It is not thought that the shipmont of gold by the Peraia, to-morrow, will much ex-ceed \$1,500,000, the greater part of which will consist of remittances to pay dividends due abroad, and not to meet mercantile liabilities. Foreign Exchange was very duil to-day, at nomi-nally unchanged rates. With the exception of one or two favorite drawers, bills are generally distrusted, and gold preferable by remitters. The difficulty in selling exchange operates very prejudicially to the export trade of produce. It is hoped that one or two arrivals of good news from the other side will make the market for produce bills easier, and that the best relief may be found in the ready realisation of our now I unproductive wealth. There is the utmost in dignation expressed, and doubless felt, at the non-parment, in this diffy.  There was a very large business done in State istocks, Railroad bonds, and Government securities, and prices were well maintained. The feeling is cheerfal notwithstanding the decline; but while the market is so unsettled, no one can say what a day or an hour will bring forth to elate or depress buyers and sellors. The plethoris state of the market favors stock speculation, but a good deal of caution is obsorred, amateur speculators, but will store boing exceedingly wary.
