SCHEME of the LOTTERY, No. II, FOR THE IMPROVEMENT OF THE FEDERAL CITY.

A magnificent 20,000 Dollars, and drawing twice, each 10,000 are

Table with 3 columns: Prize amount, Number of tickets, and Total value. Includes prizes of 15,000, 10,000, 5,000, and 1,000 dollars.

16,739 Prizes, 83,461 Blanks

50,000 Tickets at 80 Cents each 400,000

This Lottery will afford an elegant specimen of the private buildings to be erected in the City of Washington. Two beautiful designs are already selected for the entire front on two of the public squares; from these drawings, it is proposed to erect two centre and four corner buildings, as soon as possible after this Lottery is sold, and to convey them when complete, to the fortunate adventurers, in the manner described in the scheme for the Hotel Lottery. A net deduction of five per cent. will be made to defray the necessary expenses of printing, &c. and the surplus will be made a part of the fund intended for the National University, to be erected within the City of Washington.

The drawing will commence as soon as the Tickets are sold off. The money prizes will be payable to thirty days after it is finished, and any prizes for which fortunate numbers are not produced within twelve months after the drawing is closed are to be considered as given towards the fund for the University, it being determined to settle the whole business in a year from the ending of the drawing and to take up the bonds given as security.

The real securities given for the payment of the Prizes are held by the President and two Directors of the Bank of Columbia, and are valued at more than half the amount of the Lottery.

The twenty four gentlemen who by appointment of the late Commissioners assisted in the management of the Hotel Lottery are requested to undertake this arduous task a second time on behalf of the public; a sufficient number of these having kindly accepted, it is hoped that the friends to a National University and the other federal objects may continue to favor the design. The synopsis of one of the Colleges, to form a branch of the National Institution, is already in the press, and will be speedily published, together with its constitution.

A complete PLAN of the whole of this important Institution, compiled from a selection of the best materials, ancient and modern, will be submitted to the public whenever the same may have gone through such revisions as may be necessary to establish the perfect confidence and general approbation, so essential to its present rise and future existence for the general good of America.

By accounts received from the different parts of the Continent as well as from Europe, where the tickets have been lent for sale, the public are assured that the drawing will speedily commence, and that the care and caution unavoidably necessary to insure a safe disposal of the tickets, has rendered the more suspension indispensable.

Scheme of a Lottery,

To raise 50,000 Dollars, on 200,000 Dollars Deducting 15 per Cent. from the Prizes—this Lottery consists of 38,000 Tickets, in which there are 14,539 Prizes, and 23,461 Blanks, being about one and a half blanks to a prize.

THE Directors of the Society for establishing Useful Manufactures, having resolved to erect LOTTERIES for raising ONE HUNDRED THOUSAND DOLLARS, agreeably to an Act of the Legislature of the State of New-Jersey, have appointed the following persons to superintend and direct the drawing of the same, viz. Nicholas Low, Rufus King, Hannan Le Roy, James Watson, Richard Harrison, Abijah Hammond, and Cornelius Ray, of the City of New-York—Thomas Willing, Joseph Ball, Matthew McConnell and Andrew Bayard, of the City of Philadelphia—His Excellency Richard Howell, Esq. Elias Boudinot, General Elias Dayton, James Parker, John Howard, Doct. or Lewis Dinnah, Samuel W. Stockton, Joshua M. Wallace, Joseph Bloomfield, and Eliza Boudinot, of New Jersey, who offer the following Scheme of a Lottery, and pledge themselves to the public, that they will take every precaution and prosecution in their power to have the Monies paid by the Managers from time to time, as received, into the Banks at New-York and Philadelphia, to remain for the purpose of paying Prizes which shall be immediately discharged by a check upon one of the Banks.

SCHEME:

Table with 3 columns: Prize amount, Number of tickets, and Total value. Includes prizes of 20,000, 10,000, 5,000, 1,000, 500, and 100 dollars.

14,539 Prizes, 23,461 Blanks

50,000 Tickets at 80 Cents each is 400,000

The drawing will commence, under the inspection of a Committee of the Superintendants, as soon as the Tickets are sold, of which timely notice will be given.

The Superintendants have appointed John N. Cunningham of Newark, Jacob R. Hardenberg, of New-Broadwick, and Jonathan Rhea, of Trenton, as immediate Managers thereof, who have given ample security for discharging the trust reposed in them.

In order to secure the punctual payment of the Prizes, the Superintendants of the Lottery have directed that the Managers shall each enter into bonds in 40,000 Dollars, with four sufficient securities, to perform their inductions, the substance of which is

- I. That whenever either of the Managers shall receive the sum of Three Hundred Dollars, immediately he shall place the same in one of the Banks of New-York or Philadelphia, to the credit of the Governor of the Society, and such of the Superintendants as live in the city where the monies are placed, to remain there until the Lottery is drawn, for the payment of the Prizes.
II. The Managers to take sufficient security for any Tickets they may sell, otherwise to be responsible for them.
III. To keep regular books of Tickets sold, Monies received and paid into the Bank, abstracts of which shall be sent, monthly, to the Governor of the Society, Paterfon, January 1, 1799.
On application to either of the above gentlemen, information will be given where tickets may be had, &c. &c.

ALL persons having any demands on the Estate of MARY HEWSON, late of Bucks county, deceased, are desired to apply to WILLIAM HEWSON, near Bristol, in the county aforesaid, for immediate settlement. And all persons indebted to said Estate are requested to make payment to the said William Hewson, who is hereby authorized to receive the same.

FOR SALE,

A very valuable ESTATE, Called TWITTENHAM.

SITUATE in the township of Upper Derby, and county of Delaware, 7 1/2 miles from Philadelphia, and half a mile from the new Western road; containing 230 acres of excellent Land, 45 of which are good watered Meadows, 90 of prime Wood Land, and the rest Arable of the first quality. There are on the premises a good two-story Brick House, with a room on a floor, and Cellars under the whole, with a Pump Well of excellent Water in front; a large frame Barn, Stables, and other convenient buildings; a Smoke-House and stone Spring House; two good Apple-Orchards, and one of Peaches. The Fields are all in Clover, except those immediately under tillage, and are so laid out as to have the advantage of Water in each of them, which renders it peculiarly convenient for Grazing.

The situation is pleasant and healthy, and from the high cultivation of the Land, the good neighborhood, and its vicinity to the city, it is very suitable for a Gentleman's Country Seat.

The foregoing is part of the Estate of Jacob Harman, deceased and offered for sale by MORDECAI LEWIS, Surviving Executor.

O.R. 9, 1795

A MILL for SALE.

FOR Sale, on private contract, five undivided sixths parts of that valuable merchant-mill, called Old Pennypack Mill, with two dwelling houses, stables, cooper's shop, calf house, and other convenient buildings, with about 20 acres of good land, the greatest part thereof is excellent watered meadow, the remainder garden, orchard, and wood land; situate ten miles from Philadelphia, near the Washington Tavern, partly on the post-road leading to New-York, and partly on the River road; a remarkably healthy country, and an excellent neighbourhood. This mill being on Pennypack creek, a heavy stream of water, with about 15 feet head and fall, and the tide flowing about 6 feet, will admit a vessel carrying 1300 bushels of wheat to lay along side, and unload into the mill with Evans's elevator in about three hours. The mill house is large and built of stone, founded on a rock, the walls uncommonly thick and strong, (such a piece of masonry work is rarely to be found) contains five floors, two water wheels, and three pair of the best French burr stones all running, double geared, with three bolting reels and cloths of the first quality, rolling screen, cylinder, and fans for cleaning wheat in the best manner, and passing it afterwards by an elevator into a hanging garner; also, conveyers, elevators, and hopper boy, all in complete order. There are two large frame buildings adjoining the mill, which are convenient for storing flour, shorts, cakes, &c. A corn-kiln is erected within the building, with bolting, reel cloth, and other necessary fixtures for manufacturing large quantities of kiln-dried corn meal. The stream of water is so constant that upwards of 60,000 bushels of wheat have frequently been manufactured at this mill, annually. The tumbling dam was built of stone and frame about 30 years ago, but the late extraordinary freshes have made a breach therein, it can easily be repaired altogether with stone, the greatest part of which is already at hand, and the remainder can be quarried near the dam, as there are several good quarries of excellent stone on the premises, and adjacent to the creek; the contiguity of this very valuable estate to Philadelphia, and the easy navigation for shallops, with the above-mentioned great advantages, and many others not here mentioned, must be obvious to any person who may view the premises.

An indisputable title, clear of all incumbrances, will be made to the purchaser on paying part of the money, and giving satisfactory security for the remainder, payable with interest in instalments at such times as may be agreed on. For further particulars enquire on the premises of FRANCES LEWIS, Executrix to the estate of Robert Lewis, deceased; JOHN SWIFT, near Bullsell-Town; or NATHANIEL LEWIS, or DAVID LEWIS, in Philadelphia. August 21.

Forty Dollars Reward.

RAN away from the subscriber, living at Mordington Mills, near Frederica, in Kent county, state of Delaware, on the night of the 27th of June last, a slave negro man named BENN, about 27 years old, 5 feet 10 or 11 inches high, of a yellow complexion, and might pass for a mulatto. The clothes he had on cannot, with exactness, be described, as he made several breaches of honesty, in that way, on his setting out. He is a very great sloop in his dress; has naturally a condemned and frowny countenance, altho' he at times affects a smiling one; his visage is thin, with large black whiskers; the whites of his eyes often red; it is not recollected whether he has any particular fish-marks, except on his back, where may be seen (tho' light) the ro of the whip, placed by judicial authority, for house-breaking, lock-breaking, stealing, &c. as well before, as since he purchased him. He is possessed of but a small share of reason or sensibility; a great coward, tho' his looks are devilish, and at the same time sneaking. As he took his flight upwards from here, at the commencement of harvest, it is presumed he was persecuted by some of the free negroes in this quarter to make his escape with them—should he not be in Philadelphia, he is probably between here and there. Whoever takes up the said negro Benn, and secures him in any public goal; so that his master may get him again, shall have the above reward; and if brought home additional charges for reasonable expenses, paid by James Douglass. Charlotte a tale of truth—by Mrs. I. Swift, of the new Theatre, Philadelphia. Second American edition—Price 75 cents. [The rapid sale of the first edition of this interesting novel, in a few months is the best criterion of its merit.]

EXTRACT FROM THE CRITICAL REVIEW, APRIL 1791, p. 463. "It may be a tale of truth, for it is not unnatural, and it is a tale of real distress—Charlotte, by the assistance of a teacher, recommended to a school, from humanity rather than a conviction of her integrity, or the regularity of her former conduct, is enticed from her governess, and accompanies a young officer to America—the marriage ceremony, if not forgotten, is postponed, and Charlotte dies a martyr to the inconstancy of her lover and treacher of his friend.

The situation is arduous and affecting—the description natural and pathetic; we should feel for Charlotte if such a person ever existed, who for one error, inexcusable, perhaps deserved to receive a punishment. If it is a fiction, poetic justice is not, we think, properly distributed."

The Panorama.

MR. SAVAGE respectfully informs the Ladies and Gentlemen of Philadelphia that the PANORAMA is now opened in High-street, between 10th and 11th streets. The Subject is a view of the Cities of London and Westminster, comprehending the three bridges, Southwark, Surrey, and St. George's Fields in the Borough, with every other object which appears from the top of the Albion hills, at the end of Blackfriars Bridge, opposite the city of London, from whence this view was taken. The painting contains nearly 3,000 square feet of canvas. Being in a circle gives every object its proper bearing, and exhibits it in its true point of compass, appearing as large and in every respect the same as the reality.

Price of admission half a dollar. Tickets for the Season three dollars.

PANORAMA open every day from ten o'clock in the morning. A PRINT of the PRESIDENT of the U. S. 18 inches by 14; only a few choice impressions left: the companion is a print of Dr. Franklin. A variety of choice prints may be had at the Panorama.

LOTTERY INTELLIGENCE.

We are informed that the gentleman who drew the 15,000 dollar prize, in the Canal Lottery, was the proprietor of only a single Ticket—This instance of good fortune, shews that it is well to be in Fortune's road; and is the more pleasing, as the owner of the prize is a very worthy, though not a very affluent citizen.

The Scheme of the Canal Lottery is certainly one of the best which has appeared—For, independent of the useful objects to which its proceeds are to be applied, the scheme is so calculated as to continually enhance the value of the Tickets remaining in the wheel; because, while the drawing progresses, the chance of a capital prize growing greater, must increase the value of the undrawn Ticket.

The Prizes drawn to the close of the drawing on last Wednesday Evening, were

Table with 2 columns: Prize amount and Number of tickets. Includes: 15,000 of 1, 2,000 of 8, 1,200 of 5, 500 of 4, 100 of 3, 12 of 1700.

And there then remained in the wheel

Table with 2 columns: Prize amount and Number of tickets. Includes: 50,000 of 1, 30,000 of 1, 10,000 of 2, 2,500 of 6, 2,000 of 9, 1,000 of 15, 500 of 36, 100 of 89, 12 of 14800.

And 5 stationary prizes of 20,000 dollars each; by which, and the nature of those 5 stationary prizes, which are to belong to the five last drawn tickets, it will be found, that an undrawn ticket was yesterday morning, worth nearly 11 1/2 dollars, which, at the beginning, was worth no more than 10 dollars—and so the undrawn tickets must continue to increase in value, as fast as the drawing proceeds: And this circumstance will account for the number of Offices which are opened for the sale of Tickets, as the profits must be daily increasing; and in a few days a Ticket now selling at 11 dollars, will no doubt command 15 dollars, and must continue to get higher as the drawing approximates to the five stationary prizes of 20,000 dollars each.
