THOMAS STEPHENS,

For the greater convenience of conducting his business extensively, has removed from No. 57, to No. 60 South Second Street, on the west side—where he has received by the last arrivals, an extensive collection of useful Books, and the best Stationary. Also, a variety of New Music, Bunbury's curious Caricatures, Prints, Oil Paintings, Drawing Books, &c. &c. all which he will sell, as usual, for a small profit.

T. S. embraces this opportunity to acknowledge the liberal encouragement he has always experienced from the citizens of Philadelphia—returns his most sincere thanks, and pledges himself to use constant exertions to merit continual favor, and to have his store the place for elegant and useful literature.

COLLEGE OF NEW-JERSEY.

ADVERTISEMENT.

THE Grammar School formerly attached to this College, having gradually declined through the increasing infirmities of the late President for some time before his death, it is proposed by the subscriber immediately to revive it, and to put it under the most careful instruction and government. The Latin, Greek, and French Languages shall be taught in it, together with the principles of English Grammar, of Geography, and practical Geometry. Parents, I know, who do not chuse that their children should go through the intricate course of studies in the College, may now have them instructed in any particular branches in the same manner, on the same terms, and to the same extent as in the College—particularly in the antiquities and mythology of Rome, in Geography, in the Mathematics, in Natural Philosophy and Astronomy, in Moral Philosophy and the Principles of Civil Government, in Eloquence, and in the Elements of History. They may address their children to any of the Masters in the College, or to

SAMUEL S. SMITH.

N. B. The young gentlemen shall be under the same rules of moral discipline as the other students—they shall be subjected to public examinations, and, at leaving the College, shall be entitled to public testimonials of the branches they have studied, and of their proficiency in them.

P. S. The School is already opened, and under the direction of Mr. Scott.

JAMES M'ALPIN,

TAYLOR,

No. 3 South Fourth Street,

RETURNS his grateful acknowledgments to his Friends and the Public for their liberal encouragement, and begs leave to solicit a continuance of their favors.

At his Shop gentlemen may be furnished with the best materials, and have them made up, and finished in the most fashionable manner. He will thankfully receive any orders and pay a prompt and punctual attention to them.

50,000 Tickets at 8 dollars 400,000

This Lottery will afford an elegant specimen of the private buildings to be erected in the City of Washington—Two beautiful designs are already selected for the entire fronts on two of the public squares; from these drawings, it is proposed to erect two centre and four corner buildings, as soon as possible after this Lottery is sold, and to convey them when complete, to the fortunate adventurers, in the manner described in the scheme for the Hotel Lottery. A nett deduction of five per cent. will be made to defray the necessary expenses of printing, &c. and the surplus will be made a part of the fund intended for the National University, to be erected within the City of Washington.

The drawing will commence as soon as the Tickets are sold off—The money prizes will be payable in thirty days after it is finished, and any prizes for which fortunate numbers are not produced within twelve months after the drawing is closed, are to be considered as given towards the fund for the University, it being determined to let the whole business in a year from the ending of the drawing and to take up the bonds given as security.

The real securities given for the payment of the Prizes are held by the President and two Directors of the Bank of Columbia, and are valued at more than half the amount of the Lottery.

The twenty four gentlemen who by appointment of the late Commissioners assisted in the management of the Hotel Lottery are requested to undertake this arduous task a second time on behalf of the public; a sufficient number of these having kindly accepted, it is hoped that the friends to a National University and the other federal objects may continue to favor the design. The synopsis of one of the Colleges, to form a branch of the National Institution, is already in the press, and will be speedily published, together with its constitution.

A complete PLAN of the whole of this important Institution, compiled from a selection of the best materials, ancient and modern, will be submitted to the public whenever the same may have gone through such revisions as may be necessary to establish the perfect confidence and general approbation, so essential to its present rise and future existence for the general good of America.

By accounts received from the different parts of the Continent as well as from Europe, where the tickets have been sent for sale, the public are assured that the drawing will speedily commence, and that the care and caution unavoidably necessary to insure a safe disposal of the tickets, has rendered the minor suspension indispensable.

JUST PUBLISHED,

By FRANCIS & ROBERT BAILEY, and to be sold at their Bookstore, No. 116 High street, and by the principal Printers and Bookellers throughout the United States,

A Revealed Knowledge of the Prophecies and Times,

Particularly of the present time, the present war, and the prophecy now fulfilling. Containing, with other great and remarkable things not revealed to any other person on Earth, the sudden and perpetual FALL of the TURKISH, GERMAN and RUSSIAN empires. Wrote under the direction of the Lord God, and published by his sacred command; it being a second sign of warning for the benefit of all nations; by the man that will be revealed to the Hebrews as their Prince and Prophet. The year of the World 5813.

By RICHARD BROTHERS.

FROM the following Extracts the Public will be enabled to form a judgment of the work.

"A man that has been an officer in the Navy, whose immediate ancestors have been separated from the Jews for such a considerable length of time as to make them forget they ever belonged to the name, such a man declaring himself openly to the world a prophet of God, the revealed prince allotted to order the sudden return of the Hebrews from all nations, and govern them in the land of Israel, will, with some reason I allow, excite both astonishment and doubt; but from the multiplied recorded testimonies I produce, which no other on earth can, it ought not to prevail with any person as a just objection against believing what I write."

"The prophet Daniel, chapter 8, verse 8. And four gr. at beats came up from the sea, different from one another. 4. The first was like a Lion, and it had Eagle's wings: I beheld 'till the wings were plucked, when it was lifted up on the Earth, and made to stand on the feet as a man: and a man's heart was given to it."

"The Lion means George the Third, the present King of England: plucking the wings of the Lion, means taking away the power of the king: made to stand on the feet as a man, with a man's heart, means his reduction to the condition of other men, and possessing similar thoughts."

"THE SPANISH MONARCHY will cease by this war, and the STADTHOLDERSHIP of HOLLAND will be cut off close to the ground; according to the visions of god to me, in 1792, and which I communicated at that time, by his sacred command, to the King and Queen of England."

"The DUTCH will acknowledge the French Republic, and make a haly peace with it; the PORTUGUESE and PRUSSIAN will do the same."

"THE UNITED STATES OF AMERICA will declare war against England; but before they do, France will lose all her West India Islands; and after they do, Jamaica will be the last in the possession of the English."

TREASURY DEPARTMENT,

Revenue-Office, April 27, 1795

PROPOSALS will be received at the Office of the COMMISSIONER of the REVENUE for building

A LIGHT HOUSE

on the head land of Cape Hatteras on the coast of North Carolina, of the following materials, dimensions, and description.

THE form is to be octagonal.—The foundation is to be of stone, to be sunk thirteen feet below the bottom of the water table or the surface of the earth, and to be commenced the diameter of twenty nine feet.—From such commencement to the height of four feet the foundation is to be laid solidly and from thence to the bottom of the water table, the foundation wall is to be nine feet high and nine feet thick.

The diameter of the base from the bottom of the water table to the top thereof (where the octagonal pyramid is to commence) is to be twenty eight feet four inches and the wall is there to be seven feet thick—the wall of the octagonal pyramid is to be six feet thick at the base thereof, on the top of the water table.

The height of the building from the bottom of the water-table, and from the surface of the earth, is to be ninety feet to the top of the stone-work, under the floor of the lantern; where the diameter is to be sixteen and one half feet and the wall three feet.—The whole of the walls is to be built of stone: the water table is to be cap with sawed stone, at least eight inches wide and sloped at the top to turn off the water. The outside of the walls is to be faced with hewn or hammer dressed stone, leaving four windows in the north east and five windows in the fourth west. The faces are to be hung with hinges, and each face is to have twelve panes of glass, eight by ten inches.

On the top of the stone work is to be a framed tier of joists, bedded therein, planked over with oak planks, extending two feet beyond the wall thereby forming an eave which is to be finished with a cornice, the whole having a descent from the centre sufficient to throw off the water, and to be covered with copper. A complete and sufficient iron lantern in the octagonal form is to rest thereon. The eight corner pieces or stanchions of which, are to be built in the wall to the depth of ten feet. These stanchions to be nearly three inches square in the lower ten feet, and 3 1/2 inches by 2 1/2 inches above. The lantern is to be ten feet and nine inches in diameter, it is also to be ten feet high from the floor to the bottom of the dome or roof and to have a dome or roof of five feet and nine inches in height. The whole space between the posts or upright pieces at the angles is to be occupied by the faces, which are to be moulded on the inside and finish solid. Each face is to have twenty eight panes of glass, fourteen by twelve inches. A part of the face on the fourth west side is to be hung with hinges for a convenient door to go out on the platform. The rafters of the lantern are to be framed into an iron hoop, over which is to be a copper funnel, thro' which the smoke may pass into a large copper ventilator in the form of a man's head, capable of containing one hundred gallons.

This head is to be turned by a large vane; so that the hole for venting the smoke, may be always to leeward. Eight dormant ventilators are to be fixed in the roof, a large curved air pipe is to be pulled through the floor, and a close stove is to be provided and fixed in the lantern. There are to be eight pairs of stairs to ascend to the lantern, the entrance to which is to be by a trap door, covered with copper. The building is to be furnished with two complete electrical conductors, or rods with points. The floors are to be laid with plank, of at least one inch and one half in thickness. The entrance to the light house is to be well secured by a strong door hung upon hinges with a strong Lock and latch complete.

Also a frame House to be thirty four feet in front and sixteen feet deep with a cellar under it. The cellar walls to be eighteen inches thick and seven feet high.

The first story of the house is to be eight feet, and the second, seven feet and six inches high. The floors are to be laid in whole lengths, nailed through. The back of chimneys is to be finished with two plain fire places on each floor, one of them large for a kitchen. Two windows below and three above in front and rear, each with eight panes of glass ten by twelve inches. The doors are to be hung and furnished completely.

The ceilings and sides of the House are to be plastered with two coats; all the wood work inside and out is to be well painted and the whole to be finished in a plain decent manner.

An Oil vault is to be built twenty feet by twelve feet in the clear, arched over and covered with earth or sand over which a shed is to be built—It is to be furnished with nine strong Cedar Cisterns with covers, each capable of containing two hundred gallons.

The entrance to the vault is to be secured by a strong door. A well is to be sunk at a convenient distance, and furnished with a curb, bucket and rope complete.

The builder to find and pay for all the materials, labor, workmanship, provisions, and other objects of cost, charge or expence, for a sum to be agreed upon, and to execute the before described work and every part thereof in a good and workman-like manner.

Convenient payments or advances, on Security will be made.
