FOR SALE,

In Bath County, Virginia,

450 Acres of Good Land.

WHEREON are the Hot Springs, which are from 70 to 110 degrees of heat. There is on the said land a handsome and commodious house two stories high, 60 by 30 feet, with a parterre the full length of the house, and extending to the upper story, and other necessary houses fit for a Public House, for which were intended; good houses are over several of the baths, with convenient rooms. There are adjacent thereto, two remarkable cold springs of well tasted lime-stone water. These baths are a specific for the most obstinate rheumatic and all other diseases originating from cold or obstructed perspiration, and gives great relief in the gout; they have effected wonderful cures in various diseases incident to the ladies; they have this spring made a perfect cure of a disease on a West-Indian resembling the leprosy, and are remarkable for the cure of white swellings, contracted nerves, and many other diseases too obdurate to be effected by medicine.

There is near the said Baths, A new Saw-Mill erected, and a Race dug from thence, to build a Manufacturing Mill, which retains about 30 acres of rich Meadow Land as any upon the Continent, and may be watered every night, and the hay made thereon sells as well as any that is made near any city or town within the United States.

The proprietors of the above property will treat for the same on the premises, at any time between the 20th of August and the 20th of September; they will also sell Valuable Land for iron or three Farms near the said Springs, and if the said Land and Houses at the Springs are not sold, they will be rented.

N. B. Good accommodations are provided at the above Springs for ladies and gentlemen this season, which from experience is found best to commence in June, and end the first of October.
