

The Panorama.

MR. SAVAGE respectfully informs the Ladies and Gentlemen of Philadelphia that the PANORAMA is now opened in High-street, between 10th and 11th Streets. The Subject is a view of the Cities of London and Westminster, comprehending the three bridges, Southwark, Surrey, and St. George's Fields in the Borough, with every other object which appears from the top of the Abbey mills, at the end of Blackfriars Bridge, opposite the City of London, from whence this view was taken. The painting contains nearly 3,000 square feet of canvas. Being in a circle gives every object its proper bearing, and exhibits it in its true point of compass, appearing as large and in every respect the same as reality.

Price of admission half a dollar. Tickets for the Seaton three dollars.

PANORAMA open every day from ten o'clock in the morning.

A PRINT of the PRESIDENT of the U. S. 18 inches by 14; only a few choice impressions left; the companion is a print of Dr. Franklin. A variety of choice prints may be had at the Panorama.

Mr. Walter Robertson

DEEGS leave to acquaint the Gentlemen, subscribers to the print Portrait of George Washington, President of the United States of America, engraved by Mr. Field, from an original picture painted by W. Robertson, that the Proofs are ready for delivery to the several subscribers at John James Barrelet's, No. 19 north Ninth-street; or at J. Ormrod's, bookseller, No. 41, Chestnut-street, where the subscribers are requested to send their address.

50,000 Tickets, at Eight Dollars, 40,000

This Lottery will afford an elegant specimen of the fine buildings to be erected in the City of Washington. Two beautiful designs are already selected for the entire rents on two of the public squares; from these drawings, it is proposed to erect two centre and four corner buildings, as soon as possible after this Lottery is sold, and to convey them when complete, to the fortunate adventurers, in the manner described in the scheme for the Hotel Lottery. A net deduction of five per cent. will be made to defray the necessary expenses of printing, &c. and the surplus will be made a part of the fund intended for the National University, to be erected within the City of Washington.

The drawing will commence as soon as the Tickets are sold off. The money prizes will be payable in thirty days after it is finished, and any prizes for which fortunate numbers are not produced within twelve months after the drawing is closed are to be considered as given towards the fund for the University, it being determined to settle the whole business in a year from the ending of the drawing and to take up the bonds given as security.

The real securities given for the payment of the Prize are held by the President and two Directors of the Bank of Columbia, and are valued at more than half the amount of the Lottery.

The twenty four gentlemen who by appointment of the late Commissioners assisted in the management of the Hotel Lottery are requested to undertake this arduous task a second time on behalf of the public; a sufficient number of these having kindly accepted, it is hoped that the friends to a National University and the other federal objects may continue to favor the design. The synopsis of one of the Colleges, to form a branch of the National Institution, is already in the press, and will be speedily published, together with its constitution.

A complete PLAN of the whole of this important institution, compiled from a selection of the best materials, ancient and modern, will be submitted to the public whenever the same may have gone through such revisions as may be necessary to establish the perfect confidence and general approbation, so essential to its present life and future existence for the general good of America.

By accounts received from the different parts of the Continent as well as from Europe, where the tickets have been sent for sale, the public are assured that the drawing will speedily commence, and that the care and caution unavoidably necessary to insure a safe disposal of the tickets, has rendered the most suspension indispensable.

Insurance from Loss by Fire.

THE Insurance Company of North-America, to accommodate the Public, throughout the United States, with respect to insurances from Fire on BUILDINGS of every description, hereby publish, that resolutions to this effect have passed their Board; and that hereafter they shall be ready to make such insurances on terms to be fixed by their President and Committee, agreeably to circumstances. Those who are anxious to effect insurances, will find their advantage in sending the most particular statement of their buildings, and the relative circumstances. Persons not having a correspondent in this city, or who prefer doing this business with the Office directly, by means of Letters, post paid, must not fail to enclose a builder's description of the dimensions, condition, materials and situation of the building proposed to be insured, especially with respect to its contiguity to other buildings, and whether those buildings be of wood, or brick, or stone. It must be particularly stated, whether the building itself, or those in its neighbourhood, be occupied as dwellings, or used as magazines or manufactories; and for what particular purpose; and to obviate all objection, it is expected that this builder's statement, and the representation annexed, shall be severally signed by the parties, and accompanied by a magistrate's certificate, that they are persons of good repute. For the government of the Public, they deem it expedient to notice, that although the premium must be fixed according to the degree of hazard in the estimation of the President and Committee of the week, yet it will probably not vary more than from about half to one per cent. annually, except where a house or store is not only itself built of wood, but situated next other buildings of the same material. On such risks not more than four thousand dollars will be written on one policy. Houses and stores built of brick or stone, and situated in open streets in any of the principal towns or cities where fire engines and fire companies are established, and not containing articles particularly combustible, will be considered risks entitled to assurance at the lowest of these rates. On single hazards, even of the best kind, where from remoteness those advantages cannot be enjoyed, the Company will not assure more than six thousand dollars. No policy will be signed 'till the premium be paid.

Any person insuring for seven years, will be charged only the amount of six annual premiums; and for three years, a deduction of one-third of a year's premium will be made.

By order of the Board,
