and Gentlemen will be instructed in Riding and managing the Horse according to the established rules of art, and Horses will be properly broke for every purpose. But as the fitting up such buildings will be attended with a heavy expence, he has published proposals, soliciting a subscription to forward this useful Seminary, particulars of which may be seen at Mr. Ormrod's Printing Office Chestnut street; he will be happy to wait upon any lady or gentleman inclined to honour him with their support, and fully explain himself on this subject, a line address'd to him at No. 63, South Third street will be duly attended to.

Those gentlemen &c. who may have horses labouring with diseases either sick or lame he will attend on them if desired and immediately explain the nature of the complaint and what can be done to help and relieve them—he also engages to cure and make found horses which have the following complaints, viz. canker'd feet, contracted hoofs, sand cracks, quitters, splints, wind galls, curbs and spavins, either bog or boney, if in their first stages.

He performs a curious manual operation which takes away the cause of blindness from Horses that have bad and weak eyes. The above he has experienced on more than six hundred Horses, with singular success.

N. B. Any Lady or Gentleman who have Horses that have been ill broke, and very awkward and unhandy to ride, he will engage to give them six suppling lessons in his temporary manage, at the small expence of only five Dollars, by which their Mouths and actions shall be more altered for the better than is possible to be conceived by those who are unacquainted with the art.

The Lectures on Horsemanship published by T. Swann are to be had at Mr. Ormrod's, Chestnut-street; where in is contained more concise and genuine instructions on which the art is founded, than are to be had in any publication, comprised in so small a compass, now extant.

July 6.

James M'Alpin,

Taylor,

No. 3, SOUTH FOURTH STREET,
Returns his grateful acknowledgements to his friends and the Public for their liberal encouragement, and begs leave respectfully to solicit a Continuance of their Favours.

At his Shop Gentlemen can be furnished with the best materials, and have them made up and finished in the neatest and most fashionable manner.
He will thankfully receive any orders and pay prompt and punctual attention to them.

July 25.

FOR SALE,
THE **Stout NEGRO LAD**, who has upwards of 5 years to serve. Enquire of the Printer.

Treasury Department.

REVENUE OFFICE, April 10, 1795.

PROPOSALS

Will be received at the Office of the
Commissioner of the Revenue,
For building a **LIGHT HOUSE**

On Long-Island,

At MONTAUK POINT, in the County of Suffolk, and State of New-York, of the following Materials, Dimensions and Description.

THE form is to be Octagonal—the foundation is to be of Stone, to be sunk thirteen feet below the bottom of the Water table, or the surface of the Earth, and to be commenced the Diameter of twenty nine feet. From such commencement to the bottom of the Water table, the foundation wall is to be thirteen feet high, and nine feet thick.

The Diameter of the base from the bottom of the Water Table to the top thereof (where the Octagonal pyramid is to commence) is to be twenty eight feet, and the wall is there to be seven feet thick. The wall of the Octagonal pyramid is to be six feet thick at the Base thereof, on the top of the Water table.

The Height of the building, from the bottom of the Water table and from the surface of the Earth, is to be eighty feet to the top of the stone work, under the floor of the Lantern; where the Diameter is to be sixteen feet six inches, and the wall three feet thick. The whole to be built of stone; the Water table is to be caped with fawed stone, at least eight inches wide, and sloped at top to turn off the water.

The outside of the walls is to be faced with hewn or hammer dressed stone, having four windows in the East, and three in the West. The Sashes to be hung with hinges, and each sash to have twelve panes of glass, eight by ten inches.

On the top of the Stone work is to be a framed tier of Joists, beaded therein, planked over with Oak plank, extending three feet beyond the wall, thereby forming an eave, which is to be finished with a Cornice, the whole having a descent from the Centre, sufficient to throw off the water, and to be covered with Copper. A complete and sufficient iron lantern, in the Octagonal form is to rest thereon, the Eight corner pieces or Stanchions of which, are to be built in the wall to the depth of ten feet. These Stanchions are to be nearly 3 inches square in the lower ten feet, and 3 1/2 by 2 1/2 inches above. The lantern is to be ten feet and nine inches in diameter. It is also to be ten feet high, from the floor to the bottom of the dome or roof, and to have a dome or roof of five feet and nine inches in height. The whole space between the posts or upright pieces at the angles is to be occupied by the Sashes, which are to be moulded on the inside and struck Solid. Each sash is to have twenty eight panes of glass, thirteen by twelve inches, a part of the sash on the south west side is to be hung with hinges for a convenient door to go out on the platform.

The rafters of the Lantern are to be framed into an Iron hoop, over which is to be a copper funnel, through which the smoke may pass into a large Copper Ventilator in the form of a man's head; capable of containing 100 Gallons. This head is to be turned by a large vane; so that the hole, for venting the smoke, may be always to Leeward.

Eight dormant Ventilators are to be fixed in the roof, a large curved air pipe is to be passed thro' the floor, and a close Stove is to be provided and fixed in the Lantern.

There are to be seven pair of Stairs to ascend to the Lantern, the entrance to which is to be by a trap door covered with copper.

The building is to be furnished with two complete electrical Conductors, or rods with points. The floors are to be laid with plank, of at least one inch and one half in thickness. The entrance to the Light-House to be well secured by a strong door hung upon hinges, with a strong lock and latch complete.

Also a Frame house to be thirty four feet in front and sixteen feet deep, with a cellar under it. The cellar walls to be eighteen inches thick, and seven feet high. The first story of the house is to be eight feet, and the second, seven feet six inches high, the floors to be laid in whole lengths nailed through. The stack of Chimneys with two plain fire places on each floor, one of them large for a kitchen; two windows below, and three above in front and rear, each sash to have eighteen panes of glass ten by eight inches. The doors to be hung and furnished completely.—The ceilings and sides of the house to be plastered with two coats, all the wood work inside & out to be well painted & the whole to be finished in a plain decent manner.

An oil Vault is to be built twenty by twelve feet in the clear, arched over and covered with earth or sand over which a shed is to be built—it is to be furnished with nine iron cedar cisterns, with covers each capable of containing two hundred gallons.

The entrance to the vault is to be secured by a strong door. A well is to be sunk at a convenient distance, and furnished with a curb, bucket and rope completely. The builder to find and pay for all the materials, labor, workmanship, provisions, and other objects of cost, charge or expence for a sum to be agreed upon and to execute the before described work and every part thereof in a good and workmanlike manner.

Convenient payments or advances, on security will be made

TO BE SOLD,

THAT large Grazing FARM, now in the tenure of Mr. John Piffant; containing about 471 acres, more than 200 of which are meadow of the best quality; the remainder consists of cedar and maple swamp, upland, and outside marsh, mostly fit to be taken in. It is situated on the river Delaware, with a commodious and excellent landing, directly opposite to Chester, and between Repaupa and Raccoon creeks, in Gloucester county; from which creeks public market boats go every week to the city. This Farm may be conveniently divided into two, leaving two dwellings in good situations; has barns and stabling for feeding 60 head of cattle; and, from its many advantages, must be an object for any one extensively in the grazing or dairy way. For terms or more particular information, apply to Richard Whitehead,

June 30.
