This Lottery will afford an elegant specimen of the private buildings to be creded in the City of Washington.

Two beautiful designs are plready selected for the entire fronts on two of the public squares; from these drawings, it is proposed to crede two centre and four corner buildings, as soon as possible after this Lottery is sold, and to convey them when complete, to the fortunate adventurers, in the manner described in the scornary described to defray the accession of six per cent, will be made to defray the accession of six per cent, will be made to defray the made a part of the fund intended for the National University, to be creded within the City of Washington.

Washington.

The drawing will commence as soon as the Tickets The drawing will commence as foon as the Tickets are fold off.——The money prizes will be payable in thirty days after it is finished, and any prizes for which fortunate numbers are not produced within twelve months after the drawing is closed are to be considered as given towards the fund for the University, it being determined to fettle the whole business in a year from the ending of the drawing and to take up the bonds given as security.

The real fecurities given for the payment of the Prize are held by the Prefident and two Directors of the Bank of Columbia, and are valued at more than half the amount of the Lottery.

The twenty four gentlemen who by appointment of the late Commissioners assisted in the management of the Hotel Lottery are requested to undertake this ardwous task a second time on behalf of the public; a sufficient number of these having kindly accepted, it is hoped that the friends to a National University and the other federal objects may continue to favor the design. The synopsis of one of the Colleges, to form a branch of the National Institution, is already in the press, and will be speedily published, together with its constitution.

A compleat Plan of the whole of this supportant lessitution, compiled from a selection of the best materials, ancient and modern, will be submitted to the public whenever the same may have gone through such revisions as may be necessary to establish the perfect considence and general approbation, so essential to its present rise and future existence for the general good of America.

By accounts received from the different parts of the Continett as well as from Europe, where the tickets have been sent for sale, the public are assured that the drawing will speedily commence, and that the care and caution unavoidably necessary to insure a fase disposal of the tickets, has rendered the mort suspension indisposalor.
