SPOKEN

The weather since Tuesday has been rather showery, but it coases to have any influence on our market, as harrest, with but very few exceptions, may be consi-dered over. The Grain market rules dull, millers and dealers standing aloof with the hope of a further fall; such will allogether depend on the course our own growers may adopt, and the general ophion amongst the most intelligent of them is, that a further deallers of 64 ψ quarter will cause them to hold back supplies, and it will only be whan foreign importations increase and undersell them they will be at all influenced. Deliveries of Wheat from our farmers for the past week consist of 135,244 quarters, against 106,353 quar-ters same week last year. Average price, 56s 64 ψ quarter, squinst 65s do corresponding week last year. Our market this morning was only very slenderly at-tended, millers and declers still exercising great cau-tion in their purchases; Foreign Wheat is called nomia-ally as on Tuesday, but had purchasers appeared for quantity there is little doubt but they could have sup-plied thereaselves on easior terms. New Trish still con-tinues very depressed, and where sales are pushed a further decline of Zada 34 ψ 70 hs. Good qualities of Flour nearly supported former quo-tations, but secondary was most difficult to cale, al-though procurable at 64 ψ barrel and 18 ψ sext de-cline.
