16.739 Prizes. 33.261 Blanks. 50,000 Tickets, at Eight Dollars,

N. B. To favour those who may take a quantity of Tickets, the prize of 40,000 dollars will be the LAST drawn ticket, and the 30,000 the LAST but ONE:

And approved notes, securing payment in either money or prizes, in ten days atter drawing, will be received for any numbea not less than 30 tickets.

This Lottery will afford an elegant specimen of the private buildings to be erected in the City of Washington—Two beautiful designs are already selected for the entire fronts on two of the public squares; from these prawings it is proposed to erect two centre and four corser buildings, as soon as possible after this lettery is fold, and to convey them, when complete, to the fortunate adventurers, in the manner described in the scheme for the Hotel Lottery. A nett deduction of five per cent, will be made to descray the necessary expenses of priming, &c. and the surjous will be made a part of the fund intended for the National University, to be erected within the city of Washington.

The Drawing will commence as soon as the tickets are sold off.—The money prizes will be payable in thirty days after it is simished; and any prizes for which fortunate numbers are not produced within twelve months after the drawing is closed, are to be considered as given towards the fund for the University; it being determined to settle the whole business in a year from the ending of the drawing, and to take up the boads given as security.

The real securities given for the payment of the Prizes, are held by the President and two Directors of the Bank of Columbia, and are valued at more than half the amount of the lottery.

The twenty sour gentlemen who by appointment of the latte Commissioners assisted in the management of the

mount of the lettery.

The twenty four gentlemen who by appointment of the late Commissioners affished in the management of the Hotel Lottery are requested to undertake this arduous task a second time on behalf of the public; a sufficient number of these having kindly accepted, it is hoped that the friends to a National University and the other sederal objects may continue to favor the design.

By accounts received from the different parts of the Continent as well as from Europe, where the tiekets have been sent for sale, the public are affured that the drawing will speedily commence, and that the care and caution unavoidably necessary to insure a safe disposal of the tickets, has rendered the mort suspension indispensable.
